Considerable Indignation Because of the Apparent Carelessness in the Matter.

It was supposed that the case of smallpox would be removed from St. Joseph's hospital to the pest house Monday, but it was not done. Mr. Dorsey B. Houck, who had charge of the pest house during the last smallpox seige, Thursday made a proposition to the mayor and marshal in regard to the case now at St. Joseph's hospital.

His proposition was about as follows: He agreed to go out to the pest house and care for the patient for the sum of port street. \$150 per month. He has an express wagon and single harness, but no horse held last night, and the following officers which he can use in the removal of the elected: Harry Jackson, leader; Harry patient. his services as nurse.

This proposition the mayor could not accept until he had a talk with the city ouncil and so the case remains and the mallpox patient is still at St. Joseph's hospital. This is valuable time, and the patient should be removed without de- had broken his neck, near the corner of Four-

The sick man was at once removed to a ward by himself and the bed-clothing burned, the furniture and wood-work thoroughly washed with carbolic acid and water and large quantities of sulphur burned about the place. The bedding at the Planter's house was also burned and the place thoroughly disinfected. The other patients and the attendants at the hospital have been vaccinated and every precaution taken to stop the spread of the disease.

At first it was thought that it was only a case of varioloid but it is now known that it is a malignant case of small pox. It demands immediate attention

A petition, signed by a number of citof public works, was read. This paper sprang upon the assembly a long and heated debate over the propriety of giving the patition a favorable consideration.

A communication from Marshal Cummings was read, stating that he had suspended Officers Buckley and Ruane for conduct unbecoming members of the po-lice force. A debate of lengthy proportions followed. Mr. Ford wanted the policemen to be treated leniently. Behm, on the other hand, thought the strictest discipline in the way of "firing" should be enforced. Thrane then took the floor and opened with a glowing eulogy of the two men whose dereliction was under

made a speech favoring a trial of the two policemen by the police committee, de-tailing in brief the fight on New Year's morning which brought the two men within the range of censure.

In this connection the ordinances bearing upon the subject were brought up and thoroughly discussed. The troubl was finally settled by referring the matter to the committee on police The bonds of William White, Thomas

Mr. Rosewater was followed by Messre.

Hascall and Behm, who entered into a somewhat lengthy discussion of the sewerage system of the city, its defects and characteristics. A great deal was said, slao, about the exorbitant taxes which had been imposed to keep up the system. It seemed to be pretty generally agreed among the debaters that the taxes had been unequally levied.

Mr. Rosewater again took the floor and made a brief and p thy explanation of the perplexing riddles which have t-ngled the skillful logical powers of the official disputants on the sewerage question. He also referred to the violations of the appertaining ordinances, and sug gested the fact, that to bring the system up to a necessary high standard, same o dicances must be rigidly enforced have its sewer system as near'y perfect as possible, it must see that the certain njurious practices among property lucid explanation of the War ng system now principally used in this city, wa given.
