Look Them Over . . .

A news story appearing in Sunday's Nebraskan deserves further emphasis and explanation. The story in question dealt with the many valuable general scholarships which the University is offering for the coming school year.

The majority of these scholarships have received too little publicity, are unknown to the average student. There are many students who, though eligible for one or more of these awards, are not even aware of their existence. Consequently, year after year, some of the best scholarships which the University offers go begging for want of applicants. This year, for example, there has been but one application for one of the three available Hitchcock Memorial Scholarships in journalism—this despite the fact that each Hitchcock award (for which senior students majoring in journalism are eligible) carries a stipend of \$500 and is consequently one of the most valuable scholarships which the University offers.

Every student, and especially those in need of financial assistance, would do well to study the list of available scholarships, file his application with the Dean of Student Affairs on or before May 2 if he discovers that he is eligible for any of the awards.

General scholarships available:

GEORGE BORROWMAN SCHOLARSHIP: George Barrowman of Chicago, holder of two degrees from the University of Nebraska endowed the scholarship of \$60 to a worthy student pursuing work in the department of chemistry or geology.

EDWARD LANG TRUE MEMORIAL SCHOLARSHIP: A perpetual scholarship of \$60 has been established, to be awarded to a worthy student in any college.

WILLIAM HYTE SCHOLARSHIP: A perpetual scholarship of \$60 is available.

JEFFERSON H. BROADY SCHOLARSHIP: This scholarship of \$60 is awarded annually to a deserving student.

WALTER J. NICKEL FRESHMAN PRIZE: A perpetual scholarship of \$20 to be awarded each spring to the freshman who has overcome the greatest difficulties in completing his first year of university education.

JOHN E. ALMY SCHOLARSHIP: A scholarship of \$100 to be awarded to a student giving promise in the field of physics upon recommendation of the department of physics.

FREDERICK A. STUFF SCHOLARSHIP: Applicants for this \$50 scholarship must have completed the sophomore year, be majoring in English, and be recommended by the department of English.

ANDREW V. ANDERSON SCHOLARSHIP: This scholarship of \$100 will be awarded upon joint recommendation of the chairman of the civil engineering department and the dean of the Engineering College to a last semester junior in the department of civil engineering. Ap-

plications should be filed with the civil engineering department chairman.

GUS PRESTEGAARD SCHOLARSHIP: A scholarship fund has been placed at the disposal of the University Foundation, and scholarships and grants in aid for worthy students have been made from the fund during the current year.

MILLER AND PAINE SCHOLARSHIPS: Ten \$100 scholarships for students of good ability, promise of success, and in need of financial assistance have been established. Other things being equal, preference will be given to holders of Regents Scholarships who have completed one year in academic courses or will have completed the same at the end of the current semester.

MR. AND MRS. FRED W. PUTNEY SCHOLARSHIP: Scholarships and grants in aid for worthy students have been made from the fund established and additional scholarships will be made to students of merit in amounts of \$50 to \$100 for the coming school year.

FRANKLIN E. AND ORINDA M. JOHNSON SCHOLARSHIPS: To be eligible for this fund, of ten \$100 scholarships for undergraduate students of demonstrated scholastic ability, the student must have completed his junior year at the end of the current school year. A student to be considered must be nominated by his advisor with the approval of the department of specialization, his college or school. After nomination each eligible candidate will be required to take an examination at a time and place to be announced.
