CONGRESSIONAL PROCEEDINGS

The Senate Works Away at the Land Grant Forfeiture Bill.

PALMER'S AMENDMENT IS LOST.

The House Struggles All Day and Far Into the Night With a Discussion of the Mills Tariff Bill.

Senate.

WASHINGTON, May 8 .- The senate resumed consideration of the railroad land grant forfeiture bill, the question being on the amendment offered yesterday by Mr. Palmer to the one offered by Mr. Spooner, April 30.

Mr. Dolph moved to tay on the table Mr. Palmer's amendment to the Spooner amendment, being that nothing in the act should be construed to confirm any private entry for land heretofore settled upon and now claimed under the color of the homestead or pre-emption laws; but m all such cases the commissioner of the general land office and the secretary of the interior shall hear and determine the claims of parties respectively according to the provisions effecting the law.

The amendment was laid on the tableyeas, 23; nays 18.

Mr. Palmer offered an amendment that nothing in the vill should be constructed as excepting from forfeiture that portion of the grant confirmed by the state of Michigan on the Marquette & Ontonagon railroad company lying west of Lansing.

Mr. Edmunds moved to recommit the bill

to the committee on public lands, with in-structions to report it back amended as soon as might be. He wished the committee to reframe it so as to keep it within definite decisions of the supreme court to protect every real right of every citizen, and to wind up every unexecuted railroad grant and make an end of it.

The motion to recommit was opposed by Messrs. Blair and Dolph and was defeated, only nine senators voting for it. The question was then taken on Mr. Paler's amendment and it was agreed to-yeas

24. navs 16. Mr. Hoar offered an amendment affecting lands in Michigan, and was asked by Mr. Berry whether the effect of it would not be to confirm the lands held by the Portage

Ship Canal company.

Mr. Hoar replied that it would have that affect if it should turn out that the land was conveyed to that canal company by an of-ficer of the United States. He was at loss to conceive how any man born with the capacity for sense of justice could refuse to confirm the title under such circumstances. To this Mr. Berry retorted he was at a loss to conceive how any one born with a sense of justice and right would undertake to con-firm a title founded in fraud as this title was shown to be by the report of the house com-mittee on public lands in the Forty-eignt

Mr. Paimer argued against Mr. Hoar's amendment.

Mr. Stockbridge asserted on his own personal knowledge and in contradiction of the statements by his colleagues that the canal in question was completed and had been in successful operation for the last fifteen years. The bill went over without action on Mr. Hoar's amendment and with the understand-ing that it will be taken up to-morrow at the

conclusion of the morning business.

Among the bills for public buildings reported and placed on the calendar was one for Peoria, Ill., \$12,000 additional.

A message from the president on the subject of impressment into the French army of John Prussia, an American citizen, was laid before the senate and referred to the committee on foreign relations, Mr. Stewart (who offered the resolution calling for the corespondence) remarking that the man had been discharged from the French army since the resolution was offered.

Mr. Paddock introduced a bill to amend

the act to encourage the growth of timber on the western prairie. Referred. The senate then adjourned.

House. WASHINGTON, May 8 .- Mr. Bryce of Newrly rose to a question of privilege concern ing the language used by Mr. Woodburn of Nevada in reference to ex-Congressman Hewitt, who, it was charged, apologized to the British minister for offering a resolution of inquiry as to the case of O'Donnell, under sentence of death in Great Britain. Mr. Bryce stated he was a relative by marriage to Mr. Hewitt, and he denied the correctness of the statement made. In vindication of the denial he read a telegram from Mayor Hewitt, and also a statement made by Min ister West in 1884, denying that Mr. Hewitt

had apotogized to him. Mr. Woodburn of Nevada said he had never in his life made a charge he could not substantiate. He did not regard the denial of the British minister as a denial of the charge. Hewitt himself was a party defendant to the charge, and his denial, therefore, lost weight.

Mr. Brumm of Pennsylvania said his recollection was, Hewitt had made an explanation on the floor, but whether it was made on the floor or not, an explanation (the mildest term he could use) was made by Hewitt before the committee on foreign

The subject was then dropped and the ouse went into committee of the whole on the tariff bill. Mr. Stockdale of Mississippi took the floor in continuation of hie speech in favor of the bill. He said the cotton planter had re ceived little consideration in the legislation of the past, and in the name of justice and humanity he appealed for relief for the col-

ored people.

Mr. Hepkins of Illinois opposed the bill He said the fact could not be kept from the people in the coming campaign, that the demcratic party stood committed unequivocally and irrevocably to the doctrine of free trade. That party had come in power and they were practicing a system of false pretenses upon the American people, unparalleled in the history of political parties. Did the party send Mr. Carlisle to New York before the the election to explain the tariff plank of the Chicago platform t Did it send Mr. Hemp Chicago platform? Did it send Mr. Hemphill there to talk to the laborer as he talked during debate on the floor?

The managers of the democratic party knew New York could never be carried in that way. When the columns were shaken

and defeat seemed inevitable they turned to the brainiest and ablest man in the party. They called for Samuel J. Randall and he went to New York to explain to the voters there that the manufacturing interests of the country would not be disturbed in event of the success of the democratic party, and that the tariff plank in the Chicago platform meant only a wise and judicious re-arrange ment of the inequalities which all parties held to exist in the tariff to a greater or less extent and to require treatment. It had been Randall's boast that his efforts had made it possible for Cleveland to occupy the presidential chair. How had the democratic party repaid his efforts, and how had his pledges been redeemed by that party. If rumor was correct Mr. Randall was no longer a visitor at the white house; his counsel was no long-er sought or heeded by his party; his influence had been curtailed by raising up a riva whose control of federal patronage had been used to humiliate and disgrace the once hon-ored leader of the democratic party. In con-

clusion he entered a solemn protest against this attempt to overthrow the great business industries of America.

Mr. Mansur of Missouri delivered an All Missair of Missouri delivered an he contended that the internal revenue system should be maintained for the payment of pensions and the remainder of the war debt. Mr. J. D. Taylor of Ohio denounced free trade as a fragment of ithe rebellion and as being as dangerous to the country in 1888 as secession had been in 1861. Free trade had no more right to supplant protection than the the confederate constitution had to supplant the constitution of the United The democratic party was engaged effort to unfurl the British flag and American markets to the British

manufacturer.

Mr. Richardson of Tennessee supported the bill and referred to the antagonism of the republicans to every effort which the democratic party had made to fulfill their pleuges of tariff reductions.

Mr. McAdoo of New Jersey said he spoke as a democrat. He contended the best way in which the surplus could be reduced was by the abolition of the internal revenue system. Revenue ought to be limited in amount to the needs of the government econi-mically administrated. THE FLOODGATES OF HEAVEN

Opened Up With a Vengeance on mically administered. 6
Mr. Morrow of California argued that no better course could be cursued with reference to the surplus than to apply it to the purchase of United States bonds. He was in favor of an economical administration of the affairs of the "Dry" State of Iowa.

SIOUX CITY, Ia., May 8.-Reginald Ford was driving to-day when his vehicle was stopped suddenly by a wheel catching in a street railway track and Ford was thrown fully twenty feet, alighting on his head. Allen Vinton was the first person to reach Ford, and found him apparently dead with his neck dislocated. He took hold of Ford's head and gave it a sudden turn and the vertebrae slipped back into place. Ford soon regained consciousness and if he escapes from the effect of brain concussion boast of being one of the few living per sons who have had their neck dislocated.

PHILADELPHIA, PA. CURE OF CANCER and ULCERS.

Judge T. C. McLendon writes to the Swift Specific Co., Atlanta, Ga., under date of Feb ruary 14, 1858 : " About three years ago, Jerry Bradley, a colored man, had a cancerous sore on his face, near the right eye. It caused him a great deal of pain, and he lost the sight of the eye, but was finally cured of the cancer by the use of Swift's Specific. This case is well known in Wilkes Co., Ga, where he lived (near Danbury), and of this case, I, myself, had personal knowledge."

Mr. L. Cox, of Arkabutla, Tate Co., Miss.

writes, February 24, 1888; "I suffered a great deal from old ulcers for six years. Your med-

icine was recommended to me, and after

using six bottles, I was completely cured. I never saw its equal as a Blood Furifier. My neighbors will use no other. Your medicine does even more than you claim for it. I have known it to cure cases which were thought to be hopeless. It is the best medicine made."

Mrs. A. M. Goldsmith, No. 674 Warren St., Brooklyn, N. Y., writes, February 22, 1858: "I commenced using S. S. S. about three years ago. I had suffered with a sore throat for over a year, when I commenced using your remedy. I used a great many other remedies with no good results. My little girl, also, had sore flagers; it commenced from the quick, and then the nails would come off. We doctored her for over two years, and when I commenced using S. S. S. I thought I would see what it would do for her. I tam thankful to say that it entirely cured her. It is the heat remedy I know of for the blood. I really believe it was the means of saving my life. The doctor told me I had a throat disease similar to General Grant's. I cheerfully recommend it to all suffering from disordered blood. I use it now as a tonic whenever I think I need it." Brooklyn, N. Y., writes, February 22, 1858 : "I

ordered blood. I use it now as a tonic whenever I think I need it."

Mr. B. F. George, Milford P. O., Ellis Co.,
Texas, writes: "I had a cancerous wart or
mole on my eyelid, as large as the end of my
thumb, which had the appearance of cancer,
causing me much pain and inflammation,
from which I suffered a long time. Seeing
the B. S. S. advertised I commenced using it,
and after the use of a few bottles the sore
dropped out, my cancer was gone, and I was
entirely relieved." entirely relieved."

Mr. G. W. Pettis, of Aikin, S. C., writes: "I

was a sufferer from cancer of the breast, and had been under the treatment of three physicians, but it did me no good. It was so had that I had to stop work. After taking a course of S. S. S. I was entirely cured." Treatise on Blood and Skla Diseases malled THE SWIFT SPECIFIC CO Drawer 3, Jtlants, Ga.
