

Faculty Senate Elects, Votes, Hears Reports

The Faculty Senate, in their initial meeting for the 1958-59 school year, elected a secretary, cast ballots for members of three committees and heard a report from the chairman of the committee on student loans.

Robert Knoll, professor of English, was unanimously elected secretary of the senate by a voice vote Tuesday. He will replace James Blackman, professor of engineering mechanics.

In 1948 the amount of the average student loan was \$153; last year the amount was \$166.

Russian Visits OK - Regents

The Board of Regents will not challenge the continued exchange of technical information between the University College of Agriculture and Russian farm experts.

Although the board did not discuss the matter while in session, they had reportedly talked it over in private.

The question about the information exchange, according to Regents President C. Y. Thompson, was whether the Soviets were obtaining crop information through the University which is not available to them from libraries and science journals.

Ag College Dean W. V. Lambert stated that "anything given the Russians is available to any plant breeder in the country."

"Everything we do is published," he said.

He felt that this country probably gains more than the Russians in the information exchange.

Most of the board members indicated that they feel no secret information goes to the Russians in this way.

Lost Book? Try Former Admny Hall

That lost book or coat you're looking for may be waiting for you in room 101 of the former administration building.

John Dzerk, custodial supervisor, said numerous books, along with articles of clothing, glasses and slide rules have been turned in to the custodial service lost and found office.

Students may recover lost items by identifying them. Dzerk said that when a student loses an item he should first check with the custodian in the building where he believes it was lost. Custodians keep lost articles for 36 hours before turning them in to the main office.

The lost and found office is open from 8 a.m. to 5 p.m. Monday through Friday.

Scrip Deadline Set for Friday

Friday is the final deadline for submissions to "Scrip," the campus literary magazine, according to editor Steve Schultz.

"We are still interested in publishing almost anything literary," Schultz stated. He added that this includes short stories, poetry, criticism, plays and informal essays. The only restriction is that they must have been done by an undergraduate.

This year's first issue will be on the newstands during the first week of December, Schultz stated.

Health Center Hurried

"Student health crowded? It took me three hours to get a few little pills for my cold!" The student was among those who have found the waiting room in the health center quite filled lately.

More Students

Dr. Samuel Fuehning, Student Health Medical Director, commented that more students than usual have come into the clinic this fall. Since the number is larger than anticipated, there are certain times of the day which are convenient for several students who come in at once and must wait to get appointments.

Dr. Fuehning added that the center is in the process of meeting the situation, and as a rule students will not have to wait very long.

The load in the hospital is also heavier than usual, said Fuehning, though there is always room for students when necessary.

Capacity

The maximum capacity of the health center is 32 and the average number of patients has varied from 12-20 at a time. Though most of the 2 bed rooms are occupied at the same time, all of the beds are never filled.

The most common ailments reported this year have been various types of the flu and respiratory infections caused by virus. More cases of infectious mononucleosis have also been noticed this fall.
