

Ragged Edges

BY MARY STUHT and SHIRLEY LIERK.

With Easter coming up, people are really taking off for the week end. Rumor has it that Mimi Hahn will spend Saturday and Sunday in Omaha, visiting latest hearthrob Bill Waidie. Please forgive us Worms!! Also spending Easter weekend in Omaha will be Buss Black and Jean Harvey who will be staying with Jan Swartzler. Deuel Andreson will make this a foursome, and big plans are in store for all!

In case you happen to be in the vicinity of York, Neb., Saturday night it might prove interesting, for Squat Myers is planning to throw a cabin party. We don't as yet know who is involved.

Scouting.

With a little skillful scouting, we found out who belonged to the Beta pins which were on the loose Sunday night a 9:03. The lucky holders wear Marie Benson and Patti Holmes. Bill Barrett and Bob McConaughy being the rightful owners. Now don't get excited, the pins are back on the fella's. Taking steady life serious thought, uncommon as it may be in these parts, are Nancy Garey and Rusty Gates back again, Shirts Hinds and Rems Heiny, and Mary Jones and Bob Smith. (The latter is really a cute couple—this one has great prospects.)

Saturday night the Sigma Nu's will hold their annual spring formal at the Cornhusker. Bill Rosser will import Pat Matthews from Omaha for the big event.

If Interested, That Is.

By the way, girls take notice, if you think you measure up to the qualifications, Lee Levan is looking for a new girl. Please call this number, 2-7740 if interested, that is.

Home on leave from the Navy last week were Dale McCracken, Gene Deeter, Jack Selzer, and Joe Marvin. Taking in the gay spots of Lincoln 7777 with them were Jay E. Merritt, Phoe Morlock, Jo Ackerman and Kay Reese. (Respectively) Micky McDermott will be home any day now and is sure to be OUT for Sally O'Shea.

More Easter doings. . . Gregg Wright is coming all the way from Ohio to see Joan Eberhardt, the Phi Gams are going home to suik, quote Johnny Call, but here is one who isn't. . . Harold Jacobson and Puffy Seely from the University of Minnesota are going to Lake Okoboji for the weekend. Also off to Omaha are Jean Compton and Bill Swanson, who are staying with Gene Mitchell.

Johnson admitted that speaking of economic abundance at times when millions of persons are starving in Europe and the Far East might sound far-fetched. "But," he said, "you know as I know, that the food resources of the world have barely been scratched. You know that the state of Nebraska could easily double its food production if the world were willing to pay for it. Millions of acres of United States land await only irrigation or grading.

"The science of technology has advanced since 1896 to the point that today nothing is considered impossible," Johnson said. "We need not be underfed, chronically ill, or physically diseased. We can find the way out today.

"Fifty years ago the position of the graduating student was precarious. There was little room for ability. Today with a little luck, you can establish yourself with little difficulty."

Speaking of racial difficulties, Johnson emphasized that "we must forget differences in race. Abilities are universally distributed among the different races of man and they must be recognized. White skin is only a disability which limits your happiness to one part of the world."

"We are entering upon an era," Johnson concluded, "in which the principle is to be a reality that all men are created equal, equally endowed by their Creator with certain fundamental rights, among these life, liberty and the pursuit of happiness."

fectly logical, you reason, any fool should believe it . . . after all you convinced yourself, didn't you?

I have about reached the conclusion that I should quit giving away my professional trade secrets. After all, I thought of them, and why shouldn't I keep it to myself and flunk out of school alone? Just to prove that I have just been kidding and that I go to classes everyday, however, I wish to state that the view from Bessey Hall over the practice field next to the coliseum is simply intriguing . . . much more fun than a golf game .
