WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

Wilbor's Cod-Liver Oil and Lime.—
Persons who have been taking Cod-Liver Oil will be pleased to learn that Dr. Wilbor has succeeded, from directions of several professional gentlemen, in combining the pure Oil and Lime in such a manner that it is pleasant to the taste, and its effects in Lung complaints are truly wonderful. Very many persons whose cases were pronounced hopeless, and who had taken the clear Oil for a long time without marked effect, have been entirely wonderful. Be sure and the last generally contracted by the profession, and medical works of but a few years ago would hardly mention it.

To-day the physician is of a different opinion; he is may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and guardlans will thank him for doing so.

The results attending this destructive vice were formerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was without marked effect, have been entirely avoided by the profession, and medical works of but a few years ago would hardly mention it.

### THE NECESSITY

FOR THE SPECIALIST,

DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them at Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the gento-turinary organs need special study more than anyhing else, if we would understand and know how reat them properly.

hing else, if we would understand and know how reat them properly.

DR. H. WAGNER is fully aware that there are many physiciams, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most percease of refinement and intelligence a mere calightened view is taken of the subject, and that the physical who devotes himself to relieving the afflicted and aving them from worse than death, is no less a phianthropist and benefactor to his race than the surgeon or physician who by close application excels in geon or physician who by close application excels in any other branch of his profession. And fortunately or humanity, the day is dawning when the false phi-anthrophy that condemned the victims of folly or crime, like the lopers under the Jewish law, to die uncared for has passed away.

### Plain Facts Plainly Spoken.

merly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

The habit is generally contracted by the young while attending school; older companions through their example, may be responsible for it, or it may be acquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely enslaves the victim. Mental and nervous af flictions are usually the primary results of self-abuse. Among the injurious effects may be mentioned lassitude, dejection or irrascibility of temper and general debility. The boy seeks seclusion, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exceeding and annoying bashfulness in their presence. Laseivious dreams, emissions and eruptions on the face, etc., are also prominent symptoms.

If the practice is violently persisted in, more serious disturbances take place. Great palpitation of the heart, or epileptic convulsions, are experienced, and the sufferer may fall into a complete state of idioxy before, finally, death relieves him.

To all those engaged in this dangerous, practice, I would say, first of all, stop it at once; make every possible effort to do so; but if you fall, if your nervous system is aiready too much shattered, and consequently, your will-power broken, take some nerve tonic to aid you in your effort. Having freed yourself from the habit, I would further counsel you to go through a regular course of treatment, for it is a great mistake to suppose that any one may, for some time, be t every so little, give himself up to this fascinating but dangerous excitement without suffering from its evil consequences at some future time. The number of young men who are incapaciated to fill the duties enjoined by wedlock is alarmingly large, and in most of such cases this unfortunate c

### Middle Aged Men.

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of thin milkish hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the genito-urinary organs.
