

pired, a meeting of the company was held at their armory last night. They reorganized by electing the old non-commissioned officers.

Terrible Rain and Wind Storms. Omaha, Neb., June 16.—[Special Telegram to THE BEE.]—A very severe wind storm prevailed here early this morning.

Died from Hydrophobia. Beatrice, Neb., June 16.—[Special Telegram to THE BEE.]—Richard Glass died at his residence eight miles north of this city, last night of hydrophobia.

Struck by Lightning. West Point, Neb., June 16.—[Special Telegram to THE BEE.]—During the heavy storm that swept over the western portion of this country this morning lightning struck the barn belonging to Henry Boenicke, a farmer living six miles southwest of this place.

Providence Permitting. Beatrice, Neb., June 16.—[Special Telegram to THE BEE.]—The Beatrice chautauque managers received a letter from Rev. T. DeWitt Talbot, pastor of the First Methodist church here July 6, Providence permitting.

Councillor Sold. Beatrice, Neb., June 16.—[Special Telegram to THE BEE.]—G. Ladd confirms the report of the sale of Councillor, the famous stallion, for \$22,000 to St. Louis parties.

WAR ON THE HILLTOP. An Attorney Arouses the Wrath of Court Clerk Moore. District Court Clerk Frank E. Moore is a victim of the gout and usually carries a cane to support his tottering footsteps.

At this moment Mr. Healey, an attorney of the city, came into the office. Mr. Moore asked him when he was going to bring back the files in a certain case.

Mr. Healey replied that he had permission from the court to take the files away. The clerk retorted that the permission had expired long ago, and he wanted the files and proposed to have them if he had to send a bailiff after them.

This made Mr. Healey rather warm under the collar and he protested against being "called down" before a crowd.

A terrific argument ensued until Clerk Moore lost his temper and said that Healey was "a little nut" and "had been sat down upon two or three times by the court."

"You're a liar," exclaimed Mr. Healey, sliding towards the door. The way the venerable clerk climbed around his desk and out of the gate towards Healey was a caution. He literally flew. So did Healey.

Mr. Moore caught him at the door leading into the hall and as Healey flew past he thought he had been struck by a cyclone. He commenced calling, "Come into court, come into court," but Healey was not to be deterred before he got the words out of his mouth.

Clerk Moore returned to his office and smoothed down his wrinkled front, announcing that he was not hurt, but that he was anxious to court death by accepting his challenge.

Another Wife Beater. P. L. Reeves, living in Clinton Hill, last night established the fact that he is a bad man. Upon returning to his home he became angry because his wife had not prepared a supper to suit his fancy, and after breaking up the dishes and eating the remains, he threatened to kill the woman by choking her to death, or at least this is the story she tells.

Reeves was arrested on this charge and will be tried this morning.

Given Up by His Father. "Chuck" McNamara, under bonds to answer to a charge of robbing Albert Ritchie while they were on a drive, was Sunday turned over to the county authorities by his father, who was on his bond.

The elder McNamara was evidently afraid that his son intended leaving him in the lurch, as he had him arrested on a charge of abusing his mother, and withdrew the charge and had him turned over to the county authorities on the charge of robbing Ritchie.

Locked Up on Suspicion. Albert French wishes he had been poor instead of rich. Yesterday afternoon he arrived in the city, claiming to hail from New York. He had several thousand dollars of European bonds, which he tried to dispose of about the city. The detectives got onto the case, and French was immediately locked up, charged with being a suspicious character.

Railroad Wreck. An Union Pacific engine No. 1143 was making a flying switch at the foot of N street at 11 o'clock yesterday forenoon the engine jumped the track, tearing up half a dozen rails, being some of them aimed to a dense circle. Three box cars were derailed.

PERSONAL PARAGRAPHS. M. H. Brown of Cozad is at the Casey. Carl G. Lantz of Lincoln is at the Paxton. T. C. Hollinger of Fremont is at the Murray.

N. D. Jackson of Neligh is stopping at the Casey. John H. Ames of Lincoln is stopping at the Murray. W. H. Summer of Schuyler is a guest at the Willard.

John A. Erhardt of Stanton is stopping at the Willard. Judge J. Wesley Tucker, the receiver of the land office at Valentine, is stopping at the Willard.

C. E. Tobetta of Fremont was at the Millard yesterday. S. G. Chaney of Alamosa is a guest at the Casey. J. R. Langford of Tekamah is registered at the Casey.

W. A. Dilworth of Hastings is a guest at the Casey. W. H. Truesdale of North Platte is at the Murray. Milton D. Polk of Plattsmouth is registered at the Murray.

R. B. Schneider of Fremont was at the City yesterday. G. W. Wilmer of Elm Creek is stopping at the Paxton. Walter J. Lamb and wife of Lincoln are registered at the Paxton. C. D. Taylor of Hastings is registered at the Paxton.

SENATOR ALLISON ON SILVER.

The Distinguished Iowan Addresses the Senate on the Subject.

HE FAVORS ITS COMPLETE RESTORATION.

But Could not Vote for Free Coinage at the Present Time—Vest Defends the Democratic Party's Policy.

WASHINGTON, D. C., June 16.—In the senate a message from the house asking for a further conference on the anti-trust bill was assented to after remarks by Messrs. Edmunds and Vest.

The deficiency appropriation bill for pensions and the census was reported and passed.

Mr. Hawes introduced a bill to retire General Banks as major of the United States army. Referred to the committee on military affairs.

The house silver bill was taken up and Mr. Daniel resumed the speech begun by him Friday. In concluding his speech Mr. Daniel said that the world moved, and that this was a land of progress had never been better demonstrated than by the fact that the great leader of the republican financial policy in the United States (alluding to Senator Sherman), who had carried the single gold standard over two continents, had come forward in his speech and proclaimed that he was, at last, an advocate of silver money.

Mr. Allison next addressed the senate. He said he should vote for the house bill as amended by the senate finance committee, as he considered it the wisest and best solution of the question. The question to be considered was what currency could be safely substituted for national bank circulation. The judgment of the finance committee was (and he thought it would be the judgment of the senate) that if the government issued paper money it should issue it on something that was in and of itself convertible into legal tender money.

Therefore the bill proceeded on the idea that whatever paper money should be issued on silver bullion purchased by the government at the market price. Why had silver bullion been selected as a basis for that new paper money? It was the belief of the senate finance committee, as he considered it the wisest and best solution of the question. The question to be considered was what currency could be safely substituted for national bank circulation. The judgment of the finance committee was (and he thought it would be the judgment of the senate) that if the government issued paper money it should issue it on something that was in and of itself convertible into legal tender money.

BOARD OF EDUCATION.

A Long Discussion on the Question of the Election of Teachers.

The board of education met in a session last night, the only absentees being Messrs. Felton and McDonnell. The secretary reported that applications for the position of superintendent of the schools had been received from J. C. Barnes, Marietta, O.; Frank J. Barnes, Middleton, O.; W. A. Clark, Lebanon, O.; F. M. Smith, Stamford, N. Y.; J. W. Babcock, Dunkirk, N. Y.; W. MacGowan, Olean, N. Y.; E. C. McGraw, Millport, N. Y.; G. J. McAndrew, New Haven, Conn. The communication was referred to the committee on teachers.

By resolution by Dr. Saville authorized the special committee on exhibits to prepare an exhibit for the St. Paul National Educational association convention to be held at St. Paul, Minn., on the 22d and 23d inst. The challenge of the council to play a game of ball for the benefit of the Creche was accepted.

The report of the council committee on public property and buildings, recommending the sale to the board of a strip of land on the north side of the Hickory school at an appropriate time, was referred to the committee on buildings and property.

The judiciary committee reported back the petition of G. L. Spriggs asking that the board sign a petition to the city engineer to lay out a street in the rear of the High school with asphalt, with the recommendation that it be refused.

Mr. Poppleton stated that the committee was of the opinion that the board did not take the high school ground and they should take the ground at once and make the necessary improvements about the grounds. The report was adopted.

The points arising from the teacher question by moving that when the board adjourned it be until the last Saturday in the month, when the selection of teachers should be made the subject of a special meeting.

Mr. Wehrer questioned the right of the old board to saddle a lot of teachers on the new board. He thought the new board should have the right to select their own teachers.

Dr. Saville wanted a chance to vote for the last time for some of his favorites. Mr. Poppleton thought it was wrong to leave the teachers in the lurch. He said last year a number of incompetent teachers had been elected, and the plea was made that they had waited around and lost their chance of getting other places. He said that if such a plea could be made this time.

Mr. Wehrer made a spread eagle speech to the effect that the board could get all the teachers it wanted at any time, and he was opposed to electing them in the old board. He thought the board should have the right to elect teachers by the old board would not stand if anyone wanted to test it.

Mr. Points argued in favor of having the new board elect its own teachers. Mr. Poppleton thought the board had the power to elect teachers at any time. He thought the board should have the right to elect teachers by the old board would not stand if anyone wanted to test it.

Mr. Wehrer said that if the old board attempted to elect teachers, he would go to the court and enjoin the board. Mr. Points changed his motion to provide that board adjourn until the last Saturday in the month to receive the report of the committee on teachers.

Mr. H. T. Clarke got in his usual kick and insisted on an adjournment without any question of business. The motion was changed and carried.

The committee on supplies submitted estimates for expenditures for the coming year amounting to \$77,233. The items included, furniture, fixtures, books, stationery, supplies and printing. Referred to the finance committee.

The committee on claims submitted claims amounting to \$5,858, \$1,400 of which was for election purposes. The committee on the question of whether the board should pay the election expenses of the last election. The mayor had appointed the judges and clerks and the city should pay the bills.

The attorney of the board was of the opinion that the board should pay the bill. The report of the committee was carried and the bill ordered.

The committee on finance presented its report of expenditures for the coming year, amounting to \$77,233. This included the probable cost of paying twenty streets on the high school and stone walks around the grounds.

Mr. Poppleton objected on the same ground that he had objected to the petition of Spriggs for asphalt. The report was referred back to the committee for further action.

The finance committee returned the report at once with the two items stricken out, making the amount \$75,833. Mr. Poppleton moved to recommit with instructions to recommend to the council that the full levy of 30 mills be made, as, if prohibition, carried the bond issue, it would go into debt about \$200,000, and he thought the board had better get the full amount of the levy in order to be provided.

The report was recommended with such instruction. On motion of Mr. Ross the judiciary committee was instructed to demand of Mr. Luther Drake the building records of the high school bank the deed to a portion of the Paul school site, which he holds in escrow. Mr. Harbach having failed to carry out a contract, to transfer to the board a strip of ground on the side of the school site for a strip on another side.

Dr. Saville presented a large list of resolutions. One provided that the Pleasant school be placed in proper repair to accommodate the incoming ninth grade pupils of that portion of the city. The other resolutions were of a similar nature.

The doctor supported his resolution by saying that the pupils never settled down to work in the fall until the weather was very warm. The doctor was usually too warm and the same reason held in the spring.

Mr. Points said that there was a very important one and should be well considered. Dr. Spaulding said it was not his idea to have the board do any more than recommend the matter to the attorney. The matter was referred to the committee on rules, forms and printing, and the board adjourned until the last Saturday in the month.

HER REIGN IS OVER. Mary Anderson Will Today Become the Bride of Antonio Navarro. [Copyright 1890 by James Gordon Bennett.]

LONDON, June 16.—[New York Herald Cablegram—Special to THE BEE.]—The marriage of Mary Anderson to Antonio Navarro, which will take place tomorrow, is creating much attention. It is to be very quiet and unostentatious.

Address Was Exonerated. GRAND ISLAND, Neb., June 16.—[Special Telegram to THE BEE.]—At the preliminary hearing of the parties charged with a murderous assault upon the person of William Parke, Jack Fox and Albert Grimm were bound over to the district court. Charles Andrews, the proprietor of the show company, was discharged and fully exonerated from any connection with the matter. The evidence at the hearing showed that the assault was the result of a jealousy and that the parties were acting upon their own responsibility, and not upon any instructions from the company.

Mr. Andrews did everything in his power to assist the authorities in the prosecution. The party who claimed that he was thrown from the train at St. Paul proved to be a tramp and skipped the town as soon as the show company arrived. He was the party that spread the report that the show company of the company to throw men from the train when they demanded their pay, or drive them from their employment by means of intimidation, which has proven to be false after a rigid investigation.

Mr. Andrews and assistants leave tomorrow morning to take the show at Minden, Neb.

THEY CAN'T WELL IN UNITY

Railroads Continually Making Charges and Counter Charges.

IOWA SHIPPERS BECOMING NERVOUS.

They Grow Very Tired of Continued Discrimination and Threaten to Cause Trouble—Railroad News and Notes.

CHICAGO, June 16.—[Special Telegram to THE BEE.]—The rate of \$18 made between St. Louis and Denver by the Missouri Pacific caused a big commotion in today's meeting of the Western Passenger association. The Alchison, Alton and Burlington all apply for permission to meet the St. Louis rate making a \$21 rate from Chicago to St. Louis, and it manifested their very further trouble before the standard rate of \$18.65 from Chicago to Denver is restored.

It was charged that the Alchison was furnishing sleeping car accommodations free in order to meet the reduction, but the report was denied by that line.

The Missouri Pacific was not represented in today's meeting and it came sent in for a large share of criticism which might otherwise have been somewhat curbed. Nothing was given that a meeting of the Trans-Missouri passenger association would be held Thursday in Kansas City, at which time the organization will be wound up and merged into the Western Passenger association.

Some of the Missouri river lines have been cutting grain rates the last few days in a way to annoy the old times. A grain buyer named Povey is buying grain in Kansas and Nebraska on the line of the United Pacific and shipping by various lines to Chicago. He says that the Chicago market has made him lose 5 to 7 cents a hundred on a Chicago market. Conveniently some of the railway lines have raised the rate to the maximum and the rate is fixed at 25 cents the cent is a serious one.

The Burlington today gave notice that on June 17th it would raise its rates from Kansas City to Chicago to 18 cents, the present rate being 12 1/2 cents. This is done in order to protect its local rates. Complaints are being made that the rate is practiced in charging 20 cents on cattle from Iowa and only 12 1/2 cents from Kansas City. The lines interested claim the Kansas City rate is a temporary measure and that the rate is becoming restrictive under the discrimination and promise to make trouble.

Chairman Goodard Will Decide. CHICAGO, June 16.—The action of the Missouri Pacific and Santa Fe roads in making a round trip rate of \$18 between St. Louis and Denver for the annual meeting of the Travelers Protective association created a breeze at the Western Passenger association meeting today.

The rate has already been met by St. Louis lines and Chairman Goodard will decide to-day whether it shall be met between Chicago and Denver.

An Important Promotion. KANSAS CITY, Mo., June 16.—[Special Telegram to THE BEE.]—W. F. Merrill, general manager of the Kansas City, St. Joe & Council Bluffs railway, was today appointed general manager of the Burlington system, filling a place recently vacated by Mr. D. P. Ripley.

Another East-Bound Freight Row. CHICAGO, June 16.—Another row is on in east-bound freights, caused by the Lehigh Valley announcing a cut to 17 1/2 cents on fifth class traffic to the seaboard. The Lackawanna also created a commotion by reducing the rate to New York from 50 to 40 cents.

Tactics That Do Not Agree with Modern Methods of Warfare. Lieutenant John P. Wiseman, an able, well-considered paper in the "United Service," points out that "our own drill-book in use at present in the regular army is a relic of the tactics of the 18th century, and is after our war and before the war of 1866."

Since then everything in war has been changed says the Philadelphia Press. It is a relic of the tactics of the 18th century, and is after our war and before the war of 1866. The tactics of the 18th century are no longer applicable to modern warfare.

The tactics of the 18th century are no longer applicable to modern warfare. The tactics of the 18th century are no longer applicable to modern warfare. The tactics of the 18th century are no longer applicable to modern warfare.

GENERAL SPORTING NEWS.

Standing of the Clubs. Played. Won. Lost. Per Ct.

Denver..... 19..... 12..... 7..... 63.2
Milwaukee..... 19..... 11..... 8..... 57.9
Des Moines..... 19..... 10..... 9..... 52.6
Kansas City..... 19..... 9..... 10..... 47.4
St. Paul..... 19..... 8..... 11..... 42.1
Omaha's average includes the game won by forfeit from Milwaukee.

A Great Game To-day. The Kansas City and Omaha will meet for the first of a series of three games at the local park this afternoon, and a fine contest may be expected. The Kansas City's, while they have been playing in the hardest kind of luck, are unquestionably one of the strongest, if not the very strongest, team in the Western association, and when once Dams Fortune does consent to bestow her smiles upon them there will be several other teams make for tall timber. Such players as Jimmy Burns, Dan Stearns, Elmer Smith, Hick Clark, Walter Johnson, Hoover, Conway, Donahue, Swartzel cannot go on brooding defeat forever. However, it must be remembered that Omaha will present a stronger front today than at any time this season, and everybody should go out to the park and see them down the Cowboys. Following are the positions of the two teams:

Omaha..... Position..... Kansas City
Kearns..... Left..... Smith
Hines..... Right..... Hoover
Caravan..... Middle..... Burns
Andrews..... Catcher..... Conway
Collins..... Second..... Manning
Cleveland..... Third..... Carpenter
Clark..... Short..... Conway
Walsh..... Pitcher..... Swartzel
Moran..... Catch..... Donahue
