Vets' Notice

Nebraska veterans now attending schools or colleges and receiving subsistence allowances were today warned to be sure those allowances have been discontinued before applying for jobless pay under the G.I. Bill of Rights. The warning came from R. T. Malone, Director of the State Division of Placement and Unemployment Insurance, which administers the jobless pay provisions of the G.I. Bill jointly with the Veterans Administration.

Special note should be made of the fact that unless the veteran while attending school, and at least thirty days before the end of the semester, requests termination of subsistence allowance, the payments are continued automatically for fifteen consecutive calendar days. The law does not permit overlap of both kinds of benefits.

Mr. Malone pointed out that in between school terms and during vacation periods veterans who wish to qualify for jobless pay must be available and seeking work and willing to accept suitable work. The veterans were cautioned to use special care to see that they do not accept allowances to which they are not entitled. In such cases the law provides heavy penalties and forfeiture of all future allowances.

Most university students do not consider themselves a special group in society, immune from

the orderly procedures which govern us all. It is my personal hope that in the future all your grievances will be presented in an orderly manner to the university administration and its faculty for after all, we are here to serve you.

R. G. GUSTAVSON.

About \$224,000,000 of supplies and equipment—ranging from spools of thread to X-ray machines—were received at Veterans Administration supply depots during the fiscal year ending June 30, 1947, and later distributed to VA hospitals, homes and offices.
