A Baptist Minister's Experience.

"I am a Baptist minister, and before I thought of being a clergyman I graduated in medicine, but I left a lucrative practice for my present profession, forty years ago. I was for many years a sufferer from quinsy. Thomas' intectric cit cured me. I was also troubled with hoarseness, and Thomas' intectric Cit always relieved me. My wife and child had diphtheria, and Thomas' Intectric Cit cured them, and if taken is a cure seven times out of ten. I am confident it is a cure for the most obstinate cold, or cough, and if any one will take a small teaspoon and half fill it with Oil, and then place the end of the spoon in one nostril and draw the Cit out of the spoon into the head, by sniffing as hard as they can, until being secured the entire lot estimated at 6,000 were soon safely housed in boxes the head, by sniffing as hard as they can, until the Oil falls over into the throat, and practice it twice a week, I don't care how offensive their head may be, it will clean it out and cure their head may be, it will clean it out and cure their catarrh. For deafness and earache, it their catarrin. For dearness and excise, it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever felt like recommending, and I am very auxious to see it in every place, for I tell you that I would not be without it in my house for any consideration. CAMP ALLISON, Yellowatone Canon, August 28, via. Livingston, Montana, August 30.—Leaving Yellowstone lake at 6:25 this morning the party journeyed 18 miles over a splendid trail to this point. The road was equal to any turnpike in the states, and on the way the the seething water and mud that eternally boils but finds no outlet it was generally remarked that the place was properly mamed. The canon of the Yellowstone The San Francisco Chronicle has been beasting of its big 16-page edition and its immense sales, and well it may, as it was a great stroke of newspaper enterprise. The same that the cannot cannot are the two falls between which we have pitched our camp are equal in sublimity and beauty to any upon the continent. Leaping and to tear its way through solid mountains, leaving in its pathway forms of uncouth and lawful majesty seen nowhere else. We find here also the inevitable tourists, male and female, each of whom is anxious to see not only the canon, but the president, and it is mildly suggested by some that the eyes of these lovers of na ture are directed more frequently to the latter than to the former. We all probably remain here to-morrow, and expect to reach the railroad by September first. So far the trip has been one of unalloyed pleasure, and all are in the best of

There are two trails leading from the lower falls to Barrett's bridge; one follows the canon along its creek for tifty or sixty miles, then leaves it and passes to the eastward of Mount Washburn. It is a very difficult route. For twelve miles it is one constant de scent. Other and better one we followed and passed over to the westward slope of the same mountain. From the summit of Mount Washburne, 10,000 feet above the sea, an extended and comprehensive with the sea, and extended and comprehensive with the sea. view of the park scenery was obtained.

To the northward and east of the grand elevated and snowy ridges and peaks of the Rocky mountains were royal turrets rising to the sky. To the eastward and south great banks of snow lay low on the peaks of Shoshone range. The grand canyon, from this point of vantage, looks like a narrow gorge fringed with dark pines. In the distance can be seen some of the great geysers sending forth puffs of steam, and giving their location the appearance of an aggregation of busy factories. DR. H. WAGNER.

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought neaver and neaver to perfection, and no one man can any longer grasp them all. Hence the necessity for dividing the labor. And it is true bey in all doubt that disease, affecting the genito-u inary organs neel special study more than anything else, if we would understand and know how to treat them properly.

Dit. H. WAUNER is fully aware that there are many physicians, and some sensible people, who will condemn him for naking this class of diseases a specialty, but he is he, py to know that with most persons of refinement and intelligence a mare enlightened view is taken of the su ject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close apulication excels in any other branch of his profession. And fortunately for humanity, the say is dawling when the talse philanthrophy that condemned the victims of folly secrime, like the lepers under the Jewish law, to discurred for has passed away.

Middle Aged Men.

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of thin milkish hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the genito-urinary organs.

Relief to the Afflicted.

In medicines, as in science, the specialists are the ones who always comes to the front and a complish great results. This remark is especially applicable to to Br. H. Wagner, of this city. He stands at the top of his profession, and the cures he performs for the unfortunate would seem wonderful if not properly viewed in the light of scientific acquirements. He is endorsed by the most eminent of the medical faculty. His office at 343 Laramir street, where he will speedly lightly effect a cure for the suffering of either sox, no matter how complicated their complaint.—Pomeroy, a Democrat.

Chronic Complaints Require Time for a Cure.

Persons at a distance who wish to be treated by Dr. Wagner need not feel backward because of inability to visit him. If they will write to the doctor he will send a list of questions which enables him to send medicines, counsel and advice to thousands he has never seen. He has patients in every city, town and station in Colorado, as well as allower the United States. See his address in his advertisement.—Denver Tribune.

Shall We Reform ?

Specific remedies for all diseases is the theory practice at present of educated and experience physicians, and in all large communities they have their specialties, to excel in which they direct their studies and practice. Dr. Wagner is a successful Histration of this modern school of specialties and his un, receigned success in the treatment of private diseases is as wonderful as it is flattering.—Prof. J. Shoms.

diseases is as wonderful as it is flattering.—Prof. J. Simms.

Those persons who need medical relief for the most delicate of diseases will flad an accom, lished and successful physician in the person of Br. Wagner, No. 343 Larimer street, who is highly recommended by the medical profession at home and aboard.—Fomerry's itemorrat. Bigotry and ignorance must give way to wisdom, and the wise physician belie as in letting his light stime for the glory of his fellow men. Printer's ink is the torch he can best use to guide the weary and sick one to the foundation of health. If this article should be instrumental as a "FORCHLI HT" set upon a hill to guide suffering humanity to 313 Larimer street, Denver, Colorado, it will answer the purpose for which it was written.
