

# THE OMAHA DAILY BEE.

ELEVENTH YEAR.

OMAHA, WEDNESDAY MORNING, AUGUST 3, 1881.

NO. 37

### OUR WASHINGTON WIRE.

#### President Garfield's Case Grows More Favorable.

#### He Eats a Hearty Supper Last Evening and Passes a Comfortable Night.

#### The Physicians Say That He is Doing as Well as They Could Wish.

#### The Greek Doctor Arrested For Threatening Cabinet Officers.

#### The Government Authorities Reticent About the Investigation of the Infernal Machine.

#### Guiteau Wants to be Admitted to Bail in the Sum of \$15,000.

#### Other Items of Interest From the National Capital.

#### Another Good Night.

WASHINGTON, August 2.—Another good night has followed by a favorable morning in the president's case, and he is now well started on another day that bids fair to be one of steady improvement. Last night's rest had a marked effect upon the general appearance of the patient. One of the best signs to-day is the remarkable steadiness and distinctness of the president's pulse. It beats with the firmness and regularity of a man in good health. The president had for breakfast a piece of rare steak and some toast. He relished it thoroughly. Afterwards he was raised up in bed, as he has been for several days. He remained in this position all morning. There have been no distinguished callers to-day. Dr. Agnew remains until to-morrow.

DOING VERY WELL.  
WASHINGTON, August 2.—Dr. Agnew stated to a friend that the president was certainly doing very well indeed. There was no feature of the case they could wish to have improved. The present progress was in every way satisfactory. The president had taken nourishment three times up to 2:30. Some newspaper headings were allowed to be read to him. Care is, however, exercised that nothing is allowed to reach his ears in the way of news which might cause any excitement or demand an exercise of mind. He is now able to use his arms to lift himself about a little, and can draw up his legs without suffering any pain. He makes no complaint of any pain about the back, although all the lower part of the body is stiff.

THE PRESIDENT  
ate an adequate supper and after the dressing of the wound went to sleep. At 9 p. m. his pulse was below 100 and other indications correspondingly moderated. Since that hour he has slept comfortably and rested as easily as in health. He expresses complete satisfaction with his progress.  
Dr. Agnew returns to Philadelphia to-morrow and Dr. Hamilton will come on from New York to-morrow evening. All of the physicians assure the members of the cabinet that the president is doing as well as they could wish.

Secretary Lincoln returns from Rye Beach to-morrow. Postmaster General James and Attorney General MacVeagh will remain here all summer. Mrs. Garfield is confident in the ability of her husband to be about in a month. Dr. Bliss said the president ought to be able to attend to executive business in a few weeks.

DR. BLISS INTERVIEWED.  
WASHINGTON, August 2.—Dr. Bliss was asked to-night in regard to the course of the ball through the president. He said, "We know where the ball entered; that it shattered a rib; that it disturbed the liver, either by shock or perforation, and that it lodged in the interior wall of the abdomen. It is enough to know where the ball is."  
"Do you intend to cut it out?" was asked.  
"No not unless it does mischief. The case is proceeding nicely."

### TUESDAY'S BULLETINS

EXECUTIVE MANSION, August 2, 8:30 a. m.—The president passed a pleasant night, and slept sweetly the greater part of the time. This morning he awoke refreshed, and appears comfortable and cheerful. Pulse 94, temperature 98.4, respiration 18.  
(Signed) D. W. BLISS, J. W. BARNES, J. J. WOODWARD, R. REYBURN, D. HAYES AGNEW.

OFFICIAL.  
WASHINGTON, D. C., August 2.—The following official bulletin gives the president's condition at 12:20 p. m.: The president is passing the day comfortably with his head and shoulders in the same manner as yesterday. At the morning dressing his wound was found to be doing admirably. His pulse is now 99, temperature 98.4, respiration 19.  
(Signed) D. HAYES AGNEW, D. W. BLISS, J. W. BARNES, J. J. WOODWARD, R. REYBURN.

OFFICIAL.  
WASHINGTON, August 3, 7 p. m.—The president has continued to progress favorably during the day and appears perceptibly better in general

condition than yesterday, a more natural tone of voice being especially perceptible. The external appearance of the wound at the evening dressing was exceedingly good. That made by the ball is rapidly granulating, while the discharge from the deeper part of the wound, which is abundant and healthy, comes through the counter opening made by the operation. The rise of temperature this afternoon is moderate and attended by no inconvenience. At present his pulse is 104, temperature 100, respiration 20.

(Signed) D. HAYES AGNEW, D. W. BLISS, J. K. BARNES, J. J. WOODWARD, R. REYBURN.

EXECUTIVE MANSION, MIDNIGHT.—The president is passing a good night, and is resting well. No fever and not the slightest unfavorable symptom.

QUITEAU.  
HE WANTS TO BE ADMITTED TO BAIL.  
WASHINGTON, August 2.—Guiteau sent for Attorney General Corkhill to-day, and handed him a petition. It was addressed to Judge Wylie. The attorney general refuses to make it public, but it has been learned that the petition reviews the legal aspect of the assassin's case, and asks that bail be fixed at \$15,000, not at \$1,500 as once reported.

MISCELLANEOUS.  
ASSISTANT STAR ROUTE PROSECUTOR APPOINTED.  
WASHINGTON, August 2.—Jerome J. Hinds was to-day appointed assistant district attorney for the prosecution of the star route cases. Hinds was at one time under indictment for star route frauds and sought to know something about them.

INVESTIGATING THE INFERNAL MACHINE.  
The government authorities maintain their reticence in respect to what has been done in regard to the dynamite infernal machines exported to England. It is no secret that special agents of the state treasury and justice departments are at work on the case, and it is stated on good authority that a clue had been worked satisfactorily. Whether this clue is connected with the Peoria branch of the case can not be ascertained. Officers of the department of justice refuse to disclose any particulars at present in regard to the arrest of Crowe in Peoria. Attorney General MacVeagh states that the entire case is in too early a form to admit of any information in regard to it. The circumstances of its progress and investigation will be known.

DEATH OF CONSUL ROGERS.  
Mr. E. H. Rogers, United States consul at Vera Cruz, whose death was announced to-day, was a resident of Nebraska and was appointed by President Garfield and confirmed by the senate last May.

THE GREEK "GEEK."  
Dr. Fochynytis, a Greek of considerable local notoriety, has been amusing himself recently by writing threatening letters to cabinet officers and others. One of these fell in the attorney general's hands and the police was arrested to-day. In the police court a collection was started to transport him to some more congenial clime.

THE TALLAPOOSA.  
The U. S. Steamer Tallapoosa, Commander Hays, now at the navy yard, is being put in order for Secretary Hunt's inspection trip, to sail on the 15th inst. There is no intention to have the president on the Tallapoosa, though if he should be strong enough, it could easily be moved for his acceptance.

### SUMMER SPORTS.

THE TURF.  
SARATOGA RACES.  
SARATOGA, August 2.—The first race to-day was for the Virginia stakes, for two-year-olds, distance three-quarters of a mile. It was won by Rummehad, with Momento second and Wyoming third. Time 1:15.  
The second race was a sweepstakes of twenty dollars, with \$700 added, distance mile and three-quarters. It was won by Della, with Edal West second, and Bushwacker third. Time 3:05.

The third race, for a purse of \$400, distance one mile, for maiden three-year-olds, run by a large field, was won by Jack of Hearts, with Bob Roy second, and Lucy Walker third. Time 1:43.  
The fourth race, Trouble stakes, handicap sweepstakes, over full course, had four starters, and was won by a center by Trouble, with Disturbance second, and Derby third. Time 1:55.

BRIGHTON BEACH RACES.  
NEW YORK, August 2.—The August meeting of the Brighton Beach association began to-day.  
The first race, three-fourths of a mile, was won by R. Monee, Reform filly second. Time, 1:20.  
The second race, one mile and three furlongs, was won by Gouverneur, Ingomar second. Time, 2:28. Una came in second, but was disqualified for short work.

The third race, mile and a quarter, selling allowances was won by New York Weekly, Bellona second. Time, 2:12.  
The fourth race, one mile, was won by Clara A., Okalona second. Time, 1:45.  
The fifth race, mile and a quarter, over five hurdles, was won by Speculation, Kate Long second. Time, 3:19.  
The sixth race, one mile, over four hurdles, was won by Frank Short, Bravo second.

THE TRIGGER.  
ILLINOIS SPORTSMEN.  
CHICAGO, August 2.—The eighth annual convention and tournament of the Illinois State Sportsmen association was held to-day. There were 178 entries in the first shoot for \$3,000 in prizes. Ties will be shot off to-morrow. Three hundred shot-

ers are present and 1,200 birds on hand. It will continue all the week.

THE DIAMOND.  
GAMES PLAYED YESTERDAY.  
PROVIDENCE, August 2.—Troy 1, Providence 2.  
BUFFALO, August 2.—Buffalo 2, Chicago 11.  
DETROIT, August 1.—Detroit 13, Cleveland 11.

NEW YORK, August 2.—Metropolitans 9, Boston 3.

THE OAR.  
PLAINT'S CHALLENGE ACCEPTED.  
HALIFAX, N. S., August 2.—Plaintiff's challenge to McKay for a single scull race has been accepted for August 18, at Bedford Basin. Stakes \$300 a side.

ELECTRIC BRIEFS.  
National Associated Press.  
Anton Kalch, a nurse in the county hospital at Chicago, who caused the death of Lieut. W. D. Faulkner, of the second regiment, by administering three teaspoonful of carbolic acid by mistake for castor oil, has been held in \$1,000 bonds for manlaughter.

Justice Wallace, of Chicago, has determined to stop the revolver practice, owing to so many murders. He commenced to-day by fining John Lee \$50 for carrying concealed weapons.  
W. Wood shot and killed a colored girl named Kiah Wells at Fort Smith, Arkansas. Jealousy was the cause. Wood escaped.

At a colored picnic at Morefield, Nicholas county, Ky., yesterday, a fight occurred between Carlisle and Sharpsharpe negroes, in which five were killed.

D. W. Caldwell has been appointed general manager of the Pennsylvania company's lines west of Pittsburgh in place of J. D. Loyng, resigned. Caldwell's headquarters will be at Pittsburgh.

### CRIMINAL CALENDAR.

TWO RAILROADERS KILLED BY A NEGRO.  
National Associated Press.  
CHICAGO, August 2.—Dorlis Mahoney, freight conductor on the Grand Trunk railway, 28 years old, a resident of Toledo, and James Omeara a switchman of the Rock Island railway, were shot by a negro named Jerry Milligan last evening. Mahoney is dead. Omeara will die. Cause, a drunken quarrel on the street.

KILLED HIS MISTRESS.  
Jack Stanners shot and killed his mistress, Lizzie Cleveland, last evening at her bagnario. Cause jealousy. Stanners was arrested.

AND STILL ANOTHER.  
Policeman Pat O'Brien and James Rea were shot last evening and will probably die.

A BLOODY PICNIC IN CHICAGO.  
CHICAGO, August 2.—Officer O'Brien, who was shot early this morning by a young thug named Cahill, is not expected to survive the night. Officers Heffron and Rea, who were shot at the same time by other members of the Cahill family, will recover. Last night was an extraordinary bloody night for Chicago, one man and a woman being shot dead, an officer and a citizen mortally wounded and two other officers seriously wounded.

A Big Hoax.  
CHICAGO, August 2.—The report of the arrest of Crowe, the Peoria inventor of the infernal machines, appears to have been a practical joke instituted by the city marshal of that place. It was reported that the arrest was made by order of Attorney-General MacVeagh, and that Crowe would be brought before United States Commissioner Haines, of this city, to-day for examination. The commissioner has seen nothing of Crowe, knows nothing of the case, and is inclined to look upon the reported arrest and arraignment as a hoax.

A Runaway Clerk.  
NEW YORK, August 2.—Jas. Fitzpatrick, a clerk in the employ of the Mathiesen & Weichsig sugar refinery, Jersey City, was yesterday sent to this city to collect bills amounting to \$19,000. He collected \$14,000, mostly in checks, payment on which has been stopped, as he is reported to have mysteriously disappeared since making the collections.

A Tunnel Caves in.  
National Associated Press.  
CHATTANOOGA, Tenn., August 2.—News from Okaloosa station says that tunnel 26 caved in last evening while fifty men were inside. All except seven saved themselves by getting under the projecting sides. Two were fatally injured, the other five seriously.

Indications.  
WASHINGTON, August 3.—For the upper lakes: Fair weather, variable winds, mostly southerly, stationary temperature, lower pressure. For the upper Mississippi and lower Missouri valleys: Partly cloudy weather, local rains, winds mostly southerly, stationary or higher temperature, falling barometer.

Accident at Fremont.  
On Saturday last, at Fremont, a farmer by gross carelessness, nearly lost his life. A freight train on the U. P. was coming into the station at a rapid rate of speed, and the farmer endeavored to make a crossing in front of the train. He was unsuccessful for just as the horses had passed the track the engine struck the wagon and literally smashed it in small bits. The driver was knocked to the ground and his head severely cut, and besides he was badly bruised and shaken up. The horses became frightened and ran away, causing great excitement among the citizens. They were badly used up.

### FOREIGN FLASHES.

One Hundred Conservative Peers Decide Not to Obstruct the Land Bill in the House of Lords.

But Will Make an Effort to Have Certain Amendments Made to it.

The Czar and Imperial Family Suddenly Leave Moscow Sunday Night.

The Cause of the Sudden Departure of the Discovery of Another Plot on His Life.

All the European Powers Alarmed Over the Tunisian Question.

The Persecution of the Jews in Germany Still Continues.

### Miscellaneous Foreign Notes.

ANOTHER PLOT ON THE CZAR'S LIFE.  
ST. PETERSBURG, August 2.—The czar and imperial family left Moscow on Sunday night's train toward Novogard. Their destination is unknown. The cause of the sudden departure was the discovery of a plot to assassinate the czar. A woman named Yana Fried Solovlev's was appointed by the nihilists to make the attempt. The woman escaped, but others were arrested.

CONTINUING THEIR DEPREDATIONS.  
LONDON, August 2.—A dispatch from Tunis states that the Arabs are still continuing their depredations around the city. Cattle and horses were yesterday carried away from two farms. The departure of an expedition of the bey's native troops into the interior to disperse marauding bands is now fixed for Sunday, but there is still great difficulty in collecting sufficient numbers of soldiers to join the expedition. The Arabs destroyed the telegraph lines and the workmen, accompanied by mounted forces have to repair lines connecting Tunis with the coast.

WILL NOT OBSTRUCT THE LAND BILL.  
LONDON, August 2.—To-day one hundred conservative peers, having sited in the house of lords, met at the residence of the Marquis of Salisbury to take into consideration the course to pursue respecting the Irish land bill. The result of this deliberation is not yet known, but it is given out that they agree not to attempt to obstruct the passage of the bill, but to make efforts toward effecting certain amendments.

THE GREAT POWERS ALARMED.  
BERLIN, August 2.—There is unusual activity in the foreign offices here. It is understood that the chancellor and subordinates are busily engaged in the consideration of the Tunisian question, and are preparing a circular letter to other great powers respecting the present condition of affairs in northern Africa. Advice from other capitals show that the great powers are alarmed at the existing state of affairs in Tunis. Anarchy is prevailing there and there is a strong demand for the more effective protection of foreigners who are sojourning not only there but in other parts of northern Africa.

JEWISH PERSECUTIONS STILL CONTINUE.  
DISPATCHES FROM BAERVALE state that the anti-Jewish riots are still in progress in that neighborhood. Yesterday the Jewish synagogue was attacked and pillaged by a mob. The Prussian government, it is stated, has taken means to prevent further disturbances.

PREPERS CHINESE EMIGRATION.  
BERLIN, August 2.—The king of the Sandwich Islands, in an interview with a representative of the German press to-day, declared positively that he had no intention of attracting European emigration to Hawaii. He greatly preferred emigrants from Japan and China, who were much more easily acclimated than Caucasians and from whose political aspirations he would have nothing to fear.

PANAMA PARAGRAPHS.  
National Associated Press.  
PANAMA, August 2.—A renewal of the banana troubles has led to disturbances and some arrests. Dealers demand a dollar a bunch and shippers will pay only sixty cents. S. S. Alene wanted 400 tons to complete a cargo but left without them.

M. Bordo, a member of the canal company, challenged Chamberlaine, English secretary of the canal company, because of remarks supposed to be derogatory to the former's wife. The British vice consul interferred and the matter was hushed.

News from Peru are conflicting. It is said that the Bolivian army has been reorganized and is on the way to meet Generals Piérola and Solar, but will support the Calderon provisional government under certain conditions.

THE LIQUOR QUESTION IN NORTH CAROLINA.  
RALEIGH, N. C., August 2.—The vote on prohibition, August 14th, will probably result adverse, but it is largely dependent on whether the vote will be full or light. The prohibitionists claim 75,000 votes. The liquor men claim 125,000 votes. The republican organization has declared against prohibition. The negroes generally will vote with their party lead-

ers. Many democrats, having large orchards, also oppose the bill. The bill was passed by a democratic assembly and is supported almost exclusively by the democrats and a few white republicans who decline to obey their party mandate.

### PACIFIC COAST NOTES.

NATIONAL ASSOCIATED PRESS.  
SAN FRANCISCO, August 2.—A dispatch from Sonora says that a party of Mexicans were attacked at Las Animas by twenty cow boys, and four of the party killed. A force of Mexicans has been organized in Fronteras to pursue the murderers.

James P. Blithen, mayor of Oakland, has failed for \$40,000.  
Mayor Killoch has harmonized the differences between the workmen, and the state central committee have pacified the wrangling democrats, which will result in a joint ticket of the workmen and the democracy.

MEXICAN MATTERS.  
NATIONAL ASSOCIATED PRESS.  
CITY OF MEXICO, August 2.—A number of Mexicans are supposed to have been killed by Apaches in Chihuahua and much property destroyed. An expedition has been organized to search for and punish the marauders. A large number of people in Chihuahua have petitioned the government to demand indemnity from the United States government for allowing Indians to cross the border into Mexico.

A dispatch from Zitacetro states that an uprising has occurred there among the Catholics against the Protestant missionaries, who made themselves obnoxious by assailing the religion of the people. The government will promptly punish the wrong doers if any outrages have been committed by the natives against well-behaved and unaggressive foreigners and visitors.

Well Known Jockey Poisoned.  
NATIONAL ASSOCIATED PRESS.  
KANSAS CITY, Mo., August 2.—A sensational case of poisoning came to light this forenoon. At 11 o'clock last night a well known jockey named Ford fell on the street in convulsions, but was resuscitated sufficiently to relate that he had been told to lose a certain race in Missouri last week, but his horse ran away with him and won. The owner of the horse gave him a bottle of liniment with instructions to bathe the horse's legs and drink the balance of the liniment himself, which he did. He managed to reach home, but the physicians say that he has been poisoned with belladonna and cannot live.

LABOR TROUBLES.  
NATIONAL ASSOCIATED PRESS.  
PROBIA, August 2.—A strike was inaugurated this morning by train men on the Illinois Midland road, and business is in consequence suspended. The men claim that they have received no pay since May last. It is expected that the trains will be run out to-morrow.

MAYSVILLE, Ky., August 2.—The union cigar makers have struck for an advance and the factory has been closed.

KENTUCKY ELECTION.  
NATIONAL ASSOCIATED PRESS.  
LOUISVILLE, August 2.—From the latest returns the state senate will stand 27 democrats to 11 republicans, a republican gain of 7. The lower house will stand 74 democrats to 26 republicans, a republican gain of 7. On joint ballot—democrats 401, republicans 37, a net republican gain of 14.

Elections in the Indian Territory.  
LITTLE ROCK, Ark., August 2.—An election was held in the Indian Territory yesterday for forty members of the national council and seventeen members of the grand council. Also sheriff, judge and clerk in each district. The national and union tickets elected half each.

Decided to Accept the Offer.  
NATIONAL ASSOCIATED PRESS.  
BROOKLYN, August 2.—Miss Hynes, of St. Louis, mother of the child left two weeks ago on the doorstep of the house of Joseph Greenwood, father-in-law of the reputed father of the child, John McGovern, has written to the Kings county commissioners of charity and correction offering to receive the child at her home in St. Louis if one-half the expenses of transportation are paid. The commissioners have decided to accept the offer.

McComb Elected.  
NATIONAL ASSOCIATED PRESS.  
SAN FRANCISCO, August 2.—The supervisors to-night elected General James McComb county clerk, in place of Wm. A. Stuart, whose resignation was filed this evening.

Terrible Explosion.  
NATIONAL ASSOCIATED PRESS.  
DAYTON, O., August 2.—Information has just reached here of a terrible explosion at the paper mills at Carrollton, eight miles from the city. Particulars later.

Death of Consul Rodgers.  
NATIONAL ASSOCIATED PRESS.  
CITY OF MEXICO, August 2.—United States Consul Rodgers, at Vera Cruz, has died of yellow fever.

A Month for "Foy".  
Most of the men employed at the U. P. shops are in the habit of carrying their dinners with them to work. The little tin buckets containing the meals are generally stowed away on one side until noon time when they are again resurrected. For some time past the men have noticed that their kettles had passed inspection under some critical eye, and that everything in the way of dessert was generally missing. At last they determined to set a watch and yesterday the offender was caught. He received some sound advice from the superintendent, and hereafter the workmen's kettles will not be interfered with.

### ALL REJECTED.

More Bids For Work on the New Court House.

The county commissioners met again yesterday to consider the bids made for the new court house.

There were six bids received. The lowest bid was made by Meyer & Co. for \$100,000. The next lowest bid was made by the Peoria firm for \$100,000. The third lowest bid was made by the Peoria firm for \$100,000. The fourth lowest bid was made by the Peoria firm for \$100,000. The fifth lowest bid was made by the Peoria firm for \$100,000. The sixth lowest bid was made by the Peoria firm for \$100,000.

The county commissioners will meet again to-day to consider the bids.

VERY STRANGE.

Number of Men Who Make Two Drinks a Limit.

Amusing feature of Judge Benely leaves is the air of injured innocence with which the average receives the announcement that charged with drunkenness. The toper will throw up his hands in horror at such a preposterous

When it is substantiated by the testimony of half a dozen policemen and the city marshal insinuates that it required three men to take the fellow to jail he always qualifies the matter by asserting that he might have been drunk. In the history of the court no one has been known to acknowledge in out and out terms that he was drunk. The more elaborately drunk a man had been the less liable he is to admit it the following day in court. The number of men in Omaha, however, who confine themselves to two drinks is almost beyond belief. Nearly every man brought before the court will acknowledge that he had a couple of drinks, but under no consideration can he be induced to say he had three.

Two seem to be the limit. The men found in the gutter stick to this statement the stoutest. It is a rather curious phase of human nature, but Judge Benely can wrestle with it about as well as any able-bodied man in Omaha.

THE PUBLIC PULSE.  
EARLY TELEPHONE CONNECTION.  
TO THE EDITOR OF THE BEE.  
OMAHA, August 2.—Why is not somebody always on duty at the Telephone Exchange? It is impossible to ring up the central office before 8 o'clock in the morning. My child was sick this morning and I wished to telephone my physician before 8 o'clock, when he begins to make his calls. I couldn't rouse them up at the central office and consequently had to watch my opportunity to catch the doctor. Now if the Exchange is to be a public accommodation why don't they begin to work earlier?  
INQUIRER.

WHY ISN'T SOMETHING DONE?  
TO THE EDITOR OF THE BEE.  
OMAHA, August 2.—About one year and a half ago council granted Mr. Kountze the privilege of narrowing Tenth street, from Pierce south, to fifty feet. In consideration of this he was to plant the remaining twenty-five feet upon either side with shade trees, nicely sod the whole and make a beautiful avenue of it. Since the permission has been granted three tree-planting seasons have passed and not a single tree is yet planted, and instead of being sodded only one side of the street is seeded to grass. Whose duty is it to see that the contract is carried out? To my mind the street shouldn't be left a barren waste.  
SOUTH OMAHA.

PUBLIC DONATIONS.  
TO THE EDITOR OF THE BEE.  
OMAHA, August 2.—One of the most pernicious influences of public donation is its appearance in private enterprise. Not even a street car line can be built in this city until property owners are ready to come down with enough money to build the road. Once built it goes under the Marsh administration. Indeed, it becomes another lever in favor of this street car monopoly. The sooner an injunction is issued against the extension of the present lines under the old charter, the better for the people's interest. No one will object to Capt. Marsh, or any other place, but for Capt. Marsh to assume to work under the old charter is decidedly thin. If a judgment for damages is not good against the old Omaha Street Car company because said company has become private property by foreclosure, &c. why should the monopoly franchise be good in all the streets, to say nothing of other legal deficiencies. The same legislature that gave the street car franchise, gave another company a similar exclusive franchise for manufacturing, &c. No one opposes the latter company could exclude all other interests, yet it would be as reasonable as to presume that a street car line can only be built where one man dictates. Shall citizens be compelled to pay that man \$3000 a mile for every street that man occupies, under the delusion that nothing else is possible. Oh, where is Red Eyed Jonik?  
CITIZEN.

No head-ache or back-ache for ladies who drink "WINE OF CARDUI".  
At C. F. Goodman's.

### Early Stock Shipment.

Stock men all along the line of the Union Pacific and its branch roads, already begin to make large shipments of stock to the eastern markets. In consequence of the extraordinary demand for shipping facilities, the U. P. company is now sending from two to three trains of empty stock cars every day in order to supply in measure the demand. Stock are now arriving from the west daily. A train of thirty-five to forty cars loaded with cattle arrived here yesterday. The shipment season opens unusually early this year heretofore stock has not commenced rolling until about the last of September. The early shipments that cattle have had good grazing the summer in order to fatten them for market thus early.

VERY STRANGE.

Number of Men Who Make Two Drinks a Limit.

Amusing feature of Judge Benely leaves is the air of injured innocence with which the average receives the announcement that charged with drunkenness. The toper will throw up his hands in horror at such a preposterous

EVERYTHING READY.  
To Begin Pumping Water This Evening.

The Water Company is ready to begin pumping from the river this evening. The brick about the boiler is completely dried, and everything else is in readiness for immediate action. However it is not likely that the pumping will begin before the latter end of the week, owing to the fact that the Mr. Cook, of Toledo, the consulting engineer, has expressed a wish to be present at the moment operations are begun. Chief Engineer Davis says that a delay of a couple of days will be made on this account, but at the end of that time work will be commenced. The water will be pumped immediately into an immense basin that is now ready and as it settles rapidly it will be ready for domestic purposes in a very short time. Specimens of Missouri river water are on exhibition at the company's office, and if the results in the regular supply are the same they will be eminently satisfactory. It is claimed that there is no doubt about this.

Yes, sir, it is all that is claimed to be, said Capt. Jack McLean, of Norfolk, Va. I have tried it, and have advised and witnessed its trial on others. I tell you its effects are simply wonderful. I had been suffering a great deal for over a month with very severe pains contracted from a cold. I first experienced the pain in my side and from its peculiar nature, I thought that it might be the premonition of paralysis. My friends were fearful; but after it shifted about, shooting through my body in a most infernally tormenting manner, I knew that it was rheumatism, and I sought remedies of different kinds without effect, until I chanced to see the advertisement of St. Jacobs Oil, and read of its wonderful cures, when I resolved to give it a trial. Securing a bottle of the Oil, I applied it to the parts affected, and that night I had the first good night's rest that I had since the commencement of my attack. I gave two other applications and became perfectly cured—not suffering from rheumatism since and that has been two months ago.
