Time for Reflection . . .

Time . . . just a little time.

The most valuable ingredient in a college student's life. Yet, in this Holy Season, this period of Lenten service, of what do our sacrifices for our Christian faith consist?

The familiar deferences to Lent are cigarettes, candy, ice cream, movies-actually insignificant luxuries in our daily lives. Lenten sacrifices are lightly made, and easily

Why isn't time given for Lent? It surely would be a notable contribution, a real expression of belief.

Why not time to listen to "One Great Hour" Saturday night? Why not time for church on Sunday morning, discussions that evening, choir rehearsals, religious forums, student house activities? Why can't we take, or make several minutes, perhaps even an hour, for Christian reflec tion or activity during a week? Why not a little time?

Lent puts our faith to test by creating special opportunities to give time to religion. The challenge of the Holy Season is to think and act in the spirit of the Eastertide.

Why not meet that challenge by making the greatest sacrifice? Why not give time the most valuable ingredient in a college student's life?

Letterip

To the Editor:

In order to present a more complete picture of the Coed Counselog organization we would like to enumerate all of the activities of this group. The primary aim of the Coed Counselor organization is to orient freshmen women to campus life. This means that the Coed Counselors must contact every freshman woman entering the university. This is done through personal letters written during the summer. It would be impossible to know at that time which freshman girls would affiliate and which would not. Consequently, it is imperative that an organization made up of equal representation of Greeks and Barbs should be responsible for these duties. No other organization on the campus has this type of equal representation of affiliated and unaffiliated women.

We believe that it is very essential at the outset, that all girls entering our university should leaknow each other and should each other and to the unibuild together as freshmen, a logversity. Were this responsibility to be relegated to some other organization, this objective would be defeated.

Coed Counselors also performs another important service to the administration during registration and other periods which has been termed "indispensable." Among the other activities of the organzation are the Friendship Dinner for all freshmen women and counselors four yearly get-acquainted parties for all freshmen women, the "big sister program," the weekly hour programs planned to give cultural training to all girls.

Any group responsible for organizing and helping all freshmen girls entering university life must be a strong and well-coordinated group dedicated to this function.

It is true that all organizations can, with profit, change procedures and reorganize from time to time. We welcome constructive criticism and hope to profit by it. But, we are firmly in agreement that our function to help all' freshmen girls is great enough to need the organization known as Coed Counselors.

Sincerely. Jackie Wightman Dorothy Borgens

It | political party business that perseemed at the out-set of all this haps the faction was really sincere in its attempt to come out in the open and really consider the welfare of the entire student body. But it was rather obvious in last night's Council meeting that such is not the case

The first issue, which illustrated the fact, was the complete disregard for suggestions other than those concerning political parties-yes, we mean the constitutional convention. Granted that the political party idea is all well and good, Council members, especially made members, seem to be incapable of even listening to any proposals other than ones which would permit the faction to operate in any form other than the one embodied in the present University party-which is of course, exactly the same method by which the faction has always

Still all well and good if they are endeavoring to run the party But that seems a trifle dubious, too. The instinct of self-preservation is still strong. This was illustrated by the action on a motion to amend Council by-laws and thereby postpone the spring election.

Had the election been postponed-which it was not-the faculty would have had an opportunity to pass on the validity Flicker Night movies, presented of the present party constitutions -both of which are equally sad.

The measure was voted down. It seems fairly evident that it was voted down because it would have given the faculty a chance to in some measure "white wash" the constitutions of the two parties. It also seems evident that it was voted down in an effort to stifle publicity changes The changes, presented to the

Council by Bev Sievers and Dick Schleusener, would have relaxed the Council restrictions and permitted some campaigning, the only method by which unaffiliated and non-factional candidates may be known. is a simple matter for the University party-we use this term and faction synonomously-to make known the identity of its candidates. A few phone calls guarantee the votes of some 300 men. It is not a relatively sim-ple matter for other candidates to contact the students.
The Council, and its faction

members, profess a desire for a large vote from the student body. Certainly the number of voters could be increased through active political campaigning, either by individuals or parties.

A few faction members did break away from the party stand
