THE DREAD OF EUROPE.

The review of the great German army at Hamburg last week, the unveiling of the great statue of Germania in commemoration of United Germany were each monuments to the power of Prince Bismarck, the one statesman, whose matchless abilities have made him the dread of Europe.

Both parties are claiming a certain victory in Ohio. This means that both parties are badly scared and that the vote will be a heavy one.

THE UNION PACIFIC backs its attorneys, Mr. Reese, of the old firm of Reese & Gilkeson, was the railroad attorney in the Arndt case, in Saunders county.

THE REPUBLICAN insists that Mr. Reese is not a young man. He is too young in judicial experience for the Supreme court, having never sat a day on the bench in his life.

GRIP cars have begun running on the Brooklyn bridge and the first accident has been recorded. The grip car is running the kerosene can a close race this year in the number of victims.

AMERICAN residents in the Sandwich Islands are said to desire the presence of a United States man-of-war in that part of the world. Perhaps they can have their wish, but citizens of this mighty Nation must be modest in such requests.

well under way. The branch line of railroad to the Soda lakes, or beds, has been ballasted eight miles out from Loranie. A force of some thirty-five men are at work on it.

The heavy and continued rainfall in Wyoming the present year, mentioned in these columns a few weeks ago, is brought in strong contrast to that of former years, by the records of the Cheyenne signal office.

The Cheyenne Sun has investigated the Union Pacific shops at that point, and congratulates itself and the Magic citizens that in extent and number of hands employed they so closely approximate those at Omaha that the difference is not perceptible.

The Dakota capital fight is a repetition of that witnessed in nearly every territory before the transition to statehood. The recent decision of Judge Edgerton of the Territorial District Court, ousting the capital commissioners, had no apparent effect upon the official ring which designated and laid the foundation of the capitol in Bismarck.

The recent decision of Judge Edgerton of the Territorial District Court, ousting the capital commissioners, had no apparent effect upon the official ring which designated and laid the foundation of the capitol in Bismarck.

THE SUPREME COURT. A large number of the ablest class of republican state papers admit that Judge Savage, is in every sense the man who should succeed Judge Lake on the supreme bench and that the personal strength, the breaks down party lines, making his election almost a certainty.

THE SUPREME JUDGE. A large number of the ablest class of republican state papers admit that Judge Savage, is in every sense the man who should succeed Judge Lake on the supreme bench and that the personal strength, the breaks down party lines, making his election almost a certainty.

of door knobs, locks, window-fasteners, number of brick, etc., necessary for particular parts of the structure, and the frauds that he would be sure to practice on the board without the protection of the schedule. We stated in these columns at the time that this schedule stuff was a mere subterfuge and long bear, and of no essential importance.

The blacksmith shop is of stone, and is 49 feet wide by 72 feet long. It is in charge of Mr. J. J. Edwards. At present, the force is small, having only four forges running.

THE STATE JOURNAL. The State Journal, and some of the other republican papers of the State, are heaping abuse and ridicule upon the Anti-Monopoly party.

DISCIPLINING THE DISAFFECTED. Some of the brass-collared editors are giving us a lot of silly twaddle about "disciplining the disaffected ones in the party" who so nearly kicked the railroad machine to pieces last fall.

ON THE DEFENSIVE. The monopoly press hadn't got through defending D. G. Hull until it was called on to take up a few twists for "Boss Stout" and the State Board.

THE SUPREME JUDGE. A large number of the ablest class of republican state papers admit that Judge Savage, is in every sense the man who should succeed Judge Lake on the supreme bench and that the personal strength, the breaks down party lines, making his election almost a certainty.

DEFICIENT IN MEMORY. Congressman Laird has taken the trouble to deny the statement made against him, respecting fraudulent land entries on the Sinking Water.

FROM BAD TO WORSE. The "Knevals compromise" was bad enough, but the Sinking Water Steel eclipses the morning sun.

A CAPITAL JOB. In the scandalous defense before the Supreme Court of the scandalous \$14,000 capitol steel, the lawyers, and notably Mr. Cowan, laid particular stress on the claim that a contractor's schedule of all the different items entering into the construction of the building was absolutely necessary in order that the building commissioners could properly estimate the amount of work done and so the amount of money earned at the time of each monthly payment.

Table Rock is sure of a creamery. McCook wants to incorporate this fall. The McCook water works are nearly completed.

STATE JOTTINGS. Table Rock is sure of a creamery. McCook wants to incorporate this fall. The McCook water works are nearly completed.

Work on a Presbyterian, and also on a Methodist church, has been commenced at O'Neill City.

Between county fairs and politics it would require a microscope to find an item of news in the county paper.
