THE DAILY BEE--- THURSDAY, MARCH 6, 1884.

BILIOUSNESS.

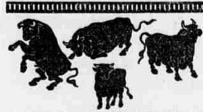

Bilious symptoms invariably arise from indigestion, such as furred tongue, vomiting of bile, giddiness, sick headache, irregular bowels. The liver secretes the bile and acts like a filter or sieve, to cleanse impurities of the blood. By irregularity in its The Tax Shirkers Will Finally be action or suspensions of its functions the bile is liable to overflow into the blood, causing jaundice, sallow complexion, yellow eyes, bilious diarrhea, a languid, weary feeling and many affection of the liver, and can be ment in regard to the matter of compellthoroughly cured by the grand reg- ing the Facific railroads to pay fees for ulator of the liver and biliary organs surveying and conveying their lands: BURDOCK BLOOD BITTERS. blood, and opens the culverts and sity for the passage of a law compelling

pletely mounted." ONE OF NATURE'S FREAKS. A Philadelphian Whose Heart Is on His Right Side. Philadelphia Record. The phenomenal peculiarity of a misplaced heart has been brought to public light as existing in the body of a man who has been a resident of the St. Cloud hotel for the past six years. He is a major in the United States army and a relative of the late Judge Packer. He dreads the notoriety which his malformaa bottle of beer. The big beast (the bear, tion would entail upon him were his name given publicity. The discovery that the major's heart was located on the right side of his body, instead of the left, bottle over to bruin, who seizes it, unwas made by Dr. Hampton in 1881, while corks it with his teeth and takes a corks it with his teeth and takes a the former was undergoing a diagnosis for tremendous pull. After a rest he takes lung trouble. Dr. Hampton discovered another. This time he has emptied it, that the heart was located four inches out of place, on the right-hand side. The beating could be felt three inches directly

half comical. "Treating the bear" is a below the pit of the right arm. It was daily amusement with the visitors here. found that the inside organs were correspondingly displaced. As the major to make away with twenty-five bottles at a sitting, or rather a squatting, without had never suffered from severe pneu monia or pleurisy it was concluded that hanging out any signal of distress or bethe malformation was congenital. The having himself otherwise than as a perheart beat abnormally fast, and an undue appetite was developed in the patient. the next day or not no one knows.

"Time" is called for the wrestling bout slight lung trouble Dr. Hampton advised and a negro in a ragged suit of clothes him to go to Europe. He was told that the misplacement of the heart was not inconsistent with perfect health, and that steps forward and prepares for battle. This, it seems, is Dan. The bear at first seems disinclined to move, but is prodded he would probably live as long as if the into activity by the blows and insults organ were in its proper place. heaped upon him. He shows considera-

ble skill, and does not lose his temper. Dr. M. H. Hinsdale, Kenawee, Ill., advises us of a remarkable cure of consumption. He says: "A neighbour's wife was attacked with Occasionally he handles Dan pretty roughly. In the first round Dan pulled a hat of some tough material down over says: violent lung disease, and pronounced beyond hell from Quick Consupration. As a last re his eyes, and made a dash at bruin. The latter dodged, and, clutching Dan, who sort the family was persuaded to try DR.WM HALL'S BALSAM FOR THE LUNGS had slipped and fallen backwards into the bear's hug, laid hold of his arm with his teach, pinching it severely, as was had used one half dozen bottles she was about the house doing her own work. I saw her at evident from the expression of Dan's her worst and had no idea she could recover

face. The negro finally freed his other arm and struck bruin a terrific blow on the snout, at the same time shouting: This is one of the best remedies for Neural-"What's de matter wid yo', b'ar?" The bear loosened his hold and Dan hauled gia ever invented. It is not a liniment, but is a medicine to be taken internally, and cures by going right to the root of the disease. A off for repairs. nority report, accompanied by a bill which provides that it shall be the duty of the secretary of the interior to issue patents and cause them to be recorded in the general land office of all the lands granted the Pacific railroads under the acts of 1862 and 1864 That when the patents are issued and recorded, he is to notify the roads that he is ready to deliver them on payment of the fees due from said roads to the government. In case of default on the part of the roads to pay the sums certi-fied by the secretary to be due, then it is made the duty of the attorney general to cause suits to be brought for the amount of money due. That the lien which the

government has on the lands shall not be discharged by reason of such patents and transfer of titles to the roads. The difference between the two ills, is this: The first sues to recover the amount due before issuance of pat-

ents subject to the law's delay. other issues patents whereby the lands become immediately taxable and cause suit to therefter be brought for the recovery of what amount is due by the railroads to the government. I believe that the report of the minority will be adopted. It is certainly right. Because the government can far better afford to wait for any sum due it from the railroads than the people can afford to bear alone the burden of taxation that has been imposed on them by reason of failure of the land grant road to take out patents as they should have done long ago. I think there ought to be an additional provision, and believe there will be, that in sections of the county where a large portion of railroad grants are situated, from the west line of Kansas through hundreds of miles, the lands should be divided up in large bodies, ten to twenty miles, alternating, one to the road, one to the government, and by this means the question of immigration and

outting these lands into pasturage might o far more easily solved than it would be with the subdivisions so small as they N Sole A ent, Omaha Neb. GOLD MEDAL, PABIS, 1873, BAKER'S Now arc. As I said, the landa would immediately become taxable on the issuance and recording of the patents by the secretary of the in-

terior, and I need only call your atten-tion to a decision of the supreme court in the case of the railroad vs. McShane, 22 Wallace 144, where it is expressly provided by the court ble exception.

that the issuance by the secretary and recording your protest to lands granted to the Pacific road, immediately divests the United States of all patent and of course

The thers are unspotted less. Contemplating this contingency Besides our usual winter bay birds, the they think it prudent to take out a perothers are unspotted. lack edged gull, also called coffin carrier tion, at least, of their stakes; and they Larus marimus, has been more numerous have therefore determined to water their than usual, and a very rare bird. A king pipe line stock, which now pays 50 to 100 eider duck, Lomateria spectabillis, was per cent, so that it will still pay 10 per killed at Nayatt Point about the first of cent, for a while, and be sufficiently January, by Mr. Frank Tobey. This is attractive to secure buyers. In other
