

# Crib Notes

BY B. J. HOLCOMB

NOTES ON MONDAY: (with credit due Ogden Nash)  
Monday is the day that everything starts all over again. Monday is the day when just as you are beginning to feel peaceful you have to get up and get dressed and put on your old grey jacket and drag over to the Library again. It is the day when life becomes grotesque again. Because it is the day when you have to face your books again. It is a day with no fun about it, because it is the first of a series of days filled with one task or another that some thing has to be done about. When the telephone rings on Saturday or Sunday you are pleased because it probably means something pleasing and you take the call with agility, and when it rings on any other day it just usually means some additional responsibility. And if in doubt, why the best thing to do is to answer it in a foreign accent or if you are a foreigner answer it in a native accent and say you are out. Oh, there is not a week-day moment that can't wring a sigh from you, because you are always being confronted with a Cob or Tassel who want to sell you something, or if they don't want to sell you something, there is something they want to buy from you. And every shining assignment swaggers arrogantly up to you demanding to be improved, and apparently not only to improve it, but also to shine it, is what you are requested to do. Oh, for a remedy, oh for a panacea, oh for a something, oh yes, oh for a coma or swoon, yes indeed, oh for a coma that would last from eight a. m. on Monday until Friday noon.

NEW NOTES: . . . on the weather include a warning that cold, cold winter is not far from the campus . . . beat the weather now by buying a warm, heavy cloth jacket at HARVEY BROTHERS. You'll want an ALBERT RICHARD sport jacket interlined with the revolutionary new spun cloth made of fibreglass! Never before so much warmth with so little weight! This lining keeps out cold and holds heat better than any other lining. Important to remember is that an ALBERT RICHARD jacket is specially cut to combine freedom for action with custom-like fit. It's sportswear you'll own with confidence and wear with pride because it's from HARVEY BROTHERS! QUIP OF THE WEEK: "School is like a model T, a crank in front and a lot of nuts behind."

Published daily during the school year except Mondays and Saturdays, vacations and examination periods, by the University of Nebraska under the supervision of the Publication Board. Entered as Second Class Matter at the Post Office in Lincoln, Nebraska, under Act of Congress, March 3, 1879, and at special rate of postage provided for in section 1103, Act of October 3, 1917, authorized September 30, 1922.

The Daily Nebraskan is published by the students of the University of Nebraska as an expression of student news and opinions only. According to article II of the By Laws governing student publications and administered by the Board of Publications: "It is the declared policy of the Board that publications under its jurisdiction shall be free from editorial censorship on the part of the Board, or on the part of any member of the faculty of the university; but members of the staff of The Daily Nebraskan are personally responsible for what they say or do or cause to be printed."

## It's Up to You . . .

This week the university student body will determine the success of the effort put forth by several hundred students working on the All University Fund fall drive. Such effort is evidence that these students have faith not only in the causes served by the drive but in the student body as well—faith that students, realizing the great needs of foreign students and the help-at-home given through the Community Chest, will contribute.

AUF is asking ten thousand students to give \$13,200, \$10,200 of which will help to relieve tragic conditions which students in France, Greece, China and countries all over the globe must endure. \$3,200 will go to the Chest, an organization that will, in turn, aid the University YMCA and YWCA in figures of twice that amount for the coming year.

We talk about the deplorable conditions in Europe, and even squirm uncomfortably at times realizing how well off we are in comparison to people of the rest of the world, but can we do anything about it? Will we do anything about it?

THE AUF drive gives each student an opportunity to do something. It's simple enough—to stop at a booth and contribute or to respond to a solicitor's question of, "Will you give to the drive?" Yet the results will do an almost inestimable amount of good. \$5,400, for example, will be sent directly to Greece to maintain a Greek women's rest camp.

The AUF, its director and workers, can do only so much. The rest is up to you.

## Disc-cussion

By Jean Leadly  
And Jean Millane

While the mood of the wonderful Jazz at the Philharmonic concert is still with you, we'll tell you about some of the records featuring the performers.

Coleman Hawkins: Body and soul, Stompy, Talk of the Town. Bill Harris: Bijou, Caledonia. Howard McGhee: Vol. I and II, Jazz at the Philharmonic.

Flip Phillips: Almost any Woody Herman Record.  
Ray Brown: One Base Hit; Two Base Hit.

We have arrived. We have had a fan letter. Not a very nice one, but nevertheless it means that Somebody Cares. So, with pleasure, we'll answer it (IT was in the Letterip column of Nov. 2).

To our ardent admirer, **Chuck Anderson:**

Our congratulations. Your talent for wide-ranged and colorful name calling is unsurpassable. However, it's rather a pitiful substitute for a good, sound argument. We have a few choice invectives in our vocabulary, too, but doubt we'll ever have to resort to them.

We welcome criticism, as long as it's constructive. But your ranting had very little to offer. The issue which troubles you so greatly is, after all, a matter of personal opinion. Some have a taste for the wild blowing of Shavers; others prefer a man like Elman, who can hit the high note he aims at.

If you happen to have any other more pent-up emotions which need giving vent to, we suggest another amusing note to Letterip—or else a column of your own.
