

THE DAILY BEE.

BOARD OF TRADE.

OMAHA.

Tuesday Morning, Jan. 8.

The Weather.

For the Missouri valley: Partly cloudy weather, local rains, southerly winds, generally lower barometer and rising temperature.

LOCAL BREVITIES.

The windows on the north side of the streets were relieved from frost yesterday. Meetings will be held each evening this week at the Christian church, conducted by the pastor. A brand new baggage car, No. 300, went out on the through train of the Union Pacific yesterday noon.

Engine No. 4 was employed yesterday afternoon in pumping out a man hole, on the sewer, on Tenth street.

The Nebraska telephone company have issued their telephone book, with list of subscribers and stations for 1884.

The walls have been prepared, and the workmen commenced yesterday putting on the paper in the Millard hotel office.

The ball to have been given January 10 by the Ruth Rebekah Degree Lodge No. 1, I. O. O. F., is postponed until January 17.

S. S. Marks, the man held for stealing a chair of Edholm & Erickson, was tried Saturday afternoon. He was found guilty and fined \$50 and costs, which he paid and went on his way rejoicing.

An adjourned meeting of St. Leo Branch, 292, C. K. of A., will be held on this (Tuesday) evening at 7:30 o'clock. All members are earnestly requested to be present.

Gallant Matt Patrick was out with his dashing four in hand and big sleigh yesterday noon. The first snow of the season allows finds Matt with a sleigh-load of lady friends enjoying a bon ton sleigh-ride.

A warrant was issued and placed in the hands of Officer Knight, Saturday evening at 7 o'clock, for the arrest of Maj. J. S. Newell. Mr. Newell had "skipped" the city, however, and consequently is not under arrest.

An exhibition at the roller skating rink was given last evening by the two juvenile exponents of the art, Miss Fuller and Master Bliss. A good audience witnessed the performance and heartily applauded the efforts of the little ones.

Joe Murphy and his company arrived in this city last night from St. Joe, and remained at the Millard until this morning, when they left for Lincoln. They will return from Lincoln to-morrow morning and show here to-morrow night.

The well-known Irish comedian, Joe Murphy, will play "Kerry Gow" at Boyd's opera house to-morrow night. He is certain to have a crowded house as he is one of the greatest favorites that comes to Omaha. Reserved seats were put on sale this morning.

In police court yesterday there was one case of intoxication, and he was sent up on the hill for ten days. One distributor of the peace was fined \$50 and costs, which he paid, and another man charged with the same offense was discharged.

At Lake's school house, Sunday afternoon, a Sunday school was organized, under the auspices of the Third Congregational church. Rev. Mr. Stewart, state superintendent, was present, and made a very pleasing address. The school starts out with very bright prospects.

We are enjoying the first sleighing of the season, and the joy merry bells do jingle and the footloose roadsters are kept busy flying over the frosty surface. To-night will witness a number of sleighing parties, and oh, my, what fun the boys and girls will have, Yum, yum.

The slight fall of snow yesterday, was taken advantage of by all those who inclined toward sleigh riding. The variety of equipage that slipped up and down on the snow, was as different as human ingenuity could devise, and the jingle of the bells lent merrily to the air.

The attendance of skaters last night at the U. P. skating rink was large and the ice was splendid. The attraction is drawing well and becomes more popular each day. Attractions will soon be in order, if the cold weather lasts, which will add much to the enjoyment of patrons.

The public library was moved into the new rooms, in Williams' block, last week on Saturday last, at 10 o'clock a. m., the doors were thrown open to the public room all day and evening. The public library is one of the best of our city institutions and is ably managed by the librarian, Miss Mary Allen. The new room is 42x60 feet in size and promises to be even more popular than the old one.

A case of elopement was presented at the depot yesterday by the arrival of frate parents at the proper moment. Tickets had been procured to Indianapolis, for two, by the young Lothario, but the maiden's parents insisted upon her return home, and the young man was compelled to "wait till the clouds roll by." All concerned are residents of West Omaha, being respectable, well-to-do farmers, and the denouement is being carefully watched by the reporter.

Several of the property owners on Dodge street held a meeting at the office of City Engineer Rosewater Saturday evening, to discuss the improvement of that thoroughfare. Mr. Rosewater submitted a proposed grade to extend as far west as Thirtieth street, which would involve cutting the hill beyond Jefferson street to a depth of about eighteen feet. Several of those present favored the proposed grade while Dr. Parker and W. J. Brodach opposed it. Doubtless another meeting will be held before any conclusion is reached.

Belle Stewart, a colored prostitute, was arrested Sunday night for snatching a traveling man's pocket book. The traveling man "caught on" to Belle and accompanied her into the alley in the rear of the Paxton hotel, where she "downed" him for his "boodle." Any traveling man who would "catch on" to any such old "bloke" as Belle ought to be rolled. Belle is considered as one of the slickest thieves in this city. The amount received from the drummer was \$16, which was found in the alley where she had thrown it.

These Are Solid Facts.

The best blood purifier and system regulator ever placed within the reach of suffering humanity, truly is Electric Bitters. Inactivity of the Liver, Biliousness, Jaundice, Constipation, Weak Kidneys, any disease of the urinary organs, or whenever requires an appetizer, tonic or mild stimulant, will always find Electric Bitters the best and only certain cure. They act surely and quickly, every bottle guaranteed to give entire satisfaction or money refunded. Sold at fifty cents a bottle by J. P. Goodman.

Electors of Officers for the Ensuing Year.

Reports of the President and Secretary.

The postponed meeting of the board of trade of the city of Omaha took place last evening at their rooms in Redick block. A quorum being present the meeting was called to order by the president, Mr. C. F. Goodman.

By motion the roll call was dispensed with. President Goodman then read his address to the board, the gist of which is expressed in the report of the secretary, appended below.

Secretary Gibson's report read as follows: Mr. President and Gentlemen of the Omaha Board of Trade:

At the conclusion of the seventh year of the existence of this organization it is expected that your secretary will have something to say of our progress. It is proper that we pause a moment and look backward at the ground over which we have passed to determine what, in our onward progress, can be improved, and forward, to see whether we are tending.

It appears to me that many of our business men, and even many members of this board, fail to appreciate or underestimate its value as one of the most important factors and auxiliaries in the work of developing the resources of our city and country. Its nature and methods of action are not properly understood or appreciated, and the inquiry has frequently been made, "What has the board of trade done, and what is it now doing for Omaha?"

With a knowledge of its influence in the inauguration of a system of public improvements that excites the admiration of intelligent investigating visitors from abroad, and which has so materially aided the city in her sturdy growth, it would be more appropriate to ask "what has this board not done?"

But for the information of those of our membership who rarely favor us with presence, and probably think little of the good accomplished by their fellow members, who take an active part for the good of all, we present some of the matters accomplished by this body. The improvement for river front, the settlement of the city bond question, the pro rata bill question, mail works, barb wire erection, retention of late fair in Omaha, the permanent location of the government storehouses, the grain elevator, amendments to the city charter, paving the streets of our city, the railroad switch in the northern part of the city, etc., etc., and the board now contemplates, with united action and energetic perseverance to avenge

to avenge a BRIDGE ACROSS THE MISSOURI RIVER. Senator Manderson was called upon by a committee of your board and urged to forward the passage of the bill, and the secretary of the Nebraska delegation in congress on the same subject, and has received reply from two of our members expressive of their willingness to urge the same.

THE STREET PAVING of our city, and the system of issuing bonds for the payment of the same, appears to be a perfect success, and the enormous it receives at the hands of every citizen, and also of the strangers visiting our business center, tells of the benefits derived from that portion already completed, and the good work progressing during 1884 will find the business portion of our city in a condition for travel both for pedestrians and equestrians that will not be exceeded by any city in the United States. And here let me say that to this board belongs all the credit, from its incipency to the letting of the contracts by the city council.

A MARKET HOUSE is a matter now receiving the attention of this board. Committees are at work on location and other data necessary to the success of the undertaking. It is a matter of much interest to a large portion of our citizens, and requires great care as to its position, plans, etc., but this board is equal to the task, and we have no doubt that when the preliminaries are fully matured and reported to the city council, that body will adopt the suggestion of the board as they have ever done before. It has been the privilege, and is almost looked upon as a duty incumbent on this board, to inaugurate public improvements, and with pride we say the city council, county commissioners, and board of public works have generally carried out that for which we have paved the way.

By the efforts of this board an opening was made for the improvement of the northern part of our city in railroad facilities by urging the building of a track to the oil mills, whereby an opportunity was presented for increased room and facilities for warehouses in that part of our city, and it now appears that the point was well taken, and the belt railroad has improved the advantage of the situation to start there and encompass the city, opening out thousands of acres of land on which to erect suburban residences, and homes for the toilers, and by quick transit will bring miles from business as near, as to time, as the blocks within our city limits.

ADVANCE IN REAL ESTATE. during the past year has been unprecedented. In our business streets values have more than doubled, and yet continue to increase. The residence part of our city in most localities have received the same impetus, and the adding of additions to and beyond our city limits, have been such that astonishment is everywhere expressed, and still purchasers come and partake of the offers freely. It is estimated that sales of real estate have been effected in and around the city to the amount of eight millions of dollars. At the same time public buildings, business houses, and dwellings, have kept pace with the real estate transfers, and a low estimate of the amount expended will reach over three millions, put into brick, stone and frame structures, making not less than eleven millions turned over in transactions in this department.

A great volume of increase has also taken place in WHOLESALE MERCHANTILE BUSINESS. Several large concerns have abandoned the east and set their lot here, and yet there is room for more; for the three great railroad corporations—Union Pacific, R. & M. and Sioux City & Pacific, are endeavoring our state to the northwest and south, and reaching still for beyond into adjoining states and territories, are making openings for business beyond all calculation or expectation, and the wholesale establishments of this city will only keep pace with the supply

THE LINCOLN TRAIN DITCHED BY A BROKEN RAIL.

Quite a Number of Persons Injured, But None Fatally.

List of Those Who Were Injured—Their Arrival in Omaha.

The Omaha & Republican Valley train, bound from Lincoln to Omaha, yesterday morning, was thrown from the track by a broken rail three miles this side of Valparaiso, and quite a number of persons were more or less injured, but fortunately none were fatally hurt.

The train, which was running about twenty miles an hour, was thrown down an embankment about eight feet high, but was not very seriously damaged. Some one cried out, "Look out for fire," which caused quite a panic, and the passengers who had been thrown into a confused mass made a general rush to get out of the cars, and during the scramble several more were injured. The panic, however, was soon quieted, and most of the passengers then sought refuge in the cars from the cold.

The news of the accident was immediately telegraphed to Omaha and Lincoln, from which cities special trains were sent out with surgeons to the relief of the injured. Dr. Mercer and assistants were sent out from Omaha. Last evening the special train returned to Omaha, having on board most of the passengers together with the greater number of the injured. A few of the injured were sent back to Lincoln and their names will be found in our dispatches from Lincoln. The injured persons who were brought to Omaha were taken either to St. Joseph's hospital or to the hotels, where every comfort was provided for them. The following is a list of those injured, so far as we were able to ascertain the names: Mrs. Day Mills, injured on left side, and child, injured on head, Marshall, Iowa.

Mrs. Mary Bushnell, David City, left ear lacerated and left side of face bruised. W. A. McCutcheon, Chicago, left elbow broken.

Rev. Ostrom, Fremont, severely injured about the head and hips. Mr. Harris, attorney, of Lincoln, head and chest injured.

Book-keeper, name unknown, employed by Nye, Coulson & Co., Fremont, collar-bone broken.

Miss Ayers, of Illinois, injured in chest.

Rev. John Miller, David City, shoulder and back bruised.

E. S. Rood, Lincoln, slight injuries about the head and face.

B. M. Searley, Stromsburg, two ribs broken.

J. M. Rogers, conductor, Omaha, right shoulder out.

Harry Ostrom, brakeman, Omaha, index finger broken.

J. C. Kimball, express messenger, chest and right leg injured.

Louis Vesperman and wife, Lancaster, Wis., slight injuries about the hands.

O. D. Kaufman, Des Moines, shoulder and hand bruised.

John Hummel, Morate, Ia., contusion of left foot.

Win. Orr, Springfield, Ill., slight injury on head and back.

Mark Anthony, slight injury of the left hand.

J. H. Armstrong, Peoria, cut over the right eye.

There were several others slightly injured.

No blame is attached to any one. The exceeding cold weather of last week doubtless broke the rail, and as it was covered by a light fall of snow in the morning, it could not be seen by the engineer.

THE ACCOUNT BY WIRE. LINCOLN, Neb., January 7.—A broken rail on the Omaha & Republican Valley railroad near Valparaiso, twenty miles north, threw the entire train except the engine down a five-foot bank. Six persons were seriously injured. Mrs. Day Mills, of Marshalltown, Iowa, internally; Mrs. Mary Bushnell, of David City, Neb., face and head cut; Rev. J. F. Ostrom, of Fremont, Neb., thigh broken; B. M. Searley, of Stromsburg, Neb., ribs broken; John Hummel, of Brainerd, Neb., foot crushed. Three children of Mrs. Mills are injured, and fourteen others more or less hurt.

Bucklen's Arnica Salve. The greatest medical wonder of the world. Warranted to speedily cure Burns, Cuts, Piles, Chills, Rheum, Fever Sore, Cancer, Piles, Chills, Corns, Tetters, Chapped hands, and all skin eruptions, guaranteed to cure in every instance, or money refunded. 25 cents or box.

THE HAPPY DANES. They Celebrated the Second Anniversary of the Danish Brotherhood Saturday Night.

Lodge No. 1, of the Danish Brotherhood of this city, commemorated the second anniversary of the founding of this organization Saturday night in Turner and Metz's halls. Both halls were very prettily and tastefully decorated for the occasion, and in Turner hall the beautiful flag of the Brotherhood, consisting of a white cross on a red ground, with the words, "Danke Broderskabund," was flying on one side of the stage, while the stars and stripes of America adorned the other.

In Metz's hall, where the banquets took place, another magnificent flag with a red ground, encircled with a green wreath bearing the inscription "Velkommen Danske Brodre," enlivened the appearance of the hall.

The long tables on which plates were laid for two hundred and fifty persons, were fairly loaded down with good things, and presented a beautiful appearance. There were a goodly number of waiters, who saw to it that no one left the tables hungry. As the banquet proceeded, and the people began to feel exhilarated, the speeches began.

President H. Amussen, Ex-President P. H. Johnson, P. O. Bodisen, B. F. Madson, Alfred Wolf, James Hendrickson and several others, made pleasant little speeches, which were very gladly received.

This organization, which has only been in existence two years, now numbers some of our best Danish citizens. It first started in Omaha, but has since extended
