

Fire Prevention Code Could Benefit Campus

By DON PONT
Daily Nebraskan Reporter
The Sigma Alpha Epsilon fraternity house on the Oklahoma University campus recently burned, resulting in \$100,000 worth of damage. This is the second major fraternity house fire on the Oklahoma campus in less than a year.

Graham Spahn, fire inspector for Lincoln, and E. W. Simpson Jr., chief of the Division of Environmental Health and Safety for the University pointed out fire safety techniques for University residents:

Unsafe heating plants are a major fire hazard. Careless storage of combustible materials such as old homecoming display parts around the heating plant increase the danger, he said.

Unsafe, inadequate wiring, overfusing, cluttered hallways, and fire exits which are not clearly marked are other dangers. Fraternity members are often guilty of emptying fire extinguishers during "horse play," therefore rendering them useless in case of a fire.

Many deaths can be prevented if the students formulate an evacuation plan in their own mind so if a student awakens to the smell of smoke and panics instead of following this plan, his chance of survival is reduced.

Party decorations are often

a fire hazard. Flammable decorations such as sawdust, hay, and corn shucks, could catch fire long after the party is over because of a cigarette butt that was not quite snuffed out. For these reasons only fire resistant materials should be used.

Simpson said he is very willing to visit sorority and fraternity houses and demonstrate the use of fire extinguishers and help them work out a satisfactory evacuation plan in case of a fire. Safety precautions on the part of our students could eliminate a costly fire and most important of all save lives.

velop and work towards his full potential worth. If one were to state a general philosophy, this would be it.

In summary—facts and comment is the goal, and if after reading and thinking you want to take a shot at this corner, do so. But keep in mind that your fire may be returned.

Weaver who worked last summer in Washington, D.C.; and Steve Stastny, who is a renowned Republican.

Noni Spink, who will put a smile upon this sometimes staid page, is blessed with the ability to write in a light breezy tone.

Rick Spellman, who transferred to the University of Nebraska last year from Cornell University, is entering his second semester as a Nebraska columnist.

The Nebraskan is delighted to have these people (although they, by necessity, have to go unpaid).

They are a group interested enough in the campus to tell others about their beliefs.
