AUF Sets $1,200 Goal For Faculty Donations

A total of $350 has been raised as of April 15 for the Faculty Development Grant. AUF members will now focus on faculty members and local businesses. Those who have not yet given are urged to do so. The money is in order to defray costs for AUP's purpose as well as to encourage faculty to devote more time and energy to the cause.

Through the faculty's concern about the fiscal situation of the institution, national money will be sent to strategic places through the three areas: Iowa, Arizona, and Utah. AUF members are encouraged to find out what is happening and alert the public to this event.
