

Tight Pitching Headlines IM Softball Games

The Student Union softballers kept pace with the league leading Lilies Friday by taking their third straight victory, a 13-3 rout of Dormitory B. Behind the nifty pitching of John Sheedy and Eddie Miyahara, the Student Union sluggers banged out 14 hits. The Dorm B boys managed only five safe hits off the Union chuckers.

Intervarsity recovered from their Presby game enough to edge the Baptists by a 5-2 score. Intervarsity still leads the Denominational league with a 3-0 record.

GEOLOGY TOOK OVER undisputed first place of League IX with a 9-1 win over previously undefeated Chem E. Geology now

has a record of four wins and no defeats.

Alpha Kappa Psi regained their winning ways with a 17-3 romp over Dormitory C. The Bizad boys now sport a 3-1 record, good enough for third in League VI.

The Tridents handed Norris House a 16-15 setback in eight innings. The Navy boys tied up the game at 12 all in the fifth and went ahead 15-12 in the sixth, but Norris House surged back to tie at 15-15. A home run with nobody down in the last of the eighth produced the winning run.

CYO CAME BACK after their defeat last week to hand the University YMCA its third straight setback by a 10-6 score, while the ARO's were eliminating the Extra Light Brigade by a lopsided 16-4 score.

Dormitory A-2 won the "battle of Dorm A" by edging Dormitory A-1 with a narrow margin of

Great Plains Ag Delegates Meet in Lincoln

The Northern Great Plains Agricultural council held its conference in Lincoln Friday and Saturday. Ten Ag colleges of the Great Plains are represented in the council.

Discussions Friday centered around the problems of water utilization in this area, particularly as affected by the Missouri river development. Saturday's

9-7, and the Wheels cracked down on Kate's Boys, 13-4.

Two forfeits were in the results of Friday's games. Presby Student House received one from the Lutheran Student House and the Pill Rollers got one from the Mechanical Engineers.

meetings will include a discussion of broad-scale programs for control of grasshoppers and other insects.

GEORGE GILBERTSON, Brookings, S. D., chairman of the council, stressed the need for continued cooperation between representatives of the ten Ag colleges and other governmental agencies in the Missouri River development project in aiding the development of several small irrigation projects in the northern Great Plains area.

H. G. Gould, associate director of the University agricultural extension service, stressed the need for an accelerated program of education to acquaint the 500,000 farmers with the best soil conservation practices suited to their farms.

"Unless the farmers can be reached and they can acquaint themselves with their part of the program, the outcome of the entire effort is indeed in jeopardy," Gould said.

There will be a meeting of all horseshoe managers Monday, May 9, at 12:30 p. m. in Room 101 of the Physical Education building. All managers are urged to attend so that the playoff schedule may be arranged.
