

A Thought

BY BEVERLY SIEVERS.

He is tall and has such a friendly smile but I guess I could never really get to know him. It is too bad that he was born of Negro parents. That is a

sin no one could ever forgive.

She is small, efficient, vivacious and looks as though she would be a lot of fun but she has sinned, too. Her parents are Japanese. I certainly could not be expected to be seen with any one like that.

Then there is that pleasant, understanding and intelligent fellow in my Sosh class but he is off my list, too. He not only was born of Indian parents but he was even born in India. Imagine

Ragged Edges

By M. J. Melick.

The "love bug" has been working overtime during this last week of school trying to make up for all the work he left undone this semester—result a veritable plague of love bugitis has descended on the campus.

Eminent specialists have been burning the midnight oil trying to diagnose the new cases which spring up daily. So far they are stumped so we submit our file of case histories to you for a lay-

man's opinion.

Doctors Baffled.

One of the most difficult cases to diagnose blossomed right under the noses of members of the medical profession when **Annie Marshall** was confined to the infirmary a few weeks ago. It seems that **Merrill "Fever" Fle**, also bedfast, contracted an extra fine case of love bugitis and the romance was carried on by correspondence from the women's ward to the men's ward. Both were discharged from the infirmary but it looks as if the illness will be fatal for "Fever," who has parted with his pin.

Jim Kenner may be the next victim for he has all the symptoms. Jim is accused of tugging at a few political strings to make sure that **Jody Loder** and **M. A. Dosek** are leading the yells at future football games—Flash from the judges, "The gals didn't need any help."

Seniors in Hibernation.

Two Chi O seniors are not going to get a chance to be exposed to the current disease if they don't get their suitcases back from **Spence Phillips** and his confederates.

Rod Franklin's fraternity brothers wish to propose his name as the man most immune to the situation. At least he will be as long as he persists with his present behavior pattern. Monday night **Rod** received a furlined cup for being the most "obnoxious" Kappa Sig of the week.

A host of individuals are going into voluntary quarantine to escape contagion. **Phil Raynard** plans to go all out in avoiding

the disease since two convertible-owning AGR's have recently been pinned, Phil plans to sell his convertible, just in case.

Norm Recovered.

A case of temporary affliction was chalked up to **Norm Leger** who made a speedy recovery—of his pin, that is.

Two strains of the virus seem to be in existence and **Donna Burley** catches one and then the other. A certain Tri-Delt basher and a Phi Gam friend are the reasons she is suffering from a phase known as "playing both ends against the middle."

Adele Dovey has been bitten, by two bugs. One is a Michigan strain and the other a local variety.

Latest hospital reports on the plague are as follows:

ILL

Betty Bloss and Scotch Stockholm
Peg Brust and Tom Brownlee
Jack Pesek and Arlene Peterson

SERIOUS CONDITION

Cliff Christensen and Bonnie Gerstemberger
Dall Davis and Jo Diamond
Nadine Anderson and Jerry Hansen
Gordon Luhrs and Mary Travis

FATAL

Charlotte Riecke and Bob Bruce

Tip: How to get your man and hold him: Shoot him with a water gun. It worked for **Shirley Shaffer** and **Don Walker**.

! He was not born in the United States of North America!

I have heard people talk of some horrible creatures—they call them Russians. It seems they have a different kind of government and have the audacity to believe that parts of their form of government might be better than ours. They are even trying to convince some of the world that they are right. Now this certainly is an unforgivable sin, especially since we of North America would never do such a thing.

When I was just beginning to think about extending my friendships I thought that every one was a potential friend. I have learned a lot since then. Why certainly each of us realizes that we could never have friends among groups other than strictly Caucasian North Americans.

Even though I realize the truth of this fact I still become wistful at times and wish that all these people had not committed these sins. They might have become wonderful friends.
