The quarter-final round

the AST division of the All-

Military ping-pong tournament

is scheduled to be played this

week, with a deadline for all

third round matches set for

Saturday. Company champions will vie for the AST crown at

All but two of the Aviation

Students' class champions have

earned their laurels. The play-

offs for the detachment title

will follow the selection of the

remaining class winners.

a later date.

Slate Quarter-Finals

Company A, B Commanders **Transferred**

Company commanders of both A and B companies were ordered out this week, as well as three other officers formerly connected with UN's military staff, according to an announcement from Col. James P. Murphy, military commandant.

2nd Lt. Francis M. Hesler, who rode herd on the engineers in Company B, has been transferred to the college of medicine in Omaha. He will take over command of the medical students there. His place as company commander has been taken by 1st Lt. Joseph J. Cook, who was previously sta-tioned on Ag with the STAR unit.

Company A's commander, 2nd Lt. John P. Northcut, has been shipped to Camp Carson, Colo. 2nd Lt John D. Yoxheimer, who was recently made commander of the Field House's Company F. will take over Lt. Northcut's du-

Also transferred were Captain Leo W. Pinard, commanding officer of the med students in Omaha, to recruiting service at Ft. Des Moines, Ia.; 1st Lt. Kenneth M. Thompson, of the STAR classification office, to Brooklyn, N. Y.; and 2nd Lt. Preston R. Armstrong, also from the STAR unit's classification office, to Ft. Sam Hous-

'C' Here

We are really in no position to report on current news of Company C today. Since so-called "newsy" columns are comprised as much of rumors as of anything else, and since we've been out of touch with the company for whole ten minutes or so, we feel completely incompetent

Now that the moving from 402 to 308 is all over with and the long-yearned-for lights have been obtained, comparative serenity rules the company, Only one thing puzzles us: When the heck are we have time, to be in

the barracks, to use the lights? y, ones is the fourth or fifth moving we've had since the course has started. But don't gel us wrong -we love the Army.

Which brings to mind the old old story of the inductee who walked around his reception center picking up scrap after scrap of paper; only, upon scanning each one, to shake his head sadly and say, "Nope, this ain't it."

After days of this behavior he was finally called to the medical officer's office and questioned about it. He made no protests of innocence and the officer was reluctantly forced to write out his took one look at it, jumped out of office, shouted, "Yep, this is it."

We sincerely hope that a statement of the company command-er's will prove to be far from prophetic. The statement, which sent little quivers up and down our back, was his never-tobe-forgotten, "I want you all to get ready to move . . ." Shades of POE

were upon us then. Our own legendary Jake Monduras took the Major at his word yesterday, was heard making a rapid "estimate of the situation" concerning his current favorite on sorority row. He skipped the first four paragraphs, mainly because his mission was quite plain. Paragraph No. 5 was occupying him when we spied Jake. He was merely debating the who, what, when, where and how of a date for Saturday night. The morning communique will prove whether the Major really had something or not. Tacticians take note.
