THE SPECULATIVE MARKETS.

Increased Activity and Better Prices in All Kinds of Cereals.

A GENUINE BULL DAY IN THE WHEAT PIT.

Numerous Influences Combine to Strengthen Corn—May the Big Month in Oats—The Provision Market.

CHICAGO, Oct. 6.—[Special Telegram to THE BEE.]—The wheat market was active enough and strong enough through the entire session to compensate for any weakness or dullness displayed recently. There was scarcely a minute from opening to closing that the prices were not on the move up or down. The tendency was upward, and as prices advanced the market became broader and broader until a genuine bull market was witnessed. Several things contributed to the strength, and ahead of everything else was the change of sentiment to the bull side. The strength showed itself on the curb, where the price of December was bid up to 1.02¾ against $1.02 as the top and closing price Saturday. When regular trading opened there were trades from $1.02¾ to $1.02¾, the first minute, with a little depression at once to 1.02. This was the bottom for the day. May sold at 1.06¾ to $1.06¾, the first few minutes and on the first rally December came to $1.02¾ and May to $1.06¾. From these figures there was a little decline before it o'clock, but the market took all offerings and about midday moved up once excellent buying until December touched $1.03¾ and May $1.07¾. There was a decline of less than ¼ c from the top at once, but this was followed by a steady, well supported market before 1 o'clock, with December around $1.03. About the only thing to count against the market from the outside was the receipts at Minneapolis, 82 cars, and 263 at Duluth, making nearly 1,20 cars at the two points. In the local trade the principal hindrance to a more swift advance was the selling out by bloom of a large line of wheat. Many others sold in a similar way on early bulges. This was more than balanced by the attitude of Hutchinson. He became a big buyer and kept at it till top prices were reached. His following on the bear side got run in and had to suffer losses. Buying was led by Comstock, Mitchell, and many others who have been working for an advance for a week past. The visible supply report was bullish and showing 90,000 bushels decrease, whereas an increase of 400,000 bushels was expected. The visible supply increased nearly 1,000,000 bushels the same week last year. Local stocks were decreased 78,000 bushels. Liverpool cables were bullish, but largely a reflection of the closing strength here Saturday. Receipts were but 99 cars, with only 8 cars of No. 2 grade. Wheat was held strong to the close. Last prices were: October, 99½c; December, $1.03¾; May, 1.07¾. Sales ranged from 98¾c to $1.00. Duluth reported some export business and New York reported five boat loads worked. Country elevator stocks in the northwest increased 1,351,000 bushels, a total of 4,271,000 against 5,000,000 bushels a year ago.

Corn was strong and higher today because the receipts were much less than the estimate, because wet weather over the west threatened to interfere with the movement still further, because such reports as came in from early husking were disappointing, because local stocks were reduced for the week, because wheat was very strong, and because Hutchinson became an active buyer from the bottom to the top. Receipts were 438 cars against the estimate of 600 cars. Shipments were 426,000 bushels. Local stocks were reduced 400,000 bushels. The visible supply increased 250,000 bushels for the week. May corn started at the first flash at the curb price of 52½c. It sold off at once to 52c. This was the bottom price. The advance was slow at first to 52¾c, the opening price, when good buying carried the price to 53c, with slight reaction to 52½c. October sold at 49¾c to 50¼c and off to 50c; December started around 49½c, sold at 50¾c and down to 50¼c. Last prices on corn were: October, 50c; November, 50½c; December, 50¾c; May, 52½c.

Prices of oats were advanced with other cereals. Buying was led by Hutchinson and Pesse. Sales for the month were from 39c to 39½c at the close. May was a big month. After the opening at 42½c the price touched 41½@42, moved up to 42¾c and closed at 42½@42¾c.

The provision market was much more active than usual, and after displaying considerable strength, closed with fair gains all around. Dispatches from the yards gave but 19,000 hogs received and prices 5c to 10c higher early. Later the demand for the market was strong and nearly all disposed of readily. The upward movement in prices of cereals also helped provisions. Hutchinson was a seller of pork and had early, but scalpers were eager to take offerings. January pork sold at $11.80 to $11.75 to $11.90 to $11.82½ and $11.85 at the close. Lard was firm all day, selling at $6.37½ to $6.35 and closing at $6.32½@6.35. Short ribs touched $5.80 and closed at $5.77½ for January.

CHICAGO LIVE STOCK.

CHICAGO, Oct. 6.—[Special Telegram to THE BEE.]—CATTLE—Business for the week opened about like the close of last week. Good cattle were scarce and sold quickly, while ordinary and common stock ruled slow and sold at whatever the salesman could get. There were at least 5,000 cows, heifers, calves and bulls among the arrivals, about all of which sold down to as low prices as any day this year. Texans and rangers, when not first class, sold a shade lower. The top price for good steers was $4.90@5.10; others, $4.00@4.85; common and medium, $3.00@4.30; butchers' stock, $1.50@3.90; stockers, $1.85@3.00; Texas steers, $2.10@2.60. Rangers sold 10c lower, although the brands known as western ranchers made $4.15 and averaged 1350 pounds. Other range steers, $2.80@3.25.

HOGS—Active and 5@10c higher. Packers paid $3.20@4.10 for mixed, and shippers $4.05@4.65 for prime heavy and butchers' weights. A few Philadelphias sold at $4.70@4.75. First class light, including the singe sort, sold at $4.50@4.75; second class, $4.00@4.50; pigs, $3.30@3.75.

FINANCIAL.

NEW YORK, Oct. 6.—[Special Telegram to THE BEE.]—Stocks were very irregular during the first hour. Messages sent abroad after the close Saturday and expressions heard at Windsor and elsewhere over Sunday indicated that even the leaders are badly at sea over the immediate future of stocks. Selling by London has gone beyond all expectations. The gloomy outlook at the close Saturday prepared trade for still lower figures this morning. The list showed declines at the opening of ¼ to ¾ all around, with Chicago Gas at ¼ advance—about the only exception. Burlington opened steady at 92¾, rose to 93¾ on a spurt of buying, dropped back to 92¾, and again rallied to 93¾. Then was the greatest irregularity everywhere, but on the whole there was a quick rally from the early depression, caused by short buying. After prices were on a par with or better than the close last week selling was renewed and a second decline resulted, but prices did not go off to the low points of the first few minutes. Chicago Gas sold at 44¾ and off to 42¾, up to 43¾ and again off to 43¾. Sugar was not greatly changed, ruling between 76½ and 77¾. New England touched 41 and rallied to 42. Northern Pacific preferred sold at 74¾ up to 75¾, and dropped to 74. The bottom for Atchison was 35½, with a rally to 36¾. Rock Island sold at 77¾, up to 78¾, and off to 77¾. The low figures in St. Paul, Missouri Pacific and Union Pacific were 69¾, 69¾ and 50¾ respectively. Towards midday the market was more settled. The depression in stocks continued until late in the day, and some very low figures were touched—Atchison 35, Rock Island 76¾, St. Paul 69¾, Union Pacific 50¾, Louisville 78 and others in proportion. During the closing hours there was a great change and shorts became open and heavy buyers. The recovery was excellent. Rock Island closed steady with Saturday; Burlington and Missouri Pacific each showed a small net gain; St. Paul was still off ½; Louisville recovered to 80¾. Business was the heaviest for months, reaching 631,387 shares.

The following were the closing quotations:
