Ag Union Completed, Holds Open House

Ag Student Union will hold an "open house" from 8 to 12 p. m. Friday, March 21, according to Mrs. Richard E. Hiatt, ag union director. All university faculty members and students have been invited to attend.

Dave Haun and his orchestra will furnish music for the open house dance which is to be held from 8:30 to 11:30 p. m. in the gym of the activities building. The winning entry of the contest to name the recently completed fountain room will be announced during the dance.

John Carson will present slight of hand artistry at 9:15 and 10:15 in the recreation room.

Refreshments will be served in the lounge throughout the evening.

ently. Noah says that a picnic is "a pleasure-party the members of which carry provisions along with them on an excursion to some place in the country." To collegiate picnic provisions are some of that stuff that makes the world go round, that liquid which preserves everything but secrets. One must take a blanket along on a picnic. Don't take a wet blanket, one that dampens your ardor. Yes, with spring, coeducation which is sometimes an uneven race for supremacy between the sexes will become more neck and neck.

Easter Misnamed

Easter will come around in a couple of weeks, that's when the girls really step out in their spring finery. To men it's Easter, but to women it's Decoration Day. Anyway they're showing some things in spring fashions this year.

With all the spring weather, ro-

mance will blossom into marriage. Some of the men on the campus will get married despite the advice that one can live as cheap as two. They'll take a wife even though it's the most impediment in a man's speech. Women are fools to marry, but what else can a man marry?

Rain, wind, or what-have-you,

this spring weather does something for you. Already I feel like I've got hair on my jest.

Spring Returns Tomorrow Despite Weather Prediction

BY BILL PALMER.

Irregardless of what the weather man sees in his crystal ball, tomorrow will be the first day of spring.

It's been a nasty winter. Sometimes it's been so cold that even the wind howled about it. There was so-called zero weather, so-called because it was so cold. There's been freezing temperature, ice, snow and slush, and slush is snow matter to waste through.

Spring and Happiness

Now comes spring, formerly a delightful season; but now obsolete except in poetry. There'll probably be more beastly weather; it'll rain cats and dogs. And if

it looks like rain, it's probably water. As for the wind, knees will show when it's blowing. With such weather there may be more flu. Flu is both affirmative and negative. Sometimes the eyes have it; sometimes the nose.

Eventually the sap will rise in the trees, and the saps won't rise until noon. The flowers will appear and have more scents than the Sigma Nu's. Spring fever will give an excuse for a feeling that many have had all year.

Commuting Spots

The grass will get high and Penn Woods, Sig Alph Gulch et al will be the scene of picnics. Most people think that a picnic is an occasion to eat. College students and Webster know differ-
