### FINANCE AND COMMERCE.

#### FINANCIAL

**New York.** May 11.—**Money—Easy at 1 per cent.** Prime mercantile paper 4@5 per cent.

Foreign Exchange—Sterling bills firmer at \$4.86@4.88.

Governments—Steady and unchanged.

Stocks—Fairly active and a rule strong in the morning and weak in the afternoon, but more than usually regular all day, certain stocks showing a little disposition to follow the decline of the active list. The morning advance was the result of a better feeling regarding railroads in the west and the northwest and a disposition on the part of the bears who failed to cover last week to close their accounts. After midday the market became dull and heavy, and in many cases prices yielded 1@1c before 2 o'clock, but in the last hour there was increased trading again, following reports that the western railroads were again in trouble, the weakness continuing until shortly before the close. The final sales were accompanied by a slight rally in some cases, but the quotations this evening are generally 1@2c lower than they closed Saturday.
