The New Boyd.

Work on the foundation of Boyd's new theater is progressing rapidly. Mr. James E. Boyd has received a telegram from New York stating that the complete plans for the house were on the way here. Mr. Boyd says the contract for the completion of the entire structure will be let without delay and that one year hence Omaha will have an opera house equal to the finest in the country.

The name of Ed Roberts appears on the police register and the charge is violating a state law. Roberts went into the Farmers' Home on North Sixteenth street yesterday afternoon and called for a drink dered a counterfeit siver dellar in payment, but it was refused and he left the place. An hour later he returned and demanded another drink, this time offering a dollar that was even a ranker counterfeit than the other. Officer Keyes was called, and he succeeded in finding the fellow a few blocks away. Roberts is an old offender, and it is claimed that he has been in trouble before for passing symptoms could be the counterfer. sparious cola.

A Booming tity.

Generally "booms" in city life are supposed to come from the western side of the country, but it seems that the south is taking a very practical hand in the matter these days.

Mr. Andrew Rosewster has just returned from Joplin, Mo., 180 miles south of Kansas City, whither he was called by Dr. Tyler, mayor of the city, and the common council to arrange plans for severage. He says that Joplin is bound to be a thriving place, es-pecially on account of its zine and lead mines. According to Mr. Rosewaters statement there According to Mr. Rosewaters statement there are but few, if any, places in the country that equal Jeptin in this respect, if the mines were more extensively worked. Already crowds of miners have been attracted to the city, and the Missouri Pacific ratiroad, the only line reaching there now will find three lively competitors in a short time, among thers the "big SantaFe." THE CROWDED SCHOOLS.

"Favoritism" Alleged to Have Been Shown in a New Direction. A gentleman who is interested in every thing periaining to the schools of the city, freed his mindon matters of interest concern-

ing some of the doings of the board of educa-"The last move of the board, in trying to increase the seating capacity of the high sensol, makes me disgusted," he exclaimed. "They are going to pack thepupils into those rooms like sardines in a box, making

There are two good school buildings within a short distance of the high school in which there were vacant rooms last year, and the chances are that these same rooms will be vacant this year.

"The Pleasant school is within six blocks of the high school, and the Mason school is not far from the Pleasant school. In the Mason building there were four emptyrooms Mason suited there were four emptyrooms last year, and there were two vacant rooms in the Picasant school. The Mason school is one of the fluest buildings in town, and the Picasant school consists of a substantial brick building and a good, strong frame amox, so that there is no ground for excuse on the score of insecurity of the building. There were children in the lower grades attending the Cerner school in the high school building last year who, live almost planes for building last year who live almost alongside the Pleasant school, in order to avoid overcowding the high

school building the empty rooms in the Mason school should be filled with the pupils living between that building and the Pleasant school, while those children living between the latter building and the high school should be compelled to go to the Pleas-ant school. This would obviate the necessity of packing the rooms at the high school and would do away with the crection of an un-sightly frame building back of the high

"What is the reason the rooms at the Mason "What is the reason the rooms at the Mason and Picasant schools were allowed to remain empty last year, when it was claimed the high school and the Leaven worth schools were crowded to suffication?" was asked.

"Ab, now you have struck it?" exclaimed this gentleman, who has kept a close watch over the doings of the board. "There is method in all this. In the first place, you must know that the salary of the principal of a building is regulated by the number of teachers under her control. Certain niembers of the board, who are favoubly disposed bers of the board, who are favorably disposed toward some of the principals, finist on crowding more classes, and consequently more teachers, into a building thereby increasing the salary of the principal, regardless of the health or comfort of the

"Then again, there are some people living within three-quarters of a mile of the high school who are insane on the idea of sending their children to that building, regardless of the fact that there are other buildings much nearer where the facilities are really better. As a result of this practice the building has been literally packed, and now the bard proposes to encourage this practice by creating tempor-

WHO STOLE IT?

A Young Man Arrested, Charged With

Purioining a Typewriter. J. H. Goodman, a young man about twenty five years old, who has been doing office work for Perkins, Gatch & Laurman, was locked up at the county jail Thursday night about 6 o'clock on a warrant swornout by Joseph P. Megeath charging him with grand larceny. It seems that during the early part of July,

1889, Megeath who is agent for typewriting machines, had a machine stolen from him, it being one of a shipment received while he had his rooms over the store of Perkins, Gatch & Lauman. Megerath has been on the lookout for his property ever since it disap-peared, having a record of the manufacturer's

number of the machine.

Thursday he succeeded in getting on track of the missing machine. It was in the possession of young Goodman. Megeath immediately systems. diatelyswore out a warrant for Goodman's arrest, with the result as noted above.

Goodman claims that he bought the machine of a man for \$5 whose name he now

flads it impossible to recall.

The firm of Perkins, Gatch & Lauman say that Goodrain has always proven areliable and competent young man, and are amared at the disclosure. The prisoner is married and resides at 1514 Harney street.

That Florence Affair.

OMARA, August 7.-To the Editor of THE Bee: The communication from Florence, published in today's issue of Tan Ban, over the signature of "Johnny," deserves no further notice from me than to denounce it as malcious libel upon the good citizens of Florence, the reporters of the Omuha papers

Florence, the reporters of the Omaha papers and myself. "Johnny" is a dastard and afraid to make an altack apon upon anyone except from ambush. He is too detestable to deserve a passing notice. However, I desire to make public a simple statement of the prosecution of the Florence salcon men. I was employed to prosecute them for aviolation of the Sunday law. Complaints were filed against them and the police judge issued warrants, but before I could get to the court on the day the cases were set for trial, the city atterney of Florence, who lives at Blair, came down and entered into an ives at Blair, came down and entered into an illegal agreement with Mr. Elberts, the pros-ecuting witness. The records of the justice courtrecite that "it is agreed by the city at-torney and Mr. Elberts that the case against Brown shall be dismissed upon the prosecuting witness and the defendant each paying half the cost of the prosecution." The journal recites that each paid half the costs and case dismissed. Elberts consented the above agreement because he was to the desired with a criminal prosecution for stander if he did not do so.

Assoon as I learned what had taken place I immediately drew up another information

against the salom men, and they were sworn to by action of this county, but the city atterney entered his protest against warrants being issued under the same, and the police judge refused to issue the warrant. Then lapplied to Judge Wakeley for a writ of mandarous to compel the police judge to issue the warrants, and after the writ had here warrants, and after the writ had isue the warrants, and after the writ had been granted, the travesty upon the judicial ermine issued the warrants, and the cases were then set for trial on Monday last at 2 o'clock. Five witnesses were present and stated to the court that the state was reast for trial. The attorney for the defendant announced that the defendant was ansoready for trial but Me Ellier the other courses. trial, but Mr. Eller, the city attorney, to my amasement, said that the state was not amazement, said that the state was not ready. Five wilnesses were present by whom the guilt of the defendant could have been established, but the cert refused to proceed with the trial of the case because Eiler objected. The foregoing are the facts in the case; little "Johnny" reflects upon the character of three men who are above reproach. I allude to Aldermen Ed Walker, Frank Reynolds and the ex-major of Florence. Reynolds and the ex-mayor of Florence, Henry Hall. The three last named gentle-men are well known in Omana and it would men are well known in Omana and it would be a reflection upon them for me to say more about them that that they favor the enforcement of the law. NO KICK COMING.

Conductors Declare They Have no Grievances-Rail Notes. Conductors Kiser, Hopkins and Cahill of the Union Pacific all say there is no foundation for the reports recently circulated of additional grievances on the Nebraska and Kansas Pacific divisions. They also deny the accusation of "favoritism" made against Trainmaster Foley, and declare that the parties making it not only do him an injustice, the rally packed, and how the bard proposes to encourage this practice by creding temporary buildings instead of stiking at the root of the evil and compelling the children to go where they belong.

"I suppose the next thing the board will do," be concluded, "will be to submit a proposition to issue bonds to put up a brick building on the high school grounds and then they will abandon the Pleasantschool altogether, as has already been suggested."

Less making it not only do him an injustice, but must have some personal spite against the man. It also puts the conductors in a badlight by throwing upon them suspicious that they do not deserve. "We hope," said these geatlemen, "that The Ben will kindly set this matter right for us, for we have on kicks coming. Everything is running smoothly and sutisfactorily. Mr. Poley is a good trainmaster, and the conductors with probably one or two exceptions like him. The probably one or two exceptions like him. any member of the order should make an at-tack on Mr. Foley." Getting to the Springs. The Fremont, Elkhorn & Missouri Valley people expect to have their new line from

Buffalo Gap to Hot Springs, Dak., completed

and ready for operation by the 1st of Septem ber. The grading and bridge laying is all done, track laying has commenced and will be pushed through just as rapidly as all the men that can be utilized in that part of the work can do it. The company has lost a great deal of tourist business this summer that would have gone to the hot Springs but for that thresome, slow-going stageride of thirty miles. The springs are as much of a winter as a summer resort on account of their health restoring qualities, and there is every reason to believe that as soon as the road is ready business in that direction will greatly increase.

Trouble at Lincoln.

The Rock Island is having trouble again about getting iato Lincoln. The new line has been located as far as Havelock, where the B. & M. shops are being built, but between that point and the city much difficulty of a very annoying character is being encountered.

In order to make a connection with the Union Pacific for Beatrice it is necessary to cross the B. & M. track, consequently in the negotiations for such privileges as the one corporation must have and the other is asked to track. grant, all sorts of complications and dispoints arise.

We had the crowds among the odd suit Pants and they almost cleaned the tables-only very few of these pants are left. This week we propose to have just as many customers in our Shoe department. We are closing out all our summer shoes and must be rid of them in a few days. We will make it worth your while to visit our shoe department this week—will show you bargains you have never seen before in the shoe line. All shoes adapted for summer wear must go. Men's Russet Goat Oxford Ties, \$1.40.

Men's Russet Goat Lace Shoes. \$1.75.

Men's Coffee Brown Goat Lace Shoes, Goodyear welt, \$2.25.

Of the last lot there is only a small quantity. These shoes are not of the common trashy colored stuff of which, nowadays, so many are in the market. Ours come from reputable makers, are of good, honest stock, well made, and we can recommend them. The shoes are extraordinary bargains, and you should avail yourself of this opportunity. Shoes of color possess many decided advantages over black shoes for summer wear. They are much coolor, require less care, are less expensive and more comfortable.

In black summer shoes we offer a lot of very fine Kangaroo hand welt Southern Ties, which were delayed by the manufacturer and only received last week, too late in the season to sell with a profit. It is a shoe which we would ordinarily mark \$4.75, but for above reason we ofer them at \$3.90.

We still have a small quantity of the Patent Leather Shoes at \$2.50. We shall not get in any more of them this season, so if you want a pair better come soon.

TO MECHANICS AND LABORERS.

We have again a full line of our celebrated all solid leather \$1.25 shoe. This is by all odds the best low priced shoe ever offered.
