From this date Omaha's growth will

be unprecedented. Capital will seek investment in real estate from all parts of the country. Omaha is the only city that went through a real estate depres sion without a crash and property which had a commercial value at the end of the boom three years ago has steadily enhanced.

We deem it advisable at this time to caution the public against mushroom investments. Secure good property with-in your means from reliable firms and

unquestionable title. Feeling satisfied that prohibition would be defeated when voted upon, we purchased a large amount of property at Albright and are now prepared to offer a limited number of choice bargains in "Albright's Choice" addition on easy terms.
