The Eden Musee's Attractions. Manager Lawler of the Eden Musee has prepared a varitable feast of amusements for his patrons the coming week. During the past week he has enjoyed an immense business, and spurred on by the best of patronage he has doubled the all comes the Dashington Brothers, who are famed far and near for their clever acting. The three brothers represent stove polish 5c, quart bottle of the best 15deg ammonia 15c per bottle, tumblers comedy, acrobatic feats and song and dance sketches. In the latter they are particularly skilful and their famous triple silver statue clog has made them fame world-wide. The Hallies, assisted by a clever company of artists, will present a roaring farce comedy, entitled "The Telephone Agent." This piece alone would make a fine attraction. But still more, there is Leoni and Nelson, a team of song and dance artists, and Collins and Barton, black-face comedians, who are exceedingly clever in all their parts. The Beethoven quartette of jubilee singers is another stella attraction that adds to the performances. These sweet-voiced singers are from the sunny south and are admitted to be among the peers

of songsters. DeCamo, the famous juggler and musician, and Lorraine, the clever contortionist, go far toward com-pleting one of the best performances ever appearing in a museum. The curio and art halls are replete with curiosities, freaks, works of art, pictures and sculp tures. The famous wax figures are still

The success of the Paragon coal, which we introduced a year ago, has been so marked that certain disreputable persons, dealers who disgrace the business, intending to filch from us and to approprinte to themselves the fruits of our enterprise, are selling what purports to

be the genuine Paragon coal. The fact is we are the exclusive agents of the mine that produces Paragon coal, and no other dealer in the city of Omaha can secure it for sale. If any dealer offers to sell you Paragon coal, set him down for a fraud, who would steal from you as quickly as he would lie to you. You can get Paragon coal only from us at 16th and Douglas.

A Rermit Found Dead. Raleigh, N. C., dispatch to the Globe-Democrat: The body of Robert N. Engle, an aged man, was founddead in his room at Wilmington. Three years ago Pagle went there and lived almost the life of a hermit. He was very reticent, but was always kindly treated and appeared always to have money. Saturday he was last seen alive. His room was broken into, and his body, naked, was found lying on two blankets on the floor. The windows and door were tightly fastened on the inside, and death was evidently from natural caucus. There were some wounds at the throat, probably by finger nails. It was found that Eagle, who was some eighty years old, had been a lieutenant in the regular army in the war with Mexico, and was mentioned for gallantry in that war. He was in 1855 againappointed a lieutenant. tion of Quartermaster General Batchelder, United States army, he was buried National cemetery

PROHIBITION COMES HIGH. Constable and Other Fees in Liquor Cases Appal Cold Water Advocates. Burlington, Ina special to the Chicago Herald: There is consternation in the prohibition camp in this city. Claims to the amount of \$23,000 were presented to the board of county supervisors now in session, for attorney, justice of the peace and constable fees in liquor cases filed during the last three months. Instead of allowing these claims as has been customary, the board haid them over until the Decembersession, coupled with the order that each claim be then accompanied by a certificate showing by whom the information was filed. This order if complied with will expose the whole system by which the county is being robbed under the cloak of the prohibitory law. T. J. Trulock, chairman of the republican county central committee, is the prosecutor in the majority of the cases filed and his share of the spoils is \$1,130.

peoplewhose names appear belowforthe new washer, each one of these people had the washer on two weeks' trial before they bought it to see if it would confirm my claim, which is: That it will save one-third of the time, half of the hard work, requires no scaleing of the clothes. ne belling of the clethes, ne lye or chemicals, no rubbing of the clothes, clothes will show a marked improve-ment in color is about four weeks, after having been washed in the New Washer. clothes will last much longer, because they escape the rubbing that rub them to pieces and the chemicals thatrots them. The machine is made of edar wood, will last a life-time, will not rot leak, expand or contract, will not water salt, is solight that a woman can handle it perfectly easy, runs so easy that agirl ten years old can do a whole washing, the feature of the machine is that it expands the meshes of the clothes and by the united action of the condensed air, steam and sads, clearnes thern much quicker and cleaner than is possible to clean by any other process.
