

THE CITY.

Mrs. Ruby, mother-in-law to George Cleveland, who was shot Tuesday night down at the river, filed a complaint yesterday charging Jacob Kingpin with shooting Cleveland with malicious and murderous intent.

The board of fire and police commissioners will meet on Saturday afternoon for the purpose of taking up the question of licenses. All parties who have applied for licenses should remember that the money must be paid and the receipt presented to the board before any consideration of the same will be taken up.

Fined for Embezzlement.

W. A. Vanice was tried yesterday in police court upon a charge of having embezzled \$50 of the funds belonging to the Arlington mill company. The complaining witness was William M. Monroe, a member of the milling company. Mr. Monroe claims that Vanice has deceived the company out of about \$250 by collecting funds on the road and failing to report to the company. Vanice was fined \$50 and costs. He claims that the arrest was unwarranted, and that he made good all the money he appropriated.

The Winter of Our Content

In the title of a recent charming paper by that brilliant writer Charles Dudley Warner, wherein the pleasures of the Pacific coast, as a winter resort, are most graphically described. The American people are beginning to understand that the Puget Sound country is one of our most splendid possessions and that the name of the "West" portion of the "Pacific" is a happy title, much misapplied. In speaking of Mount Tacoma, Senator George F. Edmunds says: "I would be willing to go 500 miles again to see that scene. The continent is yet in ignorance of what will be one of the grandest show places as well as sanitariums. If Switzerland is rightly called the playground of Europe, I am satisfied that around the base of Mount Rainier will become a prominent place of resort, not for America only, but for the world besides, with thousands of sites for building purposes, that are nowhere excelled for the grandeur of the view that can be obtained from them, with topographical features that would make the most perfect system of drainage both possible and easy, and with a most agreeable and health giving climate."

Thousands of delighted tourists over the Union Pacific the past year bear ample testimony to the beauty and majesty of this new empire of the Pacific northwest.

Weather Probabilities.

For December—Indications point to cold, frosty weather. That, however, will make no difference to those who travel in the steam-heated and electric-lighted, limited vestibule trains which is run only by the Chicago, Milwaukee & St. Paul Ry. between Omaha and Chicago. This elegant train leaves Omaha at 8:10 p. m. arriving in Chicago at 9:30 a. m., in time to make all eastern connections. For further information apply at city ticket office, 1501 Farnam st., Omaha. The Shining Lights

Of the old world, soldiers, statesmen and men of letters, all write in the most extravagant praise of our facilities for travel in America. And we are entitled to the praise. On every English line there is the same old dusty lunch counter, known by all tourists for those many years. Not even a drink of water, nor a crust of bread to be had on the train. No wonder our trans-Atlantic friends express amazement when they sit down to a hotel dinner on one of the palace dining cars on the Union and Southern Pacific railways—an arrangement which is the most perfect in the country today.

THE GUBERNATORIAL CONTEST.

Ex-Mayor Broatch Unfolds His Tale of Political Woo.

Ex-Mayor Broatch was an interesting witness before the contest board yesterday, and a witness who enthusiastically unfolded his tale of political woo, which began at the beginning of the Douglas county primary contest. From the gentleman's testimony it was learned that just previous to the election a letter was received in Fremont by a colored man inviting him to come to Omaha and vote, but if he was needed or wanted to vote for or against prohibition, the gentleman's testimony did not show. As the letter itself was anonymous, and as the handwriting was not identified as that of an anti or prohibitionist, the contest board and the public are still in the dark as to which party was driven to the extremities of soliciting unlawful votes. After testifying that he had been charged with being a prohibition candidate, and intimated that such charges injured his candidacy before the primaries, he contradicted himself on cross examination by answering, "No sir, I was not charged with being the candidate of the prohibition wing of the republican party."

The testimony of J. C. H. Blake, J. T. Coalworth and Moses P. O'Brien was immaterial, showing only that the late election was as peacefully and quietly conducted in the city of Omaha as they are anywhere—in any city on any occasion.

Change Cars? No.

Among the many exigencies of modern travel there is one requirement which is always popular and always in demand, and that is "a through service." Life is too short to "change cars" every few hundred miles, and the travelling public have very properly rebelled against all such old-fashioned railroadings. The through equipment of the Union Pacific, "the original overland route," provides for a through car service for all points west from the Missouri river.
