Last year an excursion salied clear to the Pole And suddenly dropped into what seemed like shole Where wonder of wonders they found a new land. This fairy-like beings appeared on each hand. There were mountains like ours, with more beautiful green,
And far brighter skies than over were seen,
Birds with the hues of a rainbow were found,
While flowers of exquisite fragrance were grow ing around.

Not long were they left to wonder in doub?
A being soon came they had heard much about,
Twas Saota Claus' self and this they all say,
Ie leoked like the picture v esse every day.
He drove up a team that looked very queer.
Twas a team of grasshoppers instead of reindeer,
He rode in a shell instead of a sleigh,
But be took them on hoard and drove them

away.

Free and painless expectoration is the mode by which it relieves the lungs, chest and throat from the burdens which oppress them; thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous stages. at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Cough Remedies hitherto introduced is that they are simply expulsory. Hence they are useless; for unless the causes of the acrid secretions which are coughed up are removed, and the ruptured, inflamed or maturated surfaces healed and restored to their natural tone, a cure is impossible. Fritsch's Prussian Cough Syrup accomplishes these objects. The mucus and muco-pus which are the consequence of Lung Disease, are thrown off by it, while at the same time it soother and invigorates the weakened tissues.
