

Ragged Edges

by Pat Toof

Comes the rain, comes the art of a bootmaker . . . dainty No. 5 feet wading around in No. 10 exteriors . . . but for the patient soul there are promises of dryer things. No reflection on said column.

Giving due respect to all activity BWOCs who received the tap yesterday, we proceed with the small talk . . .

Wish everyone to take heed of the fact that Ed McElligott is now dating college girls for a change. Dropped Evelyn McKlosky along the way to give full attention to sister Winnifred Wolf at Tri Delt formal.

Covering the Campus; the Gay Edling-Mary Beranek affair has passed the casual Friday night and coke date stage and have now added the Saturday evening routine. Heartbreak may be in store for you, Gay.

Wanted: A Secretary!

Hear popular Sue Cochran needs a secretary to keep track of her innumerable dates . . . men, that is! Her calendar marked Larry Fisher as the man for Friday night.

Bill Hess is following the course of a certain arrow which is located in the region of Pi Phi house and Joy Hill. Down for the weekend to help celebrate Joy's new honor.

Odd incident of last week . . . or taking advantage of an introduction . . . or move the knife over, brother, it's tickling my back . . . appeared with big impression Kenny Younger's date, Blackie Blackburn made on brother Jack Swanson when first introduced. Outcome of this glee-some threesome finds BQ Blackburn saving both afternoon and night for Jack.

Rumor Round-up.

One of the Silo Tech boys, namely Wayne Kime, is beating his own little path to the Chi O abode in search of extra special Harriet Quinn . . . While Mary Kay May has shoved all campus beings in second place the last few weeks and returned to Fremont to give full charm and attention to lucky Lou Semrad, just returned from overseas . . . Will bring in the surprise pinning of Chi O M. J. Whipple to Delta Fig Walter Olson, former campus figure but now in California.

Speaking of surprises . . . Bob Engle was seen at Tex Beneke Friday night escorting Helen Ullom, who is going all out in breaking with her former steady, grad student John Street.

Random round-up: jumble such names as Ramey Beechly, "Lips" Lysinger, Jean Compton, and Lou Reinheart . . . and your guess is as good as mine as to how they will appear next. The "keep 'em guessin'" policy.

Until the top of next week, then, when we'll drop in on you again with a pocketful of patter.
