Nebraska Says 'Good Luck' To Adopted 59 Cornhuskers

BY RUTH KORB.

"Parting is such sweet sorrow," and they said good-bye, but there is no tomorrow. About four hundred AST's said farewell Monday afternoon to coeds, to friends, and to Nebraska. Tuesday night many more took the nearest road away from the foster alma mater.

Only once before in the history of the Union has the noise been so terrific, or the excitement at such a high pitch, and that was when Nebraska went to the Rose Bowl game. Every chair, couch, and bit of floor space was com-

pletely overrun with soldiers saying their good-byes.

Union vs. Grand Central.

An occasional tear slid down cheeks as pinmates and fiances said final adieus in the unromantic atmosphere of the Nebraskan office and other nooks and crannies around the Union, which took on all the aspects of Grand Central station.

But romance and sobs are just part of the story. Singing is always an essential, and the army (See FAREWELL, page 4.)

Chief Justice Simmons Advises Preservation of Beliefs, Rights

Robert L. Simmons, chief justice of the Nebraska Supreme Court, spoke at the vesper service held in Ellen Smith Hall Tuesday.

The subject of his address was, "Religion and Citizenship." He took his audience on an imaginary visit to some of the famous old churches in the east. As he described them, he pointed out that in many of these churches, American political history had been made.

Stating that religion was the guiding factor in the writing of

our governmental policies, he said, "The source of our political philosophy is in the basic principles of religion, in which all of us believe." He then gave warning that, "During the last few years we have witnessed an organized attack upon these principles, both in the guise of an attack on principles of government and in an attack on the age-old universal religious beliefs of people."

Must Preserve Beliefs.

"If we are to preserve our institutions of government, we must preserve the fundamental beliefs of people in their God and in their God-given rights," Simmons concluded.

Thieves Raid Three Houses Monday Nite

Over \$150 in cash was stolen from the Alpha Chi, SDT, and Sig Ep houses last Monday night.

Alpha Chis suffered the greatest loss of approximately \$95, while SDT's lost about \$60 and Sig Eps discovered about \$25 missing. No one was awakened at any of the houses and every accessible room was ransacked. Only cash was stolen, leaving checks and other valuables untouched.

Happened at 3:30 a. m.

The robberies must have taken place near or after 3:30 a. m., according to one Sig Ep who stated that he had been awake and studying until that hour.

One of the windows on the first floor of the SDT house had been left unlocked Monday night, which led the girls to believe that the thief or thieves had entered there and left by the front door because it was found unlocked in the morning, after having been locked the previous night.

Enter Via Balcony.

The Alpha Chis had their own suspicions about the invaders, believing them to be particularly agile in order to climb up the narrow brick posts to the second-floor serenade porch where the only unlocked door was to be (See THIEVES, page 4.)

During the war with Japan, when Central China college was forced to move from Wuchang to Kweilin, he was in charge of the students in their 600 mile trek to the new location. Since 1939 he has occupied his present position at Wuhan university, which is one of the four leading government universities in China. He is on leave of absence from the university during his stay in the United States.
