

THE ROAD OF CANNON.

It is Heard at Gordon and Calls Everybody into the Field.

CHIEF RED CLOUD HELD BY HOSTILES.

Indian Warriors Continually Circling Near the Agency.

TROUBLE FOR THOSE WHO BURY THE DEAD

Bishop Hare and Father Stephazie Arrive at the Scene.

HOW THE MILITIA WILL BE WLLCOMED.

A Report from Rushville Gives the Governor Hearty Applause for His Promptness in Sending Out the Guards.

Gordon, Neb., Jan. 4.—[Special Telegram to The Bee.]—A battle is now raging about ten miles north and east of this place. The booming of cannon can be distinctly heard. Everybody is under arms. The wildest excitement exists. A company of state troops is expected at 12:30 tonight.

RED CLOUD COERCED.

His Effort to Reach the Agency Angers the Hostiles.

PINE RIDGE AGENCY, S. D. (via Rushville, Neb.), Jan. 3.—[Special Telegram to The Bee.]—Twenty-one of the wounded soldiers, three of the officers and eighteen men will have to be taken to Fort Riley, Kan., tomorrow night by special train.

There have been no new developments today regarding the hostiles except that old Red Cloud tried to slip away from them and ran to the agency. When the fact was discovered by the hostiles they shot all of his ponies, numbering about fifteen, placed a guard over the old chief and proceeded to move several miles further from here.

This last move places their main camp within but a few miles of the bad lands, but the warriors, according to the reports of scouts, keep circling within ten or a dozen miles of all the time.

It is considered as among the probabilities at the party that went out this morning to bury the dead Indians at Wounded Knee will encounter trouble with hostile scouts before they get their big job completed.

Jim Stephenson of Omaha, who has fifty four-horse teams, a total of two hundred horses engaged in army work here, is at the agency. He returns home tonight.

Fred Remington, artist for Harper's arrived this morning to sketch the fields of the recent battles, particularly that of Wounded Knee.

Bishop Hare of South Dakota, and Father Stephane of New York arrived this evening. The wounded Indians were this afternoon removed from the Episcopal church to the Catholic school house about a block distant. One of the little babies found at the battle field yesterday died today.

FEELING AT RUSHVILLE.

Everybody Relieved at the Report That the Guards Are Ordered Out.

RESHVILLE, Neb., Jan. 3.—[Special Telegram to The Bee.]—Dr. Martin, state superintendent of relief supplies, arrived here yesterday and has since been busily engaged in distributing the first consignment of goods to the needy settlers. He has received word from headquarters at Lincoln that further consignments are on the way to Chadron and other points as well as this. Universally, the feeling here is one of gratitude to the donors for this substantial evidence of their interest and sympathy.

News received this morning from Governor Thayer that he had sent several companies of militia to protect the settlements bordering on the Indian country elicited hearty applause and already a much better feeling prevails.

No one who has not been here during the past few days can begin to understand the degree of excitement and the strain that settlers have endured. The report that people here do not want militia or think that the best possible measures of safety should be taken are absolutely false. They realize only too painfully the lack of sufficient protection heretofore existing all along this border and Governor Thayer has never yet performed an act wherein he was accorded greater general support than in this matter.

MOVEMENTS OF THE MILITIA.

Company A, Commanded by Lieut. Osborne, Leave for the Field.

YORK, Neb., Jan. 3.—[Special to The Bee.]—Company A, First regiment, Nebraska National guards, in command of Lieutenant F. P. Osborn, left at 11 o'clock this morning on a Fremont, Elkhorn & Missouri Valley special for Rushville. A large crowd accompanied the company to the depot, and as the train pulled out they were cheered to the echo.

Company C Notified.

NEBRASKA CITY, Neb., Jan. 3.—[Special Telegram to The Bee.]—Company C of the state militia has been notified to be in readiness to be called to the seat of the Indian troubles during the next twenty-four hours.

En Route to the Front.

BLAIR, Neb., Jan. 3.—[Special to The Bee.]—The Tekamah guards, under Captain Beck, passed through Blairville today en route to Gordon. There was one or one-half hours between trains, and the boys made a run for the second-hand stores and hardware stores, and about cleaned the town out of revolvers. One young man, when asked how he liked going to fight the Indians, remarked that he wished when he returned the guards he could get more than he could hold up." There were about forty in the company.

Cheered on Their Way.

FREMONT, Neb., Jan. 3.—[Special Telegram to The Bee.]—Two or three thousand citizens of Fremont turned out to the depot this forenoon to see company E, Nebraska National guards, off for the Indian country. The company was escorted to the depot by the Nebraska post, Grand Army of the Republic, when

It was drawn up in line and photographed. Company H of Tekamah, under command of Captain Beck went forward on the same train. As the train pulled out three hearty cheers went up from the assembled multitude.

Report from Pierre.

PIERRE, S. D., Jan. 3.—[Special Telegram to The Bee.]—It is reliably reported that the hostiles have not moved from their camps, among them being Shoveo of Logan, Elder of Clay and Taylor of Johnson. The last mentioned seems to be in the lead at this writing. However, the hostiles are of labor candidate, and Stewart of York are the dark horses. The fight seems to be upon the organization of the house. Very few Democrats are expected on the early train Monday.

Opium Smugglers Enjoy a Boom.

ST. PAUL, Minn., Jan. 3.—[Pioneer Press, Seattle, Wash., special says:] "Investigation by careful men from here to Victoria shows more than twenty opium refineries in that city besides many small Chinese establishments which produce small amounts. For the three months ending September 13, 48,889 pounds of crude opium landed at Vancouver and 41,369 pounds were sent to Victoria, where it was refined and smuggled across the American line. During these months the refined opium was lawfully passed through the custom houses. Smuggling is going forward all the time by ship, steamer and steamers, and the opium business alone amounts to over \$1,000,000 a year. Besides this, Chinese are being smuggled over constantly. It is believed that several hundred are being smuggled across the line and share in the profits.

THE SHAH WAS INTERESTED.

He Visited the Residences of American Missionaries at Teheran.

WASHINGTON, Jan. 3.—The secretary of state has received a dispatch from Teheran, giving many interesting particulars of the recent visit paid by the shah of Persia to the residences of the American missionaries at that capital. His majesty evinced the greatest interest in the methods of the mission school and bestowed much commendation on the general good appearance of the premises, not omitting to speak of the American way of "housekeeping."

HIS TERRIBLE END.

A Chicagoan Dies of Rabies While Contending of Recovery.

CHICAGO, Jan. 3.—[Special Telegram to The Bee.]—Henry Bankwitz, a Polish resident of Avondale, was bitten six weeks ago by a vicious bull dog. He paid little attention to the matter and suffered no discomfort from the wound until last Tuesday afternoon, when he was seized by a fit and fell to the floor. He called for a doctor, but he was soon seized with a second, and at short intervals afterward until yesterday, when he died, completely exhausted. Dr. Rose, who was called to see the patient when he was first attacked, and who remained with him until his death, describes the suffering of the patient very graphically.

Prof. Koch is in ill humor over the increasing severity of professional criticisms here and abroad. It is understood that he has asked Minister Von Gossler to relieve him from his pledge to surrender to the state his right to the discovery. Von Gossler was opposed to the proposition, and the professor communicated the contents of the letter to his friends, who are now endeavoring to procure the production of the genuine lymph. When the landtag resumes its sitting an official declaration will be made regarding a desire on the part of the government to retain any advantage through the production of the lymph and expressing a readiness to communicate the process of the manufacture through other governments which are able to guarantee against an absence of it. In the meantime the anger of medical circles arising from privileged trade in the lymph is growing in warmth.

Dr. Pettenkofer, a leading Bavarian physician, while declaring recently his belief in the success of Koch's method in the treatment of lymph and tuberculosis of the joints, added that it was a deplorable blot upon German science that some Berlin physicians abused Koch's discovery for pecuniary ends. He suggested that the state fix a regular price for each injection of the lymph.

The Tagelblatt asserts that while many patients are awaiting treatment a large quantity of the lymph remains unused in the laboratory and the physicians, Dr. Deggel and Puhl have a practical monopoly of the use of the lymph. Dr. Cornell, it says, besides his private clinic in Charlottenburg, a suburb of Berlin, will form a similar establishment in the center of the city for high class patients. This, it adds, makes the four under the name of Dr. Cornell, all of whom are under the name of Dr. Cornell.

The Tagelblatt's statement is somewhat exaggerated and ignores the fact that a daily increasing quantity of the lymph is sent out to the German and foreign hospitals. The Libbertz laboratory is chiefly drawn upon for the supply. The Austrian government has forbidden the use of any lymph except that of the Libbertz laboratory and has also ordered physicians to report every death that occurs from reaction and to hold a post-mortem examination in each case.

Dr. Cheyne of London has been here several weeks studying the efficacy of the remedy in cases of leprosy. He has become convinced of its value and he will proceed to St. Petersburg, where he will inoculate lepers. The leprosy under the auspices of Prof. Feiman of Vienna shows improvement in their condition.

The National Gazette, as the organ of the colonial party, explains the reasons for the complaints of Stokes, the English trader, regarding Emin Pasha. It appears that Stokes left Saadani in June under orders from Emin Pasha, taking goods on his own account to the value of \$25,000. Stokes' worth on behalf of a Zambian firm. His warlike plays prevented Stokes from disposing of these goods, hence the trader's wrath. The National Gazette does not allege that Wissman was interested in Stokes' venture, but its statement suggests that the baron did have an interest in the enterprise.

The President, commenting on the work done by the committee, says that the case is now open on January 1, says that if a plebiscite should be taken by 90 per cent of the people would pronounce against the measure.

A Curious State of Affairs Reported from Thomaston, Me.

BOSTON, Mass., Jan. 3.—[Special Telegram to The Bee.]—A special to the Herald from Thomaston, Me., chronicles a novel case of thieving at this place, a considerable distance from the city. A man named William P. Gould, serving a ten years' sentence for embezzling \$100,000 while cashier of the First National bank, practically runs the institution. It is alleged that Gould has unlimited power and is virtually warden. He says all bills, including the officers' salaries, received at the bank are countersigned by the commissary department and the deputy punishes men on his complaint. He is not locked up in a cell as others are, and he never gives prisoners any visitation. He fills the position of clerk, assistant librarian, and chief messenger, physician and assessor. He is also a watchman, and it is also said that he makes out the annual report of the prison.

The Presence of Republican Senators Demanded in Washington.

WASHINGTON, Jan. 3.—The news that Senator Ingalls has started eastward in response to urgent telegrams from Edmunds and others, has been greeted with approval by the friends of the election bill in the senate. The announcement had been made that Ingalls intended to remain in Topeka until the legislature had elected his successor, and the republican managers were very much afraid that they would not have a quorum of republican senators here next week. Padon says he cannot be here next week, and Squire also announces his intention of remaining in the west for a week or more. Urgent telegrams have been sent to them and they are expected to return to the senate next week as it is not unlikely that an effort will be made to "set out" the elections bill by the friends of the election bill in the senate. MITRE'S POSITION.

No Personal Ambition, But the Country's Welfare Influence a Him.

PARIS, Jan. 3.—[Special Telegram to The Bee.]—In an interview today on the situation in the Argentine Republic, General Mitre expressed confidence that the crisis in that country cannot last long. The agreement between the English financial committee and the government of the Argentine Republic, he said, promised to rehabilitate the finances of the republic. Three years hence the present position will be normal. The effect of the crisis on commerce will be only transitory. The republic possesses immense resources which as yet have been scarcely tapped. Regarding his candidature for the presidency of Argentina, General Mitre said that he would not stand as a candidate for that office unless he found, after his arrival in Buenos Ayres, that the republic would tend to secure the welfare and prosperity of the country. He was grateful, he said, for the constestation by the people of Buenos Ayres in favor of his candidature, but he must postpone coming to a definite decision on the matter until he had met and talked with his compatriots.
