Henry Carter of Hancock, who broke Charles Hesse's nose with a piece of scantling and otherwise pounded him, will have his case investigated by the grand jury. The assault was the outgrowth of a domestic diffi-culty. It is alleged that Hesse went home and found all the doors and windows locked. He broke open the door and found Carter in the house with his wife. He ordered Carter to leave, when the latter assaulted him. The affair created quite a sensation in the cast end of the county.

It Was Considerably Overdrawn. A thorough investigation of the causes leading to the demolishing of Dr. Bates' buggy on Fifth avenue Sunday evening during a runaway throws an altogether different light on the matter and relieves Motorman No. 15 from all blame. It seems that the horse was almost beyond control when he turned west on Fifth avenue from Tenthstreet, and at that time the motor was stand-

ing still, letting off passengers, and the only ringing of the bell was the signal to start. motor was not started until after the uggy capsized, and was then run slowly to he scene of the accident, but it did not col-ide with the buggy.

Dr. Bates was not present at the time, and his knowledge of the affair was gained from spectators who were greatly excited at the time, and the vivid coloring they gave the story was probably unintentional. In this way the accident found its way into the papers, and the account was therefore over-drawn. The heap of dirt that capsized the buggy was the cause of the wreck, and the probabilities are that it would have occurred even if the motor had not been there. Dr Bates says that now that he understands the Dr.

situation he will not institute a damage suit against the motor company, but against the city or the party who caused the dirt to be placed there.

That Diseased Meat Case.

The statement that Meat Inspector Hichstein of Omaha recently discovered that lump-jawed cattle were being brought to this city and killed for market appeared in these columns a few days ago, and since then the local butchers have been up in arms, as certain parties have 'insinuated that they were selling the diseased meat. Last Saturday a couple of boys found the place where the cattle were killed and discovered three men at work slaughtering more of the stock. It was learned that five head of lump-jawed cattle were driven to this side of the river a week ago last Sunday night. Two were killed Thursday and two more Saturday. The fifth, a bull, was found tied among the willows between the two bridges Saturday fore noon. The place of slaughter is just north of the new bridge. Captain Martin visited the place yesterday and found three men, who had just led the bull to the spot and were preparing to kill it. At the approach of the officer they fiel, but he captured one of them, who gave his name as Hans Jensen, and stated that his companions were named Cann and Overgard. He said they were all from Omaha.

To the reporter, who saw him at the city jail, he stated that the others had offered him 65 cents per head for helping them kill the cattle, and said the meat was sold in Omaha. He did not know the names of the Omaha butchers, but said : "One of them is a one-armed man and keeps a shop on Thirteenth street between Jones and Jackson, and the other, I think, is on Capitol avenue near Twelfth street. They never sold any dis-cased meat on this side of the river that I heav of " Jensen will be held until the case is thor-

Non-Effective Prohibition.

Now that the local Francis Murphy campaign is over and the Temperance Reform league has disbanded for the summer, Attorney Boulton has found time to begin his saloon warfare anew, and has started out by filing a fresh lot of petitions against the sellers and the buildings and property occupled by them. This time he has introduced a new wrinkle, and has made the property and property owners co-defendants. He has apparently dissolved partnership with his former prosecuting witnesses, David Gray and John Landstrom, and has associated himself with H. P. Kearns, who will en-deavor to furnish the necessary evidence. Another new feature of these cases is the act that they are presented in the name of the state of Iowa, as by so doing Mr. Boulton

avoids the cost of filing fees, which is by no means an inconsiderable sum, when the num-ber of cases is taken into consideration. The petitions filed yesterday were against

tiation. As far as the order is concerned, the members of the local loyal lodge will pay no at-tention whatever to the visitors, but as strangers in the city will do what they can o make their stay here pleasant."
