#### NEW STYLES.

Astounding Fashions Soon to be Inaugurated-Radical Changes in Gloves.

The fashion plates for 1884 just is sued by a prominent firm show a pleasing variety in gentlemen's styles and will be hailed with rapture by lovers of the picturesque. In the plate for spring are represented five gentlemen, of ages ranging from twenty to lifty years. The As soon as water was thrown upon the feet of all the figures appear abnormally large. Thinking that this seeming disproportion might arise from the fault of the lithographer, a fashionable bootmaker was asked yesterday about the coming style. He replied:

"The fashion-plate is correct so far as shoes are concerned, as never before has set in. fashion decreed such large foot wear. I am even now making a pair of shoes for society leader. Come and see."

The shoes referred to were simply monsters, but what made them so was not discernible in the picture nor explained by the shoemaker. The shoes were digitated to match the new hose which gives each toe a room to itself. They are regular beauties and had comfort written all over them. In the plate for summer fashions are

the portraits of three well-known young gentlemen of the upper middle class. One of these wears a duster cut in the shape of a swallow tail. It is understood that these dusters will be all the rage at full dress affairs during the coming sum mer. Another gentleman holds in his hand a white straw hat moulded like unto the high stiff hat. It is a sweet thing, and stylish men anxiously await More complaint than ever has lately the 15th day of June, when they can apbeen made about the size of gas bills in pear on the streets with comparative safety in the new style hat.

The decree has gone forth that mittens shall supersede gloves on any and all occasions where gloves have been heretofore worn. This is a radical change and a surprising one. As yet the order is not generally known, and several of the closest followers of fashion have exthat they had an inkling that such a change would be made, but they had no idea that it had already gone into practice. A glover who misspent in putting on and pulling off the obstinate kid. Several designs for the incoming mitten were exhibited, and it astonishing how neat and small they are, appearing as close-fitting as gloves, yet they slip over the hands with such ease that it is pleasure to wear them.

The Requisition Papers on the Way and They Will Soon Return to Tennessee.

L. Reeves and L. C. Turner, the two quack doctors who were arrested on Tuesday by Sheriff Miller, at the request of Sheriff Cannon, of Memphis, Tenn., are still in jail at this place.

A BEE reporter met Sheriff Cannor last evening and was shown by that gentleman a telegram from the governor of Tennessee, stating that the requisite papers had been mailed, and they will doubtless reach this city to-day.

Mr. Cannon says that he has followed these fellows for a number of weeks and that he is receiving nothing for his trouble and is obliged to pay his own expenses besides. He is doing it more through official pride than anything else. No movement has been made yet to precure the release of the prisoners.
