EDITORIAL COMMENT .

Proposed Credit Policy . . .

This proposal is now before the University Senate and will be considered at the next regular meeting on Feb. 13.

Educational policy adopted at this time to meet conditions brought about by the call of students to the armed forces will doubtless remain the policy of the University for many years. It will, therefore, affect the preparation of many students whose fature educational welfare must be protected.

To assure the most favorable conditions for the later professional, educational, and personal development of the students, the following policy is endorsed by the University Senate and recommended to the faculties of the various colleges. This policy is recommended as a guide and the case of each student may be considered on an in-

1. Any student of the University who is called into the armed forces may apply for credit in the courses he is carrying in the amount specified below provided he has a record of 4 or better in each course for which credit is desired.

(a) One-half credit without examination after eight (8) weeks attendance. Upon return to the University the student must establish full credit for each course which is a prerequisite to a succeeding course in the curriculum or a course requirement of a Board of Licensure by re-taking it or passing an advanced standing examination

(b) Three-fourths credit without examination after twelve (12) weeks of attendance.

Behind Headlines . . .

The following article appeared in the Iowa State Daily and because of its timely and meaningful content, we felt students and faculty members here at the University might profit from it.

"We are all aware of the fact that the world is in somewhat of a turmoil right at the moment. Yet, how many of us know the stories behind the headlines? In fact, how many of us even take the time to read the stories behind the headlines?"

"How much do we know about the Korean conflict? Do we realize and understand the contributing factors that led to this situation, or do we possess only a hazy mental picture of people ing opinions on this controversial subject, shooting at each other thousands of miles away for seemingly no reason?

three hours credit, depending on how many hours of class the student wished to attend.

"We propose that such a course be taught by can these groups function? a person, or persons, well-versed in the funda-

nical subjects have been swept aside in favor of judiced in certain respects. One meets them every the specialized courses.
