OPEN MISSIONARY SOCIETY.

The Question Which the Congregational Clergy Must Consider.

NEW FEATURES IN THE RELIGIOUS WORLD.

Commencement of a Religious Mission to Last Two Weeks at the Holy Family Church

The new organ of Trinity cathedral is one of the most powerful and complete instruments of the kind ever brought to the west.

The organ occupies the chamber formerly filled by the old instrument. The two ends of the chamber were of the church have been removed to permit the use of the new instrument.

shall be disbanded? There is an effort being made to have this close corporation open its doors and become more of a delegate body in which the church shall have a direct representation.

Speaking of the same matter Dr. Dwyer of the First Congregational church, said: "This body of missionary workers has been a central agency through which several of the denominations have done work in foreign fields. Somebody had to handle the funds, put in buildings, control the property and direct the work, and this corporation, which has necessarily been a close corporation, has filled that office. But the question now arises, shall this corporation manage the missionary work of the church without giving the church a voice in the matter or shall these closed doors be opened and the church be permitted to take part in it?"

pulpit without an hour's preparation. To make the joke still bitter to his idealist members shook hands with him after the morning service in the "Dorset" that was the best sermon ever heard you preach!"

On the fourth Sunday of this month Dr. Crogan and Dr. Guterson of New York and Boston will present their claims, aims and objects of the American Foreign Missionary society at Plymouth Congregational church in Fourth Place.

Trinity Cathedral—Capitol avenue and Eighteenth street, Very Rev. C. H. Gardner, dean. Holy communion 8 a. m.; annual Harvest Home service, sermons and second collection 11 a. m.; Sunday school, 3:30 p. m.; children's service 3:45 p. m.; evening prayer and sermon 7:45 p. m.

The Women's board of missions and the Women's home mission union of the Congregational church will meet in annual convention at York on October 15 and 16. Mrs. C. W. Hall, Mrs. A. R. Train and Mrs. Willard Sewell are ladies workers of Omaha, interested in the success of these two excellent organizations and will probably attend the convention at York.

The members of St. Mary's Avenue Congregational church held the annual business meeting and social on last Wednesday night. The finances of the church are in excellent condition. The estimated expenses for the coming year will be about \$6,000. The pastor's salary is \$3,000 and the music cost \$1,500. The church has a membership of 800, being the second in size in the state, of that denomination.

Rev. William Scott organized the church ten years ago and has been the pastor ever since. He was recently called to the presidency of Yankton college, but declined. The call has been renewed, but it is not believed that he will accept his mind regarding this duty in the matter.

The First Presbyterian church of Omaha should be congratulated upon the condition of its finances and the general prosperity of its work. At the annual business meeting held last Wednesday evening the treasurer's report showed that the receipts for the year were \$20,000. The church has a membership of 800, being the second in size in the state, of that denomination.

BACK FROM FOREIGN SHORES.

What George W. Ames and Party Saw While in Europe.

LIFE IN LONDON, PROSPERITY IN BELGIUM.

What is Known About Prohibition Abroad and How the McKinley Bill is Considered by Englishmen.

Mr. George W. Ames, wife and father, George C. Ames, returned last Thursday from a four month's sojourn in Europe. They spent most of the time in three great cities, London, Paris and Brussels, making short excursions to the leading points of interest about them.

Speaking of his impressions while abroad Mr. George W. Ames said: "We visited Westminster abbey again and again and found something new to us at each visit. We were especially interested in our visit to the old London tower, and the museum in Guild hall. There is so much in London it would require a life time to see it all. We were delighted to find the exact location of the 'Old curiosity shop' made famous by Charles Dickens. I found the pleasure of a visit to the old 'White Hart Inn' where Pickwick found Sam Weller blabbing about the 'Englishman' and the 'Hyde park' his to natural and the nature is to be commended.

"I made several trips up the Thames on the famous penny boats and enjoyed each trip immensely. "I was pleased with the splendid regularity and promptness of the transit among the London police force. They are remarkably ably and efficiently assisted by the English about the city and in giving people all the liberty possible without infringing upon the rights of others.

"The amount of drinking among nearly all classes of people in London and in Brussels is perfectly astounding. I was especially amazed to see the women drinking in public resorts. Talk about prohibition, it is a mere nothing, and they would not compromise you.

"With regard to newspapers, I have just this to say: The English newspaper is not a newspaper in our acceptance of the word. The English newspaper is a literary magazine, a carefully written editorial expressing the opinions of a few well informed men. The news that one sees in a English paper is remarkable for its meagerness. Where our papers print a few little columns, the English papers print a few little columns, the English papers print a few little columns.

"I was greatly impressed with one thing. It is this: In this country, we begin where they end. In this country, we begin where they end. In this country, we begin where they end.

"I was greatly impressed with one thing. It is this: In this country, we begin where they end. In this country, we begin where they end. In this country, we begin where they end.

heated gilly than in any city on the face of the earth. The cars of life run very lightly upon the people of the French capital."

"If you were going to compare between the English and French mode of living, which would you prefer?"

"I should decide in favor of the French or Partisan life rather than that of the Londoner, but I want to say that there is a great deal about the genuine Englishman that I profoundly admire. You, if you have never seen the Englishman at home, would be pleased with his frankness, his generous consideration of every one's personal views and rights. The Englishman may dispute with you, but think within himself that you are absolutely right, and he doesn't fight with passion and call you a fool as so many Americans are apt to do. There is very little snobbishness among Englishmen. They are sincere, rather brusque occasionally but refreshingly candid at all times.

Speaking of the various points of interest in and about London Mr. Ames said: "We visited Westminster abbey again and again and found something new to us at each visit. We were especially interested in our visit to the old London tower, and the museum in Guild hall. There is so much in London it would require a life time to see it all. We were delighted to find the exact location of the 'Old curiosity shop' made famous by Charles Dickens. BUILDING UP INDUSTRIES.

The Work in Which Omaha Manufactures Are Now Engaged.

THE NUMBER OF OPERATIVES EMPLOYED.

The Wages They Receive and the Marvellous Dexterity They Attain in Handling Improved Machinery.

Eight hundred thousand dollars worth of leather!

More than enough to carpet the heart of the city, and then shoe every man, woman and child in Omaha—yes, and all the human beings in Douglas county.

This is the quantity of leather made into footwear and sold every year by W. V. Morse & Co., of this city.

Their big, handsome five-story and basement building at the southeast corner of Eleventh and Douglas streets comes as near being a model wholesale and manufacturing establishment as can be found between the oceans.

The firm pays out more than \$100,000 in cash every year for wages to its employees and between \$75,000 and \$80,000 of this amount remains in Omaha.

Nearly two hundred people are employed within the four walls of this magnificent establishment, to say nothing of the traveling men employed by the firm. Of their 200 employees about 60 per cent are girls, who earn from \$5 to \$12 a week, according to their competency.

It is brighter, more intelligent and more thoroughly skillful company of young women would be difficult to find.
