

# Ragged Edges

Spring is here—at least it was yesterday. The Sig Eps took advantage of it while it was here by going on a little outing.

When you can't think of anything to do try going to the women's wrestling matches. Joan Bohrer and Joline Ackerman were there Tuesday night with Ike Steen, Sig Alph, and Bill Robinson, Kappa Sig, Bonnie Hinrichs, DG, and Johnnie Wells, Phi Delt, were there too.

### Cancelled.

There seems to be an epidemic of cancelled steady deals. Mary Louise Wiedman, Alpha Chi, and Doug Nelson, Phi Delt, have decided to be just friends. Better reconsider, kids.

For every broken romance there's a new one and several prospective deals. The newest steady combination is that of AOPi Joan Srb and Dick Stone, Kappa Sig. There seems to be possibilities in the numerous dates of Tri Delt Marilyn Lowe and Sig Ep Tom Bauer. There's more than meets the eye in Theta Mickey Miller's interest in Lt. Bob Cummings of UCLA, too.

### Something New.

We hear that Phil Oxley, ATO, is trying to keep Gamma Phi Myra Lee Haden interested by dating every other girl on the campus. It's a good technique if it works.

The Peace Conference and Glen Gray occupy the campus spotlight for Friday night, but apparently Alpha Phi Helen Hickman hasn't heard. She keeps asking people what is going on this week end. Wonder what she's planning that takes her mind off campus affairs?

With the scarcity of men, coeds will be happy to know that ATO Dale McCracken is home on leave and setting female hearts aflutter, per usual.

Pi Phi Barbara Sturges is enjoying the leave of Lt. Ed Gregory. That's the spirit we like to see.

lack of privacy in the student examinations.

"The wholly impersonal attitude of the doctors and nurses," wrote one student, "makes me

feel that I am taking up time that should be spent on something else." Others remarked that the doctors were too hurried and uninterested.

Suggestions made by the students included that the health department employ a full-time physician, make the staff realize that they have the responsibility of taking the best care of students that they possibly can, and have the department in larger, cleaner quarters.

A majority of the students feel that the present Student Health fee is reasonable, but many believe that it is reasonable only if the service rendered is better than it is at present. It was suggested that students not pay a fee, but pay reduced rates for individual service.

taken by a simple majority of the Council."

After presentation of this amendment to the session tonight by the reference committee chairman, a vote will be taken on it. In addition to consideration of this amendment, the session will vote on other amendments offered from the floor.

Following adoption or rejection of the other amendments, the treaty as a whole will be voted on by all nations represented. If the whole treaty is not accepted, it will be returned to the reference committee which will then have 15 minutes to write up an accept-

able one. In the event that the revised treaty is not accepted, it will be returned to the planning committee of the conference who will make final disposition of it.

There's a reason why MORE PEOPLE are buying Fairmont's "Homo" Milk

The improved flavor, and the richer, creamier taste which everybody likes so well is the result of Homogenization. Homogenization breaks up the large milk fat globules which are suspended in ordinary milk and evenly distributes them throughout the whole bottle of milk, thus giving every ounce an equal share of cream—nothing has been added and nothing taken away. More and more people like this better milk and are buying it because it is the best for drinking and for cooking.

### "HOMOGENIZED"

Fairmont's Homogenized Milk tastes better. It is carefully Homogenized by skilled dairy-men, using the most modern equipment.
