As a specialty in the Piano line, I would recommend most heartily the

Hardman Piano:

A fine tone, finely finished, first-class instrument in every respect; they are not the cheapest Panos, but within the reach of all who really desire something that will last a lifetime. TRY THEM. They are fully warranted for SEVEN YEARS.

SHODDY PIANOS AND ORGANS,

so largely advertised like patent medicine, and like it, good for everything and nothing in particular, I DO NOT KEEP IN STOCK. I cannot afford to sell them, as I live too near home. But if desired, I am prepared to furnish any of these cheap Pianos and Organs at eastern prices, save freight, provided I am not held responsible. In connection with this I will state that my Organs contain 5 full octaves of Reeds, to one set. and do not call a single octave of reeds, a full set, as advertised by shoddy makers and dealers.

I sell Pianos and Organs on Monthly and Quarterly Payments; also for cash, with small extra discount.
