

# Ragged Edges

BY PAT GILLIGAN.

Comes Spring and a young man's thoughts turn to love as have ATOs Chick Neal's and Tom Noble's, though rushing the season a little. Chick "Love 'em and leave 'em" Neal has fallen hard for Pi Phi Jan Schwartz and made it a steady deal. Tom, as previously reported, has been spending a lot of time with AOP's Jean Skinkle and now has standing Saturday, Sunday, and Monday nite dates with her—but don't get us wrong—they aren't going steady. Ha!

### Who's The Lucky Man?

Confusion—WHO has a date with Theta pledge Sally O'Shea for Saturday night ??? She has promised Phi Delt Dan Lilly, Beta Rog Stewart, and Fiji Bill Berner.

but the question is, "Who will come out in the lead ????" One way to keep in the good graces of all the frats.

Taking in Stan Kenton last Saturday night were Thetas Joline Ackerman and Betty Gray Norvel with Kappa Sigs Lt. Bill Robinson, home on leave, and Bill Flory. ATOs John Mason and Bill Gayer with Kappas Mary Ralston and Joan Damewood. Back together again were Alpha Phi Babs Stenger and Fiji Butch Schroeder. Are they or are they not going steady ???

## Health . . .

(Continued from Page 1.) committee began the job of tabulating the results. On the basis of those results, a report and list of recommendations was sent to the Student Health department. The report consisted of criticisms, comments, suggestions given by the students and actual quotes of some students.

### Student Council Approves.

With approval by the Student Council after minor changes were

made, the report proceeded to the office of Chancellor C. S. Boucher. He is in complete accord with the students in the belief that they should have a definite and active part in setting the policies of the university, according to Mr. Goldberg.

The actual contents of the report will be open to student comment after the administration has had a chance to act upon the matter, Goldberg went on to say.

### Goldberg's Letter.

The following letter, written by Mr. Goldberg, sets forth the policy followed by the student committee:

To the Students:

In response to many inquiries made by students concerning the recent student health questionnaire, we wish to inform you of the action the student health committee of the Student Council has taken since the questionnaires were filled out.

First of all, we would like to thank the students for their swell co-operation in filling out over 800 questionnaires. After the questionnaires were collected, the committee began the job of tab-

ulating the results. On the basis of these results, we wrote a report and recommendations on the Student Health department. In the report we listed the criticisms, comments and suggestions of the students and actually quoted the students to back up the criticisms and suggestions made.

### Submit Report.

Next we submitted the report of a general meeting of the Student Council and it was approved with minor changes. After the changes were made, we met with Chancellor Boucher and presented him with a copy of the report. He was, and is, in complete accord with the students in the belief that they should have a definite and active part in setting the policies of the university. He assured us that he would take immediate action upon our report by submitting it to the student health committee of the senate, and then report back to us.

We feel that the actual contents of the report should not be revealed until the administration has had a chance to act upon the matter, and we know students

will realize the advisability of this. Reams of copy may be written in The Nebraskan about the question, but in the last analysis it is the administration that can actually act upon the matter. In the meantime, students will be constantly informed of everything that the Student Council and the administration does upon the student health question.

Stuart Goldberg.
