## University Population Reaches 9000 as Registration Closes

### Four University Projects Near Completion as Semester Begins

#### Progress Seen In Beautifying U of N Campus

Nebraska university's building and improvement program continues to make progress this fall with the near completion of four major projects.

This announcement was made by Charles W. Fowler, director of Division of Building and Grounds Tuesday.

The Mueller Carillon tower, the new press box on the west stadium, razing of the old boiler plant adjacent to the Mechanical Arts building, and the grass seeding throughout the campus have all been completed or expect to be in the very near future. Work on the new Electrical Engineering building is well under way.

#### Carillon Tower.

According to Mr Fowler, the carillon tower should be finished around the latter part of October. Electronic carillon bells will be installed by that time and the final cleaning up will be completed. The dedication will take place November 4.

\$85,000 was donated by a Nebraska alumnus to build the 80-foot structure.

Added room for the press will be provided in the addition to the press box in the West Stadium. There will also be room for the television facilities which will televise Nebraska's home games. It is estimated that the end of the week will see the completion of this project. A few minor changes and cleaning up remain.

#### Grass Seeded.

Grass has been seeded around Love Memorial library, Social Science, and Teachers college except for a small strip east of Social Science. This small part will be completed as soon as weather permits, Mr. Fowler assured.

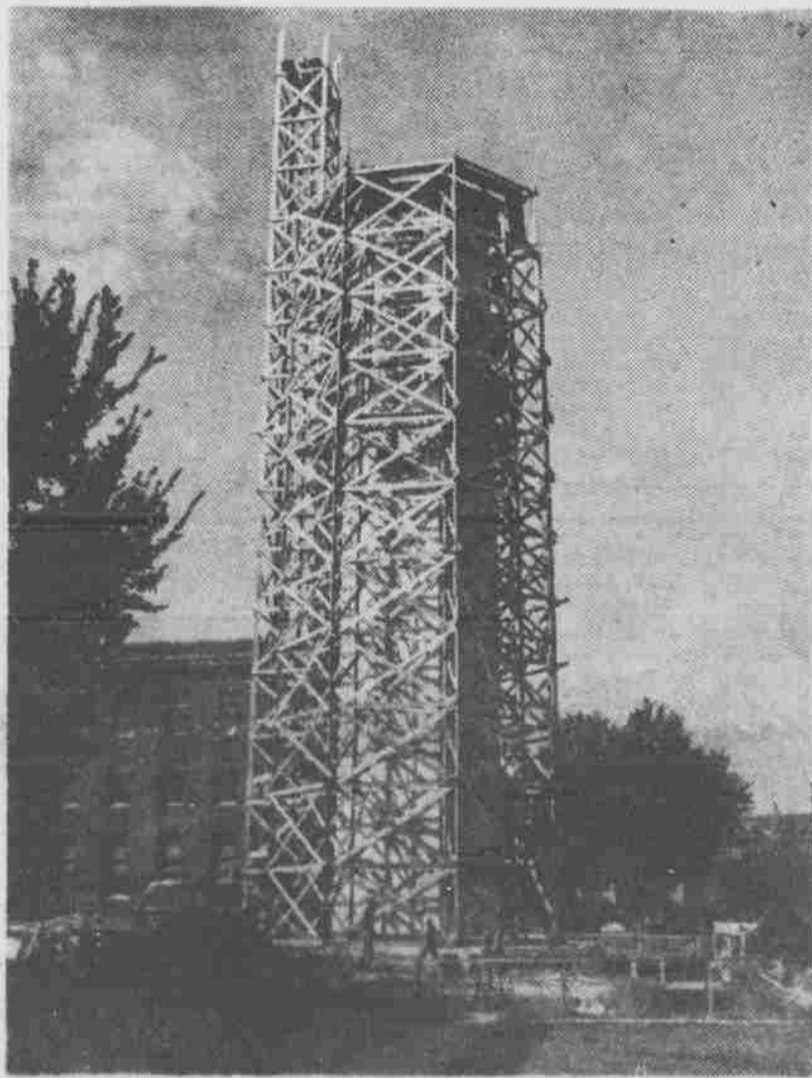

Work was begun on this project early last fall. Shrubs, flowers and trees were planted at that time around newly laid sidewalks. The seeding of the grass will nearly finish this improvement.

#### Boiler Plant.

Since the boiler plant was moved to its new location north of the Military science building in the early 1930's, the old boiler plant has remained as a highway testing laboratory. Adjacent to the Mechanical Arts building, the boiler plant has only been partially used by the university.

Because of the plant's weakened condition, the university decided to raze the building. The only part that will remain will be the civil service soil testing lab in the Engine Room. No future plans for the location have been made.

A shortage of bricklayers and stonecutters has hampered progress on the new Electrical Engineering building. It is hoped that the building will be enclosed by winter. Progress could be a little faster, Mr. Fowler said.

THE NEW CARILLION tower is nearing completion and is expectation of a Nebraska alumnus, the tower rises 80 feet into the air. It will be dedicated Nov. 4.

### Applications For Parking Permits Due Sept. 15 to 24

Applications for student parking permits will be received between Thursday, Sept. 15 and Saturday, Sept. 24.

An interim Student Council committee will receive applications in the Union ballroom from 9 a. m. to 5 p. m. week days and from 9 a. m. until noon Saturday.

University parking permits entitle car owners and operators to park on campus streets or in any of the University's official parking lots adjacent to the campus.

#### Eligibility.

Students are eligible for permits if their Lincoln residences are more than eight blocks from the perimeter of the campus. The campus, in this case, is the area bounded by Tenth street on the west, 14th on the east, Avery avenue on the north and R street on the south.

Physically handicapped may obtain permits even if they live within eight blocks of the campus.

Students should bring car registration permits and student identification cards when they make applications.

After Sept. 15, the Student Council committee will be located in room 315 of the Union.

#### Windshield Stickers.

Students whose applications are passed by the committee will

take their blanks to a special booth operated by campus police on the west end of the library mall. The police will exchange application blanks for official windshield sticker permits Sept. 15, thru Sept. 24.

Campus police will start enforcing the parking regulations Sept. 26. Repeated violation of regulations may lead to expulsion from the University. Details of the campus regulations and enforcement procedure will be published in a later edition of *The Daily Nebraskan*.

### U of N Graduates Largest Summer Class In History

Over 440 students received their degrees at the end of the 1949 summer term.

This was the largest class of summer graduates in University history.

There was no regular ceremony as these students were given certificates and degrees. Diplomas were issued at the Administrative building July 30.

The summer grad group was similar to the class which preceded it in that the June class also broke all records for size.

### 1949 Enrollment Falls 10 Per Cent

Nine thousand University students completed fall registration Wednesday night following a three-day enrollment period. This is a drop of about 10 per cent from last fall's enrollment according to figures released by Dr. G. W. Rosenlof, registrar.

A smoother student registration system was provided for the two thousand incoming freshmen and transfer students. This system eliminated much confusion and pushed incoming students thru registration at a faster rate.

#### Vet Enrollment Lower

The decrease in the number of students, which was caused by a drop in veterans, brings student enrollment back to pre-war figures. Colleges throughout the United States are experiencing a decrease from as much as 10 to 15 percent in enrollment because of fewer veteran students. About 35 percent of students on the Nebraska campus this year will be veterans.

In accordance, enrollment in the various colleges has decreased slightly, but the Med school is well filled with a registration of 550 students. This includes 150 students in the School of Nursing and 89 freshmen med students.

A round figure of one thousand students are enrolled on the Ag campus, a slight drop from last year. Graduate school enrollment is about even with last year, with a registration of nine hundred.

#### More Foreign Students.

Dr. Rosenlof expects an increase in the number of foreign students attending the University this year. The enrollment of 140 foreign students of last year is expected to rise to 150 or 175 this fall. Present figures show that this includes 10 to 15 displaced persons, but more are expected to enter later.

Registration went by smoothly this year, and University officials expect an even more revised system next spring. The addition of a registration orientation class kept registration on schedule.

### MLLE. Holds Annual College Board Contest

MADEMOISELLE magazine has opened its annual contest for College Board members during the 1949-1950 college year.

Membership in the College Board is the first step in becoming one of MADEMOISELLE'S twenty college "Guest Editors," who will be brought to New York City next June to help write and edit the annual August College issue of the magazine.

#### Twenty Winners

The Guest Editors take part in a full calendar of activities pertaining to their field of work and receive a regular salary for their month's work.

The twenty Guest Editors are selected from the College Board on the basis of three assignments given by the magazine during the year.

#### Closes Nov. 1

Contestants must submit a report of two typewritten, double-spaced pages on any phase of campus life to the College Board Editor, MADEMOISELLE, 122 East 42 Street, New York 17, New York, postmarked no later than midnight November 1, 1949.

Contestants must submit a snapshot plus complete data on college and home address, class year, college major and minor, and other interests and activities.

### YMCA Board Appoints Kemp Campus Head

"Getting acquainted" to his new duties this week as campus YMCA executive is Charles F. Kemp.

Kemp was appointed a week ago by the YMCA board. Board Chairman Harry Good announced his appointment.

The new secretary replaces Gordon Lippitt, who resigned to become professor of psychology at Union college, Schenectady, New York.

Formal introduction of the new secretary to all campus men will take place at the YM's reception Sept. 21. YM members and interested students are invited to meet Kemp during the day at the group's headquarters in the Temple.

Kemp has served in boys work at the Lincoln YMCA since May. He received his bachelor of divinity degree at Colgate-Rochester divinity school after completing bachelor and master of arts work at Drake university in 1938.

He served as youth counselor at University Church of Christ in Des Moines, and occupied a similar position with Grace Methodist church at Rochester, N. Y., between 1935 and 1938.

He came to Lincoln after filling pastorates at Christian Temple, Wellsville, N. Y., from 1938 to 1943, and the Christian church at Red Oak, Iowa, from 1943 to 1949.

Kemp is the author of two books, "Physicians of the Soul" and "A Pastoral Triumph."

### Juniors, Frosh Must Take X-rays

All freshmen and junior students in The University are required to take chest X-rays, Dr. Samuel Fuenning, Director of the Student Health Service, announces.

Appointments for students in both classes have been made and must be fulfilled, he said, as part of the University admission procedure.

Sophomore and senior students are not required to have chest X-rays, taken, Dr. Fuenning said, but may do so free of charge.

The X-rays are given in the mobile unit of the state health department located adjacent to the Student Health Center in Building Temporary D just north of Teachers College. The unit will be on the campus from Sept. 15 to 24 inclusive.

The chest X-rays are taken to detect the presence of tuberculosis, Dr. Frenning said. Results of the X-ray exams are confidential.
