FINANCE AND COMMERCE.

FINANCIAL

NEW YORK, August 13.—Money—Easy at 2@2 per cent. Money rose to 6 per cent bid at close. The advance is due to the shifting of loans incidental to liquidations now going on.

Prime Mercantile Paper—\$56 per cent. Sterling Exchange—Bankers' bills weaker at \$4.83; demand, \$4.80.

Governments—Lower for 4's and 4½'s. Stocks opened very nervous, at 4 to 1½ lower than Saturday's closing quotations. The decline was immediate with active selling. In the first thirty-five minutes a further decline ranged from 4 to 3½c, the latter on Omaha common to 3½c. This was followed by an upward reaction of 4 to 1½c, the latter on Western Union to 7½c. After 12:30 a savage attack was made on the market. The decline in the next hour was 36½c to 3½c, from Omaha to 3½c, and on Western Union 1½c to 7½c, and Kansas & Texas 1½c to 2½c. From these extremes there was a partial recovery, but it still left prices largely below the prices at 12:30. In the last hour the market was at first weaker, but in final dealing was firmer.

The Evening Post says: "The burly in the stock market, which has now been in progress for three days, has unquestionably been brought about mainly by the efforts on the part of interested parties to create alarm about the general situation of railroad finances. The failures of mercantile houses and banks in various parts of the country had undoubtedly increased the feeling of distrust that has been prevalent for three months, and these circumstances would probably have caused a gradual decline in prices of stocks anyhow, but the rumors referred to have precipitated the decline."

CLEARINGS.

BOSTON, August 13.—Reports from twenty-four leading clearing houses of the United States for the week ended Saturday, the 11th give the total clearances at \$708,259,394; a decrease of 25.4 per cent compared with the corresponding week of last year. Clearances outside of New York, \$221,908,939; an increase of 1.0 per cent. The exhibit continues unfavorable, and clearly indicates that the general trade situation has met with no improvement during the week. Including New York, the aggregates look a little better than they did, but outside of the metropolis, the figures indicate diminished business. The only cities which show any increase are: Chicago, 4.2 per cent.; Pittsburgh, 33.6; New Orleans, 2.8; Milwaukee, 6.3; Kansas City, 54.6; Columbus, 31.3; Peoria, 3.1; Worcester, 5.1; St. Joe, 7.2; Memphis, 58.1; and Syracuse, 21.0.

The large gain at Kansas City is due to the increased activity manifested in all kinds of trade. The great increase in some Southern cities indicates trade is quite active in that section. This is notably the case at Memphis. Some of the manufacturing cities, which showed a loss last week, come to the front with slight gains this week. Among them we notice Worcester. Pittsburg continues to show a large increase.
