### THE SPECULATIVE MARKETS.

Monday's Weakness Felt in the Opening of All the Pits.

DISAPPOINTMENT IN WHEAT ALL ROUND.

Both Bulls and Bears in the Lurch-The Old Song Does Not Fit-Corn Leads Wheat-Cattle and Hogs.

URICAGO, Jan. 20.- [Special Telegram to THE BEE. The weakness in Monday's markets was felt on change at the opening. This was true of cereals and provisions. May wheat opened about he lower at 634c, sold at 53c and recovered to 335c. Corn, after starting a fraction easier at 50%c, reacted to 50%c, then o 50%c and 50%c at the end of the hour. Oats were firm and steady. Mess pork sold the lower, touching \$10.60 for May delivery. Lard

sold 24c lower; ribs 5c lower. There was disappointment in wheat all around today. The bears expected another decline of 14c and the bulls looked for a rebovery of a couple of cents. There was a good big market most of the time, but the range of prices, up to I o'clock, was within ic. with the price of May at that hour at the best point of the day at 91c. The bears had the best of it early in the day and put the price of May at Sc. Later the firmer feeling put the price back to 9ic. This was all the action until half an hour before the close. The market opened around 92%c, or about %c off from last night. Liverpool cables were weak and Mdlower. Wheat on ocean passage Increased \$15,000 bushels. Receipts at Minneapolls were 251 cars. Receipts here were over the estimate at 107 cars. The movement here yesterday was 31,000 bushels receipts, and \$4,000 bushels, shipments. With this class of news and Pardridge, S. V. White & Co. and Parker leading the selling, the bear pressure sastly caused a slight decline to Sic. After the bulge to 935c, it was said that Mitchell sold put a line of wheat and put the price back to KMc. Here the best buying of the day began. He mholz, Hutchinson, Dunne, Irwin, Green, and others bought early. They bought again on the second decline. The Wear commission company, W. P. Harvey & Co., and others also bought freely on the break. The news also besame more builish. The error in Chicago tooks made a decrease in the visible supply of 119,000 bushels more than announced yesterday. New York cleared \$8,000 bushels of wheat. In that market No. 2 red was quoted 3c over May, and the cash price 17% over Chicago. There were efforts made to buy wheat here and it was rumored about noon that Dun would probably work 200,000 bushels. This was only a guess on indications, but it helped buying. Later advices from the continent indicated damage from the terrible weather prevailing. Rains were reported in the west and the danger of a hard freeze following was a bull arguiaent. At 1 o'clock the price of May was at Mc. or Mc over the close last night. The wheatmarket received its best strength during the last half hour. The news became more bullish. The working of 65,000 bushels at St. Louis to clear from New Orleans and relative prices of cash wheat here and at New York would not be ignored. On the final bulge the price of May went to 94%c, 1%c up from the bottom of Me over last night. The close was at the top. January was quoted at We up to 884c; July at 884c up to 904c at the close. The estimate for this market for Wedaeseny was but 48 cars.

The old song about corn acting in spmpathy with wheat was not sung in the pit this morning. Corn led wheat in point of strength all day. When May wheat was %e lower early. May corn was 14c up from last night. When wheat got from 93c to 94c or 14c over the close last night, corn was up to 51%c or ic over the close on Monday. Action in May corn was spened a fraction lower at 50%c, sold at 50%c to 50%e to 51%e at 1 o'clock. Commission houses were among the early buyers. Cables were 4d lower and partly offset by the de-crease of 60,000 bashels on ocean passage. Chicago shipments were 103,000 bushels and At-lantic ports cleared 57,000 bushels. The light estimate for Wednesday, 125 cars, was one of the things which made the shorts uneasy. It was the oversold condition of the market, no doubt, that gave the strong reaction. Corn held the lead to the close. The covering of torn so freely by Pardridge yesterday left less on the market, and there was good buying by longs as well as shorts. Hutchinson was moderate seller all day. This tended to make the advance slow, but it continued until May sold at 51%c, or 1%c over last night and closed at 51%c; January nominal at 48%c; February 48%c to 49c; July 50%c, to 52%c, to 52%c at the close. May corn puts were at 51%c; calls,

close. May corn puts were at 51%c; calls, 52%c.
There was good strength in oats as in other grains. The recovery from the bottom price of the session was ic. The range for May was 41%c and 45%e at the close; 45%c@45% or %c up for the day. The market was depressed early with others when the buying became quite general. Hutchinson and Eggleston were leading sellers, and Bartlett and Frazer and Counselman & Day the best buyers. The nominal prices for January were 42%c. 43%c and 43%c at the close; July 40%c to 41c at the close;

close.
There was a change of front in provisions. There was a change of front in provisions, but no such reaction as came to cereais. The receipts of logs, while not up to the estimate, were pretty free at 35,000, and packers were against the market from the start. During the early trading Armour & Co. and Cadahy were sellers of pork and ribs. Orr was a seller of pork thought to be for September. Later in the day the Angle-American and other packers and local operators sold hard and depressed the market. During the last hour the baying became quite general and there was less offering. The last prices were at the top for all products. May pork sold at \$10.67\forall to \$10.60 early, closing at \$10.75, or 5e over last night. May lard broke 5c from \$6.17\forall to \$6.12\forall and recovered to \$6.17\forall R Ribs closed at \$5.35.

F. G. Logan & Co. to Ben B. Bryan—The wheat market opened with free sellers at 93% and 33% for May. At this the holders of privileges became buyers and carried the market up to 93%. The selling again became general and told of to the opening price. On this decline some buying for foreign account took place. This followed by an advance in Baltimore of a cent in eash and difficult to buy with a total stock under 50,000, brought in a lot of fresh buying orders with light offerines established another advance to 94c. Fresh news of drought in California carried it to 04% and closed at 94% bid. Some cables received here give bad accounts of the continental crops being damaged by hard freezing weather. English cables are weak and lower. The local trade have been bearish for some days and were anxious buyers on the advance. It is the season when the growing crop is liable to damage, but unless we have this any advance will be temporary. Corn was very strong, one house who sold heavily a few cents over the present price were the principal buyers. The market closes strong. Provisions barely steady; hog receipts too heavy.

were the principal buyers. The market closes strong. Provisions barely steady; hog receipts too heavy.

W. G. McCormick & Co. to F. C. Swartz & Co. Today's wheat market has shown the effect of the excessive short seiling which usually results from a continuous break lasting through several days. Our largest short covered the bulk of his wheat yesterday and Saturday, but the smaller ones, who usually see things after they have happened, were buyers today, and to this is to be attributed today's advance. The news was conflicting. Cables were received speaking of damage by cold weather to the European crop and the English visible supply decreased 1.080.090, and yet in the face of these bullish items the English market quotations showed a decline of \$4\$ of a penny. Cargoes on passage increased \$16,000 bushels; receipts in the porthwest were 250 cars, which is considered ample. Whatever course the market may take later on we think it now decidedly oversold by small traders and navise prudence in selling short except on fair bulges. Cornquite active, strong and higher on covering of sharps, many of which were put out on yesterday's break. The scare was partly in sympathy with the bulge in wheat, but more directly caused by the estimates of very small receipts for tomorrow. Well informed receivers say that these small receipts are due to the difficulty in getting cars and that they will be decidedly increased later. Provisions—weak early, but had fair reaction later partly in sympathy with the strength in grain but more cause traders thought they detected buying by two prominent packers who have been bears.

Kennett, Hopkins & Co. to Christie-Lathrop Com. Co.—Wheat opened yeak enough to

been bears.

Kennett, Hopkins & Co. to Christie-Lathrop Com. Co.—Wheat opened weak enough to shake out most of the longs who did not liquidate yesterday and the weakness encouraged offerings from that class of traders who sell on breaks and buy on bulges. There was good investment by large commissioners which absorbed the offerings and when the little bears undertook to cover there was a sharp advance. In a word, the market was oversold and offerings ceased, rendering a reaction inundertook to cover there was a sharp advance. In a word, the market was oversold and offerings ceased, rendering a reaction inevitable. The news has been rather builtsh on the reports from Europe of damage by cold weather. It is believed that the same complaints will be more frequent on examination. There has been fair inquiry for export from foreign ho ses, and large lading of wheat and flour at Atlantie ports are reported. The market closed strong at about the best figures of the session. It is not improbable we may get still higher prices tomorrow, but on any further advance we advise saies. Corn—a general rush to cover shorts was a conspicuous feature in the corn pit this morning. The market was a broad one and individual operations were lost sight of. The trade seems to be pretty well evened up, with no important outstanding interest on either side. We look for rallies from time to time, but advise sales on all such. Oats strong, active and higher. Provisions—We have had heavy trading and some liquidation. Packers were prominent sellers of pork, lard and ribs. The market was weak and drooping most of the day, but rallied toward the close, when wheat advanced on the covering by local shorts. The course of the market at present is largely controlled by the movement of hogs.

### FINANCIAL.

NEW YORK, Jan. 20 .- [Special Telegram to THE BEE.]-STOCKS.-The bears were in control of the stocks again this morning. The only bull card talked of for the day was Chicago Gas, on the strength of its new directory and the prospect of reorganization. The first prices displayed little strength the last hour of yesterday and this was followed by pronounced weakness in all leading shares, material losses being established before there was a sign of a rally. New England, while was a sign of a rally. New England, while not the most active stock, was conspicuous for the width of its fluctuations and before its downward movement was checked it had reached 364. The strong industrials of yesterday were especially weak, and Chicago Gas, after opening yp a fraction, declined 14;c. Sugar receipts Bie and Laclede Gas 14;c. while the leading rallroad stocks all lost large fractions later including Rock Island, Burlington, St. Paul and Union Pacific. Toward the end of the hour there was a feeble rally, but it did not change the temper of the market. Before Chicago Gas recovered to 46% and Sugar Receipts from 76½ to 77% c, Atchison showed better support at 30% c, North American was off to 16c, while Northern Pacific, preferred, held up firm at 71% c. The market was very narrow up to 1 o'clock. There was some improvement in stocks late in the day. Prices generally advanced slightly as silver declined to \$1.05, because this was thought to indicate an adverse action on the freecoinage measure. Among the industrial shares Gas was off to 46% c, while Sugar Receipts were up1% to 78% c. Atchison and Union Pacific showed the best recovery among the western stocks, the former showing a net gain of 5 and the the latter \( \frac{1}{2} \). Burlington and Roos Island were steady; Northwestern off \( \frac{1}{2} \) and the the latter \( \frac{1}{2} \). Wall Street. Kenett, Hopkins & Co. to Christie-Lathrop

Com. Co.—Our market at the opening was affected some by the strong prices for American securities in London, but this was not potent enough to affect the whole list, but was confined to such American stocks as are dealt in in London, and the prices for these did not respond fully to the advance in London. Western stocks began to show weakness from the opening. The failure of the traffic managers of the roads in the new western association to agree upon a division of territory and the reference of matter to a board of commissioners made a bad impression. This division of territory is one of the most difficult points and the New York meeting was referred until that is settled. Very little has been done in the way of forming a new association. There were strong points before the opening to buy Chicaga Gas for a material advance today, but this seemed to be matched by the liberal selling and consequently the promised movedid not take place. It is reported that the Gas company is negotiating with the city of Chicago to pay the city the stipulated sum yearly and to be allowed to charge \$1.23 for gas and thus be rid of vexatious littigation. The market continued dull throughout the balance of the day but gradually hardened during the afternoon on shorts covnering. Quite a short interest developed in taking active interest in the market closed firm at about the best prices of the day. Money is easy. Total sales, 142.062.

CHICAGO, Jan. 20.-[Special Telegram to THE BEE.]-CATTLE-Business was slow and prices weak. In some cases 10c to 15c lower on the ordinary run of fat cattle, with best extra and export steers only seiling steady. Al- Swift & Co ...... though the receipts are light in Chicago the are plenty of cattle in sight in the west and Buffalo, which in turn had the effect of shu ting out the shipping demand and limit the demand from our local dealers. Market Mention.

Sixty-five cars of stock were received from Iowa.

A. H. Merchant, Fremont, Elkhorn & Missouri Valley freight agent, under date of the 19th, wrote to Manager Babcock that "It has been decided to put on a stock train to run twice a week, leaving Verdigre about 4 o'clock in the afternoon, connecting with the train at Norfolk in the evening, reaching South Omaha early in the morning." This removes another shipping inconvenience and will largely increase the stock receipts at this point.

### <u>Prosperous</u> Helena, Montana.

The prosperity of Mentana is not subject to the vicissitudes of success or failure of crops, to drouth or flood, to financial stringencies or panies. Here crop of precious metals is lifted out of the ground with hourly regularity and increasing buck, insuring business opportunities based upon foundations of stability and endurance.

The mines now opened produce annually in field, Silver, Copper and Lead, Silver, Copper and Lead, Silver, Copper and Lead, Silver, of the control of which is disturbed in the State. There are thousands more equally as promising, awaiting capital for development. There is Iron, Coal, Building Stone, Clay and Timber in Abundance.

Investments in Cattie, Horses and Sheep, with good management, average a profit of more than forty per cent. a year. The vast bands of stock roam throughout the entire year, in excellent condition, supported by the cursed grasses on the ground. The business is managed by Associations in such a manner that every person's possessions are as as as to the range as it confined to an inclosed pasture. The city of Helena is the political, financial, social, railroad, business, and educational center section.
