The World Student Service Fund, American branch of the World Student Relief, offers students and professors in American schools and colleges opportunities to invest in tomorrow—today.

WSSF was established in 1937 as the Far Eastern Student Service Fund. It expanded in 1939 to meet European needs as well. Sponsored in this country by Protestant, Catholic, Jewish and secular groups, WSSF is an international relief effort on behalf of the student world.

Five Fields Benefited

WSSF and World Student Relief funds are consumed in five main fields: Food, clothes, medical aid, books and housing.

Vital Functions Performed

From its beginning, WSSF has been more than a money-raising agency for relief purposes. It has performed a vital function on the American campuses in overcoming isolationism and in creating a more realistic awareness of the world situation in which the United States must play its part.

Gustavson Sees Businessmen In World Cooperation Role

"I think a down-to-earth conversation between a Lincoln business man and one, say in Gothenburg or Stockholm, would do more than all the diplomatic languages exchanged between the two countries in the past half dozen years," said Chancellor Gustavson before the Lincoln Kiwanis club Friday.

Dr. Gustavson said he based this conclusion on first hand observations during his recent month's trip to Sweden. He said he believed business men are in a better position to promote goodwill between nations than diplomats.

"Everywhere I went in Sweden—from the ship building ports in the south to the iron mines inside the Arctic circle—I was asked repeatedly by the Swedes, 'What do we have that we can trade with America?'" Chancellor Gustavson stated. "Trade between nations is often the cause of friction between nations, so why not send large numbers of American businessmen to Sweden to see what they can sell and buy from Sweden."

Town Planners Solicit Aid From NU Prof

Specialist in local government, Dr. A. C. Breckenridge, university political scientist, has been asked to help Beatrice citizens decide which form of city government they want.

The Beatrice Junior Chamber of Commerce appointed Breckenridge as a research consultant to study the three existing home rule charter city governments in Nebraska. Communities of over 5,000 are given the right under state constitution, to decide their own form of government. Omaha, Lincoln and Grand Island have formed their own type of city government.

In the November elections Beatrice voters approved a proposition to elect a home rule charter convention. On Feb. 15 a special election will be held there to name 15 delegates to the convention which will write the charter. At a second special election next summer Beatrice voters will ballot on the home rule proposal.

Dr. Breckenridge will also make a study of city-manager plans, mayor-council type, and commission forms. He will give Beatrice citizens information on city government in Nebraska and similar sized communities in the United States.

Parking permits are required for use of either of these lots, Mr. Fowler said.
