ADMINISTRATIVE SCRAMBLE . . .

Score One for Glenny

We were very happy to see that the Board of Regents gave their bless-ing to the administrative reorganization which ma-terialized this summer in shifting and re-assign-ment of responsibiliresponsibilities. . though it has scrambled-up the "peck-ing order" and who-doeswhat-when system for the

Most of the shifting was done from the Chancellor's office to the offices of the three newly titled Vice Chancellors. The action came on the prompt-ing of Chancellor Hardin in relation to suggestions made in the 1960 Glenny leport on Higher Educaion in Nebraska. Such a reorganization has been eeded for some time and came at an opportune time to face the current needs of the University (money not being the only

It did not take the fine report made by Dr. Glenny to show up he University's organizan weakness of having bogged down with routine

detail work, which has now been reassigned to offices which can handle said work better.

This reorganization was a reversal of previously announced policies of the University. In February, 1962 (report in the Febr. 19 issue of the Nebraskan) the University released an answer to the Glenny Report in which the Regents greeted a suggestion that the Chancellor should delegate more authority to deans and directors with a solid "no." It is a credit to our Regents that changing situations can bring changes in policy

The tally on the Glenny Report is encouraging and shows that our University is indeed forward moving. Suggestions that have been adopted by the University, either in part or wholly include emphasis on graduate study (since World War II the University had added 25 programs leading to the master's degree and 14, to the doctor's degree),

and guidance services, expansion of library fa-cilities, establishment of a Bureau of Institutional Research to promote administrative efficiency and educational planning, and a great deal of planning into the suggestion of determining the feasibility of a state network of educational television.

Dr. Glenny also did some predicting and from the looks of this over crowded campus (housing, classes, parking, sidewalks, Crib, etc.) one of his predictions is going to come true: "Nebraska will need the equivalent of another university by 1970."

Glenny said that by this time little old NU will have some 15,605 students. The Registrar is predicting a cool 10,000 this semester and it is only 8,700 when the report was made in 1960).

Can this state wait until 1970 to expend its present facilities or add new ones equivalent to the present one?

THURGOOD MARSHALL IN**-

The Democratic Way

It is gratifying to note that the Senate has finally seen fit to confirm the year old nomination of Negro Attorney
Thurgood Marshall to the 2nd U.S. Circuit Court of Appeals.

The nomination was approved overbelmingly Tuesday (Sept. 11) after a nal, but futile burst of Southern oraopposing it. The Senate took five ours to debate Marshall's qualifications for the second highest type of judicial post in the country.

This final debate came only after a ear of delay. President Kennedy first 1.23, 1961, just four days before Conadjourned, and resubmitted it Jan.

It was finally approved by the Seniciary Committee 11 to 4 last Fri-(Sept. 7) after protracted hearings arked protests of intolerable de-

Marshall is known largely for his in successfully prosecuting the AACP's case against school segregation for the Supreme Court resulting in the storic 1954 decision. He is also known

for many other court efforts in the civil rights field.

This close association with the cause of civil rights was the rationale used by Southern senators in opposing him.

The 16 negative votes were cast by Southern Democrates from nine states that have strongly opposed civil rights legislation. They contended that Marshall, as former counsel for the NAACP, lacked experience other than in the civil rights

We feel it extremely unfortunate that a man so obviously qualified for such a high position is opposed merely because of his color. We see a good deal of irony in the fact that this man has been accorded such injusticies by those few Southern senators while the duty of the position he will hold is to INSURE in-

But, then, this is the American way the democratic way. And we're sure those Southerners who opposed Marshall's appointment have assured themselves of re-election by their home states' democratic voting systems-sans

up the reserves, increase local draft quotas and cancel military discharges, the President said. Berlin got cool . . .

let the reservists go home, cut back on draft quotas, let our boys out of the service, the President says. Berlin gets warm ... let's hold up a little on these announced cut backs, the President Then a variation on

theme: Cuba gets hot . . . call up the reserves, increase local draft quotas and cancel military discharges, says the President. But, there was a chance for salvation. Congress was cool to the new requested increase. President falls back, re-groups and asks just for the power to do so. All is lost. There is no question now that the President is going to get his request for "stand-by authority" to call up (what a terrifying phrase) 150,000 mili-

tary reservists. . The House Armed Services Committee heard Defense Secretary Mc-Namara testify behind closed doors, with the full house likewise ready to vote overwhelmingly to give the President authority to order reservists to active duty and extend tours of men now in service should such steps be necessary while Congress is not in session. (The Senate has okayed it al-

ready - 76 to 0.) These days a fellow is afraid to look at a news-paper, or listen to broadcasts. A young man practically has to close his eyes and hope for the best from the age of 18 to 35. Life begins at 35 you know.

It used to be that a man would graduate from college and begin his career or profession. No w most graduate but begin their careers and professions with a slight uncertainty while they watch Uncle Sam and the Russian Bear walk on egg shells knowing that if any are broken they will suddenly be called in to put them back together again.

But this is America and we as young men love it and willing to protect it against anything and anyone who wants to destroy our inherent freedoms as they have others. We just wish that we had time to unpack from one call-up to the next.

WASTED A GOOD HAIRCUT! Old Guard

by don ferguson

Rush week is over. So is new student week and all of the headaches of registration. Now, Pledge Training begins in the Fraternity and sorority world, and with it rests the future of the Fraternity system and the future of the individual Fraternity chapters on campus.

Last spring pledge training was talked about by the IFC, by small groups of interested Greeks, by small pressure groups in each house, and by the alumni and national chapters.

But, what has or will be the result?

Some houses will still buy the theory that you build men and develop their character by treating them like boys or guinea pigs. One will be able to find pledges being swatted on the rump; battered in the face with eggs; lying on the floor with exhaustion from a short "room session" with the "big guys" of the chapter.

A few chapters will play little games and run regular "fun and g a m e" sessions. Fun for the Actives with pledges being fair game. What type of games? Fire drills.

'Warm up the engines boys, there's a fire in the basement. Get to third, get a mouth of "garp" out of the pan and crawl down the stairs. Now! Spit it on the fire. Barf. Woops, well, get up those stairs again. We're building your character . ."
Or, looking into the sor-

ority you might overhear "OK girlies, stop acting like a bunch of boys. It's time for a green goodie check . . . have all of you got those green undies on? Quit your smiling, Susie, or you'll have to eat that onion raw! All of it!"

Then of course, there's always the marshmallow game - the one usually used by the old letter club at home. Or maybe we should try the broom

"Put your head on that broom stick - now quickly, run in circles. Dizzy yet? Good! Now run to the other end of the room and touch Bob so he can start. Watch out-Don't slip on that . . . Johnny? Johnny! Hey, Let's get a doctor down here, fast."

And the doctor might arrive, along with the press corps. And maybe there's just an outside chance that Johnny won't

And maybe Johnny's parents won't be too happy. They just might ask for a tidy sum of cash. Someone may go to jail for manslaughter. A chapter might just be closed.

Chuckle, why don't you. You sorority sweeties are just as bad in many respects as the Fraternity men. So what if the IFC or Panhellenic has rules against it? You will still hold the belief that what Dean Snyder or Dean Hallgren don't (Continued on Page 6)
