

## THE WESTERN ASSOCIATION.

No Disposition Yet Made of the Des Moines Franchise.

LINCOLN WILL PROBABLY GET IT.

Under No Circumstances Will the Club Be Allowed to Disband—A Suit for Back Salaries.

The Western Baseball Association closed its meeting here at 4 o'clock yesterday afternoon, without having accomplished anything definite as to the disposition of the Des Moines club and franchise.

The Grand Rapids people merely replied that they had received the association's proposition and had had no consideration.

Before adjourning it was decided to send representations to both Grand Rapids and Lincoln in view of the interest of parties in those cities, and Mr. H. C. Indianapolis forthwith departed for Michigan and David Rose of Denver for Nebraska's capital. It is quite probable that one of these places will get the club and the chances look now decidedly in favor of Lincoln.

On the part of the club about making up their mind that the prevailing opinion is that they are not prepared to make the venture, all the representatives left for their respective homes last evening excepting Mr. Cooper of Des Moines, who will receive word from Lincoln to-morrow.

In an event, the prohibition club will not be allowed to disband, as it was resolved unanimously in this meeting to keep the organization intact until the close of the season, it is expected that the club will be compelled to maintain the club until well situated at Des Moines, but whenever the home games will be transferred to this city and Kansas City.

There were no engagements on the part of the different club representatives on the part of the Des Moines players and the club disbanded last night, as was originally intended, there would have been out of the grandest scruples for this bestowal upon the members, the demise of a club, Billy Hart, Guy Parker, Bill Traffey and the three men most in demand.

AN AUBURN JAIL BREAKER RUN DOWN.

Fruitless Search at Tekamah for a Missing Girl—Killed by Lightning—Selling Race at Beatrice.

ATKINSON, Neb., August 8.—[Special Telegram to THE BEE.]—Major Powers and O. H. Ken, candidates for governor and congress at the fall election, opened the campaign today.

Mr. Herne said he was not responsible for standing before the audience as nominee for congress; that he was chosen by no act of his own to represent the laboring interests of the country; that he was not an orator, but had been a low boy until three years ago, since which time he had been actively engaged in politics; that it was a necessity that putting up a candidate for the whole.

He paid the usual tribute to the ladies and said he wished every man, woman and child in the country was a politician in the true sense of the word; that the contest this fall was between capital and labor. We had a crisis in our history and no one could stifle a few any longer; said the all-time candidates were not any smarter object to cope with this crisis than the old parties, but were pure and less corrupt, and that they held the correct principles of government.

If they were adopted he said three facts stood out prominent. That in the past twelve months many publics had been produced and over during the same period; that more passes and packages had been made during the same time than ever before, more misery than ever before; there was an unequal distribution of wealth. The alliance demands the same protection to all.

He did not believe that the law ought to allow any money advantage over poverty. That seven-tenths of the people produce all the wealth of the country and three-tenths share in it, but parts of the country was the home of the people, who better off away from them, and the man who neither works nor spins spends \$10 where the producing class spend \$1.

He touched upon production in the old days, the trouble is not overproduction, but under consumption, and unequal distribution. It is only a question of time when the capitalist will get you sure, you never again go in debt he does up sure.

He proceeded to give the remedy—it all hangs on finance—money was what was needed, and the audience seemed to agree with this proposition. The price of grain was high up; there were two ways of getting money to buy or borrow. The present condition of the farmer was not of much iron goings, but was because of well conducted of the money power began during the war.
