

Black For Dates . . .

Pictured above is Lorraine Beckenhauer, Kappa, in a spring black sheer crepe featured at Golds. Lattice-work braided trim forms the new portrait neckline, smart this season. Adding to the smartness is a peplum of the same braided trim. Also smart this season is the black felt half-hat, found on Gold's third floor in shades of lime, red and brown.

War Rationing Gives Challenge To Designers

War with its rationing and restrictions has been a challenge which fashion designers the world over have met and conquered with apparent ease. When the basic materials for "date" dresses were no longer obtainable ersatz materials were pressed into service and have proved to be most satisfactory.

A peek into current fashion books will show that the V neckline in both extreme and modified forms is still near the top of the style hit parade. Another favorite is the high round neckline so often used when the bodice is of a sheer material.

Spring spells pastels and prints to the fashion wise and a dark blue or black sheer is always to be desired. One of these dresses will see the wearer thru a day of shopping, luncheon, tea and even dinner and dancing.

With really good materials becoming increasingly difficult to obtain, a good spring suit in a neutral color is becoming a practical must, according to fashion experts. Three piece or two piece suits in shades of brown, tan, blue or gray will be a long time favorite in any coed's wardrobe.

Costumes For Any Affair . . .

Commenting on latest styles as seen in Vogue are Sally Emerson, Delta Gamma, and Jo Bohrer, Theta. Sally is wearing a gray 100% Botany wool suit featured at Miller and Paine in junior sizes. Cardigan neckline, fake-pocket bows and a deep kick plait also characterize the suit. Jo is attired in a Junior Modernage Room spring print of rayon crepe. Making it really smart are the lowered scalloped neckline and the draped front fullness caught in bows at the neck and waist.

Society . . .

BY JACKIE SCOTT.

The mysterious absence of Gordy Ehlers' Delt pin for three weeks caused quite a bit of comment over at the Tau House, but now that it is back again, it looks as if it wasn't important anyway. Seems that the ATO's are having a big picnic Friday night, but they won't all be at the same place, uh huh!!!

Candy passings went on as usual Monday night. The Alpha Chi's had a double one with Carolyn Windle and Eunice Ensor announcing their coming June marriages to fiancées Lt. Gene Harper, and Ensign Bill McConaughey, a D. U. here on the campus last year. Also at the Alpha Xi Delta house was the announcement of LaAnne Williams engagement to Lt. Owen Knudsen.

AOPI's Eat Sweets.
Margaret Hagen, AOPI, surprised her sisters Saturday night when she passed the candy with Charlie Hanford, Phi Delt in St. Louis. Incidentally it was her six months anniversary of being pinned. Monday night Janet Shaw, also AOPI, passed the candy announcing her engagement (she received the big diamond last week) to Merlin "Shep" Shepherd, Alpha Sig, now with the Marines in San Diego.

Awaiting the return of Phi Delt Neuman Buckley, now at OCS in Fort Benning, is pinmate Alpha Chi Sally White. Also waiting is Alpha Phi Demaris Morton for Lt. Emerson Jones, former Sigma Chi. Abigail Gilbert, grad student in English, got a diamond from her "Bostonian," previewing a wedding soon, we think.

Twosomes.
Seen together lately are Leo Keller and Eleanor Edison. It looks as though a certain girl won her bet . . . Alpha Chi Betty Mahan and Beta Bob Smith are on the dating list again, no more of that steady deal . . . Must have been a real "old-fashioned" picnic the Palladians had last week—one

boy and fifteen girls . . . Beta Neal Jenkins had fiancée Naomi Atkins down from Falls City for the Beta party Friday night . . . Back on leave is A/S Bob Frarry who seems to be spending all of his time with Tri Delt Jan Wilson.

No inkling of weekend news predicts a dull time here on the campus.

bracelets. They are made of natural or white leather with many-colored stones. Just the right touch for that cardigan suit may be jeweled double-clips with a connecting gold chain.

Perhaps some of these suggestions may help create new outfits out of old ones, and that is just one more way to help Uncle Sam.

Accessories . . .

(Continued from Page 1)
skin and cord purses are always appropriate too.

Gloves, those accessories carried but seldom worn after the snow and ice disappears are most practical in washable fabrics. This season extremely long or very short lengths are the vogue. Black wool jersey gloves with a contrasting color between the fingers and on the cuffs will add a dash of color to any costume.

Featured in costume jewelry are the matching studded belts and
