Born-To Mr. and Mrs. Julius Nagle, A case of saddlery was received yester-

day at the custom house from Englandcon-signed to Collins & Morrison. A vasoline can was left on the sidewalk at Eighteenth and Clark streets yesterdaymorning, and some curious children threw a lighted match near it. There

was an explosion but no damage. Mike Groggins, the pipeman of No. 5 hose company, who was injured at the Carter white lead works fire, was on duty yesterday, though slightly sore from the effect of the bruise he received. J. H. Clampitt, the man who shot the

boy near Elkhorn last fall, was transferred from the city to the county jail yesterday afternoon, where he will remain until after his trial is beid, Frank Morissey, the newly appointed

sanitary commissioner, was at building yesterday and took charge of the affairs of the office. For the present S. Bennett will be retained as a

In Trouble Again.

W. H. Livingstone, the young man who has figured quite extensively in police court of late on account of having made collections and not remitted, was in durance vile again yesterday on the charge of having defrauded the Casey hotel out of a \$42 board bill, which was contracted last January. Livingstone admits that he owes the amount and states that he will settle as soon as he can earn the money to cancel the account.

Have You an Idea?

The Bre's editorial upon Nebraska repre sentation at the world's fair has excited considerable interest. We have received a num ber of suggestions as to what the exhibit should be, and the opinion has been expressed that it is not too soon for an interchange of ideas as to the best plan to adopt. This is undoubtedly the correct view, for the reason that at this early day the state commissioners have been appointed preparatory to getting the work well in hand. The Bee will be pleased to publish the views of any one in state who may have an original idea to

Y. M. C. A. Reception.

A members' meeting and reception was held at the Young Men's Christian association building last evening. There were in attendance about one hundred and twentyfive members. Reports were presented from the membership, reception and devotional committees and from the acting general secretary. The reports showed the work of the association to be in a flourishing condition in all departments. Mr. A. Nash, state secretary of the Young Men's Christian associa-tion, was present and made a few remarks in regard to the state bible school to be held at

Beatrice August 15-20. In addition to the transaction of business, a short programme, consisting of recitations by Miss Besse Belle Jenne, the talented young reader of Indianapolis, and a violin solo by Dr. E. H. Green, was rendered. The recita-tions by Miss Jenne delighted the audience, and she was heartily encored.

His Deeds are Worthless.

A young Swede who enjoys the distinction of being named Charles Anderson was busily engaged yesterday afternoon in a search for James Johnson and the fool killer, neither of which he had found at last accounts, though

the latter was bot on his trail.

Last August, while Anderson was walking about the streets of the city with the deed to an eighty acre farm near Wakefield, this state, in his pocket, he met another Swede, James Johnson, who asked him if he had any land he wanted to trade for city property. Anderson was desirous of becoming the owner of some town lots and in a short time he had exchanged his \$1,200 farm for two lots on Cut-Off island.

In blissful ignorance he remained happy until yesterday, when he learned that his deed to the Cut-Off island lots was worthless, is Johnson had never had any title to the

Last night the police searched for Johnson, but not being able to obtain any trace of him, they regard him as a straw man who was factured for the purpose of carrying out

Western Art Association. The Western Art association held a meeting last night at Lininger's gallery. About fifteen members were present, many being

absent on account of the school exhibit. Professor Gilstrap read a paper on Amer-Ican art, strongly advocating a national school of art and urging an effort upon the part of American artists to establish such a school. He offered resolutions favoring such a course, which were discussed and adopted. Mrs. Briggs read a paper on "Dry Notes on Art," in which she treated of many vital topics and touched up the critics inciden-table.

Suggestions for the decoration of the panels were then called for. Mr. Burgeoise suggested that two large paintings for each side—the north side representing "Painting" and the south side "Sculpture," the west and "Architecture" and the east end "Music."

Mr. Field suggested different paintings treating of the elements of art. These were discussed, but the subject was left open until the next meeting.

PERSONAL PARAGRAPHS.

Mr. A. W. Campbeli, the popular and en-terprising proprietor of the Hotel Bonaven-tura of Kansas City, the great family hostelry of that place, is on his first visit to this city and is stopping at the Barker.

Mr. A. B. Davenport, chief clerk at the Hotel Barker, has returned after a short visit to his daughter at Kansas City.

Charles R. Carlson, who for the past eigh teen months has been keeping the books of the Woodman linseed oil works, has resigned his position and has returned to his former home at Bonne, Ia., to become a partner in the new firm of Carlson & Son, flour manufacturers. Mr. Carlson has formed many warm friend-bhips in church, musical and social circles, and his departure will be noted with regret. Lute Wilcox of the Field and Farm, Den-

ver, was in the city yesterday on route cast.

PAVING BRICK.

How the Board of Public Works is Ascertaining Its Worth.

At 9 a. m. sharp the board of public works and Assistant City Engineer Grover, accompanied by several brick manufacturers, paving contractors and others interested in paving brick started from the court house for the Union Pacific shops, where the "brick test" was to be made.

The brick on trial was the Diamond, manufactured by the Diamond brick company of Kansas City, Mo., and represented by W. W. Sherwin, president; two samples of Atchison brick, one manufactured by the Drury brick and tile company, represented by Norman Barrett, and those manufactured by Beatty & Benning, represented by C. W. Benning; two samples of the Beatrice sewer pipe company, represented by G. W. Washburn, and that of the Beatrice paving and building brick company; the Dawson brick, represented by Arthur Cooley, and a sample of Omaha brick, manufactured by Joseph Deiss. The tests are three: Water test, to show the percentage of absorption; the "tumbling" test, to show the Wearing resistence, this being done by placing the brick in a revolving cylinder with an equal weight of pig iron, the cylinder to be in motion some twenty or thirty minutes to ascertain the comparative Kansas City, Mo., and represented by W. W.

thirty minutes to ascertain the comparative hipping off, The third test was the hydraulic press-

re that each brick will stand. The Galesburg brick was the standard. The bricks were weighed after having been soaked in water for thirty six hours. In de-termining the amount of moisture which had termining the amount of mosture which had been absorbed, eighty points were taken as representing one pound. On this basis the Beatty & Benning brick of Atchison ab-sorbed 2-80 of a pound; the Gales-burg brick, 356-80; 'the Diamond brick of Kansas City, three and one-half eightleths; the Drawy of Atchison, five eightleths; the Dawson, Ia., brick, seventeen eightieths; the Delss of Omaha and the Dufet of Beatrice each twenty-one eightieths; the Beatrice

sewer pipe and tile company's brick thirty-four eightleths. The tumbling test resulted as follows, there being six of each brand of brick put in the cylinder: The Galesburg bricks lost six pounds in the process; the Beatrice sewer pipe company's bricks, five pounds; the Duf-fet, Dawson and Deiss each four and one-half pounds; the Drary, four pounds; the Dia-mond and the Beaty & Benning each one

pound.

The test by hydraulic pressure resulted as follows: The Diamond brick of Kansas City withstood a pressure of 139,000 pounds before crushing; the Beatty & Benning brick, 131,-100; the Drary, 115,250; the Deiss brick, 102,-00; the Dawson, 94,000; Galesburg, 87,700; Beatrice space time company's heigh, 73,400. Beatrice sewer pipe company's brick, 73,400 Dufet, of Beatrice, 67,000.

The following is the official result of the testing to which the board of public works subjected the paving bricks submitted as

Fire and Police Commission. The mayor and all of the members were present at the meeting of the fire and police commission last night, and the first business was the consideration of Dr. Ramaciotti's bill of \$16,20. The doctor cared for a horse belonging to Mounted Officer Haze, which was shot while the officer was in pursuit of a The bill was considered and referred back, with the request that it be item-

Chief Scavey asked for six copies of the city directory, that he might exchange them for the directories of other cities. The request was referred to the committee on prop-

erty. The chief also asked that his detective force be increased, by the addition of six new men, four of whom are to go on duty July I, if appointed. The matter was referred to the committee on men and discipline. Officer Robbins was given a leave of ab-

sence of five days.

A communication stating that the seven new fire alarm boxes were on the road and would be in place by the first of July was re-ceived and placed on file. The resolution from the city council to the effect that \$50 per month had been appropri-ated for detective services was placed on file. The resolution provides that no portion of this amount shall be used for as ertaining new fire alarm boxes were on the road and

whether or not liquor is being sold on Sunday by the saloon keepers.

OMAHA, NEB.

Is slow but its coming sure. We are prepared for it, we have made last week the heaviest purchase of summer clothing ever made by any retail clothing house. Owing to the backward season manufacturers are overstocked, and we have closed a deal for a very large stock at prices far below the cost of manufacturing. We mean to sell the goods without any profit, just for the sake of making a big advertisement with them, as we find this the most effective way of advertising. Our customers will remember how we monopolized in former seasons the trade in summer clothing. We mean to do the same this year, and if it is possible to give greater values we will do so. We have prepared for a greater rush--more than half of our second floor is filled with summer coats and vests.--If you will look at our stock you will think we have enough of them to supply every man in this state, and such a variety has never been seen in any retail clothing house in this country. The season will be short and we intend to make short work with the goods. We predict that this will be the most sensational sale in this city.

SUMMER NECKWEAR.

In connection with this coat and vest sale we commence to-day our annual sale of Summer Neckwear. Our patrons need not be told what this means. Thousands of dozens will be distributed at mere nominal prices. We say "dozens" purposely because the most of our Summer Ties are sold by the dozen for the same price as other houses charge you for one or two single ties of same quality. For instance, the Pique Tecks, which you see in our window marked 28c a dozen, can not be bought elsewhere for less than 121/2 or 18c apiece. They come in handsome new patterns and latest shapes. Other Summer Ties and Scarfs in proportion. We keep them in the finest grades. One of the prettiest novelties in summer neck wear this season is the new Ring Searf, made of Washable material. This is the very latest. We have a large variety in handsome shades and patterns, guaranteed to stand washing. Our price for these is 35c each—other houses charge 75c for them.

SUMMER SHOES.

Our assortment of men's low shoes is the largest in the city. What you can't find in our stock is not worth looking for, and our prices are by far the lowest. We sell you a good Oxford tie shoe with solid leather sole and counter, made neat and shapely, for \$1.15. You could not buy the same shoe elsewhere for less than \$1.75. Russet low shoes, of a good quality which will stand service at \$1.40, worth \$2; and excellent Dongola southern ties, honest steek and well made, at \$1.90, worth fully \$2.50. Very fine calf. Oxford, and southern ties, very flexible and easy shoes, at \$2.15 and \$2.25. Shoe stores would charge at least \$3 for such qualities. We can save you considerable money on your footwear.
