THE NEBRASKAN SPORTS

Yankee Don Larsen Pitches Perfect Game

Don Larsen, a 27 year old right hander, yesterday made baseball history by retiring 27 Brooklyn Dodgers in a row in the fifth game of the 1956 World Series.

This was the first perfect game in World Series history and only the second time in the history of major league baseball that the feat has been performed.

New York won the game 2-0.

The closest a pitcher has ever come to a World Series no-hitter was in 1947 when Floyd Bevans also of the Yankees had the charm working with two out in the ninth when pinch-hitter Cookie Lavagato smacked a double against the right field screen scoring two runners and giving Brooklyn a 3-2 win.

Some 64 thousand people held close to their seats in the ninth as the big guy, working without a windup, cut down Carl Furillo, Roy Campanella, and pinch-hitter Dale Mitchell.

The win gives the Yanks a 3-2 edge in the series and makes them large favorites to cop the annual fall classic.

Sal Maglie, the 39 year old vet who won the first game, also pitched very creditable ball giving up but two runs and five hits.

Maglie retired the first eleven Yankees before Mickie Mantle smashed out his third home run of the series in the fourth.

New York got a insurance run in the sixth when Andy Carey singled and was sacrificed to second by Larsen. Hank Bauer drove him home with a single to left to end the scoring.

Tomorrow the series moves back to Ebbets Field for the sixth and possibly the seventh game of the series. If the Yanks win tomorrow it's all over and if Brooklyn can come back with a win the seventh game will be played on Wednesday.

If the Yankees win this World Series it will be the second time

Instant! Yardley Shaving Foam

- super-wetting lather at the push of a button
 - stays extra moist—doesn't dry on the skin
 - remains firm until your shave is complete
 - leaves face feeling smooth, fresh
- Cuts normal shaving time by half!

Yardley products for America are created in England and finished in the U.S.A. from the original English formulas, combining imported and domestic ingredients. Yardley of London, Inc., 620 Fifth Ave., N.Y.C.

Fortune And A Toe Combine On Cyclones

By BOB MARTEL Staff Sports Writer

Lady Luck played an important role in Nebraska's 9-7 victory over Iowa State last Saturday in Memorial Stadium.

With less than one minute to play the Cyclones led 7-6 and were in possession of the ball on their own 35 yard line. Ron Pohl went over left guard for three yards and then came the play that changed defeat to victory for the Cornhuskers.

Terry Ingram, Cyclone first string quarterback, tossed a wild pitchout to halfback Chuck Lating and as the ball bounced toward the Iowa State goal line the race for the fumble was on. When the dust had cleared, Jim Murphy and Jerry Brown were both laying on the pigskin and Nebraska had a first down on the Cyclone 15 yard line. The scoreboard clock showed 1 minute and 10 seconds remaining in the contest when Leo George bulled over right guard for two yards. Roy Stinnett ran the keeper down to the Iowa State 4 yard line for a Husker first down as the clock ticked away the precious seconds.

At this point, the Cyclone forward wall tightened up and after three running plays the Huskers had succeeded in going nowhere. In a last ditch attempt to pull the game out of the fire, Pete Elliott decided to go for the field goal. As the Cornhuskers lined up, George, who was to hold, knelt on the 15 yard line. The goal post were angled off to the left and a cool 18 mile per hour breeze was blowing in the face of the prospective kicker. The ball was snapped back to George and after what seemed like hours it emerged seemingly right through two Cyclone linemen and sailed between the goal posts for the game winning field goal. George Harshman, by virtue of his magic toe, was the man of

the hour.

The Nebraska attack was moving along smoothly in the first period until Cyclone fullback Marv Walter plucked a Stinnett fumble out of mid-air and rimped 55 yards

for a touchdown. John Scheldrup nonverted and Iowa State led 7-0. Early in the second quarter, Jerry Brown broke loose and legged it 71 yards for a Nebraska tally and the score stood 7-6.

Both teams pushed each other around and it looked as if Iowa State had finally broken the Cornhusker jinx until Mr. Harshman entered the contest with only 45 seconds remaining.

Sig Eps, Presby House And Hitchcock Roll In Intramural Football Play

By GARY PETERSON Intramural Editor

Behind the passing of Gene Sponchick, the Sig Eps marched by the Deltas 14-6.

The Sig Eps reached into the bag of old tricks to score their first touchdown. Sponchick dropped a short dump pass to Pete Sorenson behind the scrimmage line. Sorenson in turn, fired a long aerial to Don Appleby in the end zone. Sponchick hit Van Shaw with a bullet for the extra marker.

The Deltas countered with a touchdown of their own just before the first half ended.

Oldtimer Tito Mladovich hauled down a long pass from the hands of Leonard Lindgren. The try for the tying extra point failed and the teams retired at the end of the half with a score 7-6 in favor of the Sig Eps.

At the beginning of the third quarter, the Deltas marched to the one-foot line only to be thwarted by strong defensive play on the part of the Sig Ep forward wall.

With only three plays left, the Sig Eps put the game on ice when Sponchick threw into the end zone. The ball was batted around by Delt defenders, but Appleby made a tremendous stretch and hauled in the ball for six points. The same extra point combination clicked and the Sig Eps had their second victory in the young season.

Sponchick and Appleby were outstanding on defense for the Sig Eps. Bud Jefferies and Sorenson were the defensive mainstays for the victors.

John Beldeck hauled down several passes that went for naught for the vanquished.

Presby 12, Newman 8 In another thriller Wednesday,

Presby House downed Newman Club, 12-8.

Presby House not hed the winning TD on the next to last play when Lee Herman fired a pass to John Newth in the end zone.

Newman Club opened the scoring in the first period when a Presby snap from center went awry and landed out of the end zone giving the Newmans a safety.

Presby House roared back in the second stanza with a touchdown. With Herman on the firing end of the ball, Larry Reed took the pass and scampered unopposed to paydirt. The score at halftime read Presby-6, Newman-2.

After a scoreless third quarter, Newman Club started a drive that was culminated by a Don Sworak to Brice aerial that went for 30 yards and a touchdown.

This set the stage for the clincher in the dying moments.

Herman stood out for the Presbyterians while Dworak, Brice and Tom Detwiler lead the Newman Club attack.

Hitchcock 28, Seaton 0

In independent action, Monday, Hitchcock rode past Seaton 1 28-0. Scoring was evenly distributed throughout the game.

What young people are doing at General Electric

Young mathematician helps pace engineering advances

Recently General Electric developed a compact, new motor for industrial use. But before the motor could be put into automatic production, one difficulty remained; to design a protective end shield that would confine any possible explosion to the motor itself. The man who solved the tough mathematical problems involved is R. A. "Pete" Powell — a mathematical analyst whose job is to assist other engineers in math problems which arise in any number of different projects.

Powell's Work Is Varied and Important

Because he is not tied down to any one project, Powell seldom has two similar assignments. Taking established engineering and mathematical principles, some of them extremely complicated, Powell applies them to advanced engineering problems. In doing this, Pete is able to make such calculations as the distortion of a small part of a jet engine caused by vibrations, the deflection occurring in a turbine part when it runs at operational speeds, or the forces exerted upon a rotating shaft by lubricants.

27,000 College Graduates at General Electric

When "Pete" Powell came to General Electric in 1953, he already knew the kind of work he wanted to do. Like each of our 27,000 college-graduate employees, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: Whenever fresh young minds are given freedom to make progress, everybody benefits — the individual, the Company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

$$\frac{L}{A} \frac{\partial u}{\partial x} + \frac{v}{AB} \frac{\partial A}{\partial \beta} - \frac{w}{R}$$

$$E = \frac{L}{B} \frac{\partial v}{\partial \beta} + \frac{u}{AB} \frac{\partial B}{\partial \alpha} - \frac{w}{R}$$

R. A. "PETE" POWELL joined General Electric in 1953 after receiving his B.S. in Physics in '47 and his M.S. in Mathematics in '49, both from Purdue. From 1949-52 he completed further study in Physics again at Purdue.

Progress Is Our Most Important Product
