COUNCIL BLUFFS.

Wednesday Morning, Nov. 14.

Subscription Rates: By Carrier 30 cents per week; By Mail \$10.00 per Year.

Office: No. 7 Pearl Street, Near Broadway.

MINOR MENTION.

See Joseph Reiter's fall goods. Cheap Railroad Tickets at Bushnell's. Leave to wed yesterday granted W. T. Cole and Anna B. Maxwell, both of this city. The sidewalk on lower Broadway should be laid at once. It is horrible for passengers coming from the depot. Some lumber has been stolen from the school building in Hall's addition, and now the board of education is hunting for it. The sale of reserved seats Saual-Brah's entertainment, for the benefit of the Home of the Friendless, begins at Bushnell and Brackett's to-day. The injunction suit started by Judge Aylesworth against the city will probably be never heard of again, the matter to be dropped, as predicted by THE BEE. The Omaha board of trade is chronicled as dying or dead. Council Bluffs' body of like name seems to be also gasping. It should be revived if possible. The pork packing season is to be open in a week or so. J. T. Stewart is arranging to kill from 1,000 to 2,000 daily. Swan Bros. and Green & Son will also begin soon and kill several hundred head daily. Charles Lindeman, of Neola, has been brought before United States Commissioner Key, and held in bonds of \$300 to appear before the next United States court, for selling liquor without a government license. The entertainment to be given by Saual-Brah, at Dohany's hall, Thursday evening, will not only be a highly enjoyable one, but will give the public a chance to contribute still further to the support of the Home for the Friendless. Mayor Bowman has appointed two very important council committees, one on sewerage, consisting of Aldermen James, Wood and McMahon; the other on paving, consisting of Aldermen Siedentopf, Eicher and Keating. The prayer meetings at the Baptist church have lately taken somewhat of a revival nature. A special invitation is extended to those who are not church members to attend the weekly meeting this evening. Pethybridge & Herberich have presented their claim against the city for \$115, avowing that by driving into a hole in the street the wagon broke, the horses ran away and one was killed. The council has rejected the claim and now a suit will probably follow. At the Turner fair in Des Moines Saturday night there was a lively contest over the awarding of an elegant easy chair to the most popular business man. W. R. Vaughan carried off the prize, receiving 511 votes, the next highest being 483 for Mr. Grefe. The chair netted the society between \$300 and \$400. The man Myers, charged with assault with intent to kill, and who has been kept in jail here for safe-keeping, was taken to Carroll county yesterday for trial. It is claimed that he got jealous of another young man who was spending the evening with his girl, and taking a whiff of the tree he broke up the tete-a-tete, and almost broke up the fellow. At the coming Catholic fair an elegant gold watch, valued at \$250, is to be voted to the most popular assistant yardmaster, the following being the candidates: Jas. Wesley, C. B. & Q.; Pat Cody, U. P.; West Johnson, C. & N. W.; Lawrence Downs, C. M. & St. P.; Hank Negress, C. R. L. & P. The watch is now on exhibition at C. B. Jacquemin & Co.'s, and is a beauty. A little fellow yesterday afternoon was run into by a dirt wagon, on Pierce street near Glen avenue, and was picked up supposedly in a badly injured condition. He cried, and took on a good deal, but as some bystanders picked him up to put him in a wagon, the little fellow, fearing he was to be taken to a hospital or some other place rather than home, concluded he could walk, and bounding out of the wagon to the surprise of all, made a lively run for home. One of the queens of the dugouts took much of Chief Field's time yesterday in telling him her grievances. She claimed that her husband had charged her with loving not wisely but "two" or more well, and they had had a fuss. The husband insisted on hanging around there and using the money she earned by washing, he being a hard drinker. She wanted to "get shut of him." It is about time that war broke out afresh in the dugouts. The search warrant issued by Justice Schurz for some lumber claimed to have been stolen from the new school house in Hall's addition, was placed in officer Chatterback's hands yesterday, who discovered the alleged lumber in David Raffille's premises 620 Avenue G. A warrant for Raffille's arrest was accordingly issued, and he was brought in. He gave \$100 bonds to appear for examination this afternoon. J. W. Baird is to prosecute while John Lindt defends. Light begins to break, and there is the prospect that Council Bluffs will soon be in a blaze of glory with electricity. The council, at its last meeting, passed an ordinance granting the Western Edison Electric Light company the right to lay its wires in the city, above ground or below ground, or both. Mr. M. G. Griffin, who has been appointed general agent of the company for southwestern Iowa, says it means business, and that Council Bluffs will surely have the light, and at an early date. In a card published in another column, he sets forth some of the reasons why he is so enthusiastic over the Edison light and some of its advantages, and the good words said for it.

LET THERE BE LIGHT.

The Edison Electric Light Taking the Lead as the Safest, Cheapest, Best. How Prominent Men and Houses are Using and Praising It. The Edison incandescent system of electric lighting, as now perfected, is attracting the attention and commanding the admiration of all enlightened nations. It is rapidly being adopted in depots, theatres, factories, public institutions, stores, residences, offices, etc. Many towns and cities have formed incorporated companies for the sale of the light to the general public. It should be borne in mind that there are two systems of electric lighting—the arc and the incandescent. The arc is a light of great intensity, concentrated in one small spot, is constantly changing in color and intensity, and is very trying and injurious to the eyes. The incandescent light, as introduced by the Edison company, is a small, soft and steady light, equal in illuminating power to a gas jet of the best quality. It can be conveniently attached to the gas fixtures. Consumers, therefore, may have as many lights as gas jets, more or less. The Edison system is now being introduced into Iowa. It is in use in the Anamosa penitentiary. Warden Martin speaks very highly of it, that it is cheaper than candles or oil, and far better than any known artificial light. Companies have lately been formed in Des Moines and Davenport, for the sale of the light to the general public. Mr. Penwick, treasurer of the Davenport company, says: "The light is giving perfect satisfaction, and is much preferred to gas or any other light; that it is sold to stores and dwellings much lower than gas, is paying a good profit in the investment, and that the stockholders are more than satisfied with the enterprise. The Davenport Gazette uses it exclusively and is outspoken in its praise, that 'it is the light of lights.'" Throughout the eastern states, and in foreign countries, it is fast displacing gas. Arrangements are now completed to light up the town of Pullman, Ill., residences, stores, halls, etc., exclusively with it. The C. & M. & St. P. Railway is installing it into their magnificent depot in Milwaukee. The First National bank, Haverly's theatre, the Academy of Music, Mendall & Co., Marshall Field, and many hotels and residences in Chicago, are now using the Edison light, and would not do without it. The following are a few extracts taken from the many letters received in praise of the Edison light: "The whole system far transcends the claims put forward. We would not substitute arc lamps under any consideration, nor would we use gas, owing to dangers of explosions and fire."—Beatty's Organ and Piano Factory, Washington, N. J. "Contrasted with gas, or any other light, it is the best known."—Harrison Woolen Mills, Newburgh, N. Y. "It is a much better light, and much cheaper than gas."—Brooklyn Sugar Refinery. "My experience has been short, but in my opinion it will run out every other light."—Rogers Flour Mills, Appleton, Wis. Among the many other letters we name the following: New York Herald; United States Rolling Stock company, Urbana, Ohio; Prospect House Hotel, Adirondacks, N. Y.; Thurber & Co., Greens, N. Y.; Haverly's Theatre, Chicago, Ill.; Philip Best Brewing company, Milwaukee, Wis., &c., &c. The Edison is intended to take the place of gas, oil, candles, &c. It is measured through the Edison meter, which is a marvel of ingenuity and correctness. Customers are only required to pay for the actual amount of light consumed. Capitalists wishing to invest money in a paying enterprise in their own towns, will, on application, be furnished with detailed information and estimates for the establishment of central lighting stations, the expense of operation and percentage of profit. Parties wishing to install small plants on their own premises, will be furnished with estimates of cost upon application. For pamphlets, circulars and all other information pertaining to the Western Edison Light Co., of Chicago, Ill., address M. G. Griffin, agent for southwestern Iowa, office 502 Broadway (up stairs), Council Bluffs, Ia. Cut rates to all points at McAllister's ticket office, 505 Broadway, Council Bluffs. Back to Braun's. Ed. Another Plot for Breaking Out of the Jail. Another scheme for a jail break has been discovered and frustrated. The plan, as concocted, was to seize Jailor Schontz as he entered the jail at night to lock the prisoners in their cells. The plan was to seize the jailor by force, and thrust him into a cell and lock him in. Then the prisoners were to take one of the cell doors, which weigh about three hundred pounds each, and use it as a battering ram to break down the outer doors, so they could skip. Jailor Schontz, whose long daily experience in the jail has taught him to read faces and actions of prisoners, on entering the jail noticed that something was on foot, and boldly asked the boys what the matter was. They saw that he was on the alert, and hesitated. His quickness of perception bothered them, and they one by one entered their cells without making the break. So confident was he that something was wrong that he began investigating, and ascertained the plot he has above related. Yesterday one of the prisoners was let out, and, on being questioned closely, he confirmed the statement, and the condition of one of the doors gave further proof of the plot. As the time nears for the holding of the District court the prisoners are getting more and more apprehensive and uneasy, and it takes constant watchfulness to prevent them from making a break.
