AN INVOCATION TO PATRIOTISM.

The crisis that confronts the people of Nebraska makes an appeal to their patriotism. That term has a much broader meaning than is usually assigned to it.

The history of the prohibition crusade in all states is an unbroken record of treachery to the republican party.

From Maine to Oregon and from Dakota to Texas prohibition is the millstone around the neck of republicanism.

Such an assault is the effort to plant prohibition in the organic law of Nebraska. The adoption of that policy would result in greater injury to the material interests of the state than any calamity in its history.

The republicans in Nebraska should stand by their party ticket. In that course alone lies their safety.

Every republican in Nebraska should stand by his party ticket. In that course alone lies his safety.

These republicans have shown their loyalty to Mr. Richards on every opportunity during the campaign.

It is a very vigorous speech delivered at Philadelphia, Saturday evening.

What I deplore is a popular vote in Pennsylvania that shall encourage New Jersey in her democracy.

EX-GOVERNOR FURNAS HAS BECOME AN ACTIVE MEMBER OF THE WORLD'S FAIR COMMISSION.

Mr. Furnas has become an active member of the world's fair commission through the absence in Europe of Commissioner Kerns of St. Louis.

During the past decade prohibition Vermont has fallen off in population.

Since 1880 Nebraska nearly doubled her population. If prohibitory laws had been in force it would not have gained 15 per cent in population.

Within the last five years the population of prohibition Kansas has decreased.

The indebtedness of Des Moines long ago reached statutory limits. Its treasury is empty and public improvements are not being made nor contemplated.

Prohibition may not increase the rate of interest on loans guaranteed by gilt edged securities, but it will increase the taxes on all kinds of property.

Public sentiment in Sioux City is against prohibition. The law has never been enforced there, consequently the growth has been greater than that of any other Iowa city during the ten years last past.

It is the candid opinion of G. Boies of Iowa that prohibition has not lessened the evils of intemperance in that state.

In cities and towns of Kansas attempts are made to enforce prohibition, but the attempts are futile and very expensive.

The cities and towns of prohibition states lose the revenue derived from licensing saloons, but the saloons are there in greater numbers than if a license was demanded and paid.

If the field was as free to liquor dealers in Nebraska as it is in Kansas and Iowa, the saloons in Omaha would increase twenty per cent in every city and town in the state proportionately.

Council Bluffs is quoted as a thriving prohibition city. According to population there are more open saloons in Council Bluffs than in Omaha, and most of them pay a monthly fine into the city's treasury.

There are hundreds of men in Iowa today who are protesting against prohibition on the state who regret the work done in the interests of that law.

The saloonists of Sioux City, Council Bluffs, Davenport and Dubuque pay monthly fines for "containing nuisances."
