THE RIVER MYSTERY.

The Body Found in the River No. Bellevue Partly Accounted For

Supposed to be the Body of a Young Bohemian who Disappeared Last January.

Since the finding of the body

the Missouri river, near Bellevue last Friday, there has been a great deal of talk as to who the murdered man was and when he came to his untimely end. All has ended in talk, no though not a bad man was generally put down meantime several others that should be more was known than at first, but now a as a dangerous coward. BEE reporter, after making careful inquiries, is of the opinion that what seems to be a dark and unfathomable mystery can be accounted for and the body can be identified if seen by friends in this city. ber that an account was given in the columns of this paper of the strange disappearance of a young man of this city by the name of Matthias Free, on the night of January 17th last. He was a Bohemian and on the date mentioned he left this city, after a bal', to accompany several women across the river to Council Bluffs, Since that time nothing has been heard of him and no trace as to his

as Alspossekan, Germany. The young The Rep man who disappeared from this city had come from St. Postrekov. A prominent Bohemian in this city says that in their language the St. means old, hence translated in German it might easily have been written Alspossekan. Physicians say the body, even had it been thrown into the water last January, might have been store the Calor Tache and I am and I colorado for cattle in bunches of 500 and 1000. A great deal of capital is seeking investment in small sums, but in this particular matter it seems difficult to purchase cattle in such small into the water last January, might have numbers. been preserved, providing that it was fastened to something near the bottom of the river and close to a spring, protected from the air and that it might have become detached only a very short time prior to the finding of it. orandum book tallies very closely with that of a prominent Bohemian who lives at the number designated in St. Joseph. The thing which is most puzziing is the programme of the Theatre Comique "of recent date." The question now arises "how recent was the date of that programme?" Nothing has been said further than it was of recent date. Some might conider any date in the year 1884 of recent date while others might infer that it man. was within the last few weeks. At any rate the matter is worthy of more careful investigation and in case the body was exhumed it might be that some of the friends of the young man who so mysteriously disappeared from this city might be able to identify it as being the same. Then to ascertain who the women were that young Free accompanied over the river would be an easy matter, and in this way his disappearance might be acecunted for.
